*Myth and materiality in a woman's world* Lynn Abrams,2013-07-19 Shetland has a history unique in Europe for over the past two centuries it was a place where women dominated the family economy and the cultural imagination Women ran households and crofts without men They maintained families and communities because men were absent And they constructed in their minds an identity of themselves as liberated long before organised feminism was invented And yet Shetland is a place which was made by the most masculine of societies those of the Picts Scots and above all the Vikings and its contemporary identity still draws on the heroic exploits and sagas of medieval Norsemen This book examines how against this tradition Shetland became a female place and offers answers as to how in this most isolated island community the inhabitants transgressed and reversed their traditional gender roles Reconstructing this woman s world from fragments of cultural experience captured in

written and oral sources this book will appeal to scholars in the fields of social and cultural history social anthropology gender and women s studies      **Scottish Women** Esther Breitenbach,2013-06-24 Drawing on a wide range of source materials from across Scotland this sourcebook provides new insights into women s attitudes to the society in which they lived and how they negotiated their identities within private and public life      *The Women's Land Army in First World War Britain* B. White,2014-07-16 Between 1917 and 1919 women enlisted in the Women s Land Army a national organisation with the task of increasing domestic food production Behind the scenes organisers laboured to not only recruit an army of women workers but to also dispel public fears that Britain s Land Girls would be defeminized and devalued by their wartime experiences      **Historical Directory of Trade Unions** Arthur Marsh,2016-12-05 Despite widespread interest in the trade union movement and its history it has never been easy to trace the development of individual unions especially those now defunct or where name changes or mergers have confused the trail In this respect the standard histories and industrial studies tend to stimulate curiosity rather than satisfy it When was a union founded When did it merge or dissolve itself or simply disappear What records survive and where can further details of its history be found These are the kinds of question the Directory sets out to answer Each entry is arranged according to a standard plan as follows 1 Name of union 2 Foundation date Name changes if any and relevant dates Any amalgamation or transfer of engagements Cessation winding up or disappearance with date and reasons where appropriate and available 3 Characteristics of membership leadership policy outstanding events membership numbers 4 Sources of information books articles minutes etc location of documentation      **Fishing for Heritage** Jane Nadel-Klein,2020-05-26 Castles lochs seascapes Coastal Scotland is one of the world s most romanticized tourist destinations yet it is in the midst of severe economic decline The North Atlantic fisheries crisis has hit Scottish communities hard and local fisherfolk are faced with chronic insecurity anxiety over the decline of fishing and doubts about their cultural survival The decline of this traditional industry has been accompanied by growing tourism along Scottish shores Fishing villages are marketed for tourist consumption and culture has become a commodity Drawing upon fieldwork novels folk music and travel literature Nadel Klein explores how these influences have affected locals sense of identity and presence within a modern European nation How is identity linked to power What role do memory and authenticity play in the creation of Scottish heritage How do locals feel about the onslaught of tourists The topical nature of these issues and their relevance to other regions facing similar tensions make this book an important contribution to contemporary anthropology      Wealth and Welfare Martin Daunton,2007-04-26 Martin Daunton provides a clear and balanced view of the continuities and changes that occurred in the economic history of Britain from the Great Exhibition of 1851 to the Festival of Britain in 1951 In 1851 Britain was the dominant economic power in an increasingly global economy The First World War marked a turning point as globalisation went into reverse and Britain shifted to insular capitalism Rather than emphasizing the decline of the British economy this book stresses modernity and the growth of new patterns of

consumption in areas such as the service sector and the leisure industry      **Scottish Life and Society: Bibliography for Scottish ethnology** ,2000      *Childhood and Child Labour in the British Industrial Revolution* Jane Humphries,2010-06-24

This is a unique account of working class childhood during the British industrial revolution first published in 2010 Using more than 600 autobiographies written by working men of the eighteenth and nineteenth centuries Jane Humphries illuminates working class childhood in contexts untouched by conventional sources and facilitates estimates of age at starting work social mobility the extent of apprenticeship and the duration of schooling The classic era of industrialisation 1790 1850 apparently saw an upsurge in child labour While the memoirs implicate mechanisation and the division of labour in this increase they also show that fatherlessness and large subsets common in these turbulent high mortality and high fertility times often cast children as partners and supports for mothers struggling to hold families together The book offers unprecedented insights into child labour family life careers and schooling Its images of suffering stoicism and occasional childish pleasures put the humanity back into economic history and the trauma back into the industrial revolution

**AMONGST FARM HORSES** Stephen Caunce,2016-08-26 This book is a unique and detailed account of a rural way of life formed from extensive academic research and oral testimony recorded in the 1970 s It tells of the farm servant system in East Yorkshire which was central to the rural economy in that area for men born before 1900 Boys as young as 13 would be looking after and working with as many as 4 heavy horses in a team Their lives would be spent living in the farmhouse and would continue that way until they married Rural history forms an essential part of national history with different parts of the UK having very varied employment systems This book describes how although having roots deep in history the East Riding farming system was thoroughly modern and profitable paying good wages to its workers Telling the stories of their lives in their own words this book brings to life the intimate details of a distant way of living and working
