scholarship *Doing Women's History in Public: A Handbook for Interpretation at Museums and Historic Sites* connects that scholarship with the tangible resources and the sensuality that form museums and historic sites: the objects, architecture and landscapes in ways that encourage visitor fascination and understanding and center interpretation on the women active in them. With numerous examples that focus on all women and girls, it appropriately includes everyone for whom women intersect with every other human group. This book provides arguments, sources, written, oral and visual, and tools for finding women's history, preserving it and interpreting it with the public. It uses the framework of Significance, importance, Knowledge Base, research in primary, secondary and tertiary sources and Tangible Resources: the preserved physical embodiment of history in objects, architecture and landscapes. Discusses traditional and technology-assisted interpretation and provides Tools to implement *Doing Women's History in Public*. Using a hospitality model, museums and historic sites are the locales where we assemble, learn from each other and take our insights into a more gender-shared future.

Women's Place in Pope's World Valerie Rumbold, 1989-09-29 How was Alexander Pope's personal experience of women transformed into poetry? How characteristic of his age was Pope's attitude toward women? What was the influence of individual women such as his mother, Patty Blount and Lady Mary Montagu on his life and work? Valerie Rumbold's is the first full-length study to address these issues. Referring to previously unexploited manuscripts, she focuses both on Pope's own life and art and on early eighteenth-century assumptions about women and gender. She offers readings of some of the well-known poems in which women feature prominently and follows Pope's response throughout his writings in general. The poet's own alienation from the dominant culture through religion, politics and physical handicap and his troubled fascination with certain kinds of women make this subject complex and compelling with wide implications. Dr. Rumbold provides new insight and shows how women with whom Pope dealt can themselves be seen as individuals with presence and dignity.

Editing Women's Writing, 1670-1840 Amy Culley, Anna M. Fitzer, 2017-09-18 This edited volume is the first to reflect on the theory and practice of editing women's writing of the 18th century. The list of contributors includes experts on the fiction, drama, poetry, life writing, diaries and correspondence of familiar and lesser-known women including Jane Austen, Delarivier Manley, Eliza Haywood and Mary Robinson. Contributions examine the demands of editing female authors more familiar to a wider readership such as Elizabeth Montagu, Mary Robinson and Helen Maria Williams as well as the challenges and opportunities presented by the recovery of authors such as Sarah Green, Charlotte Bury and Alicia LeFanu. The interpretative possibilities of editing works published anonymously and pseudonymously are considered across a range of genres. Collectively, these discussions examine the interrelation of editing and textual criticism and show how new editions might transform understandings not only of the woman writer and women's literary history but also of our own editorial practice.

Feminist Foremothers in Women's Studies, Psychology, and Mental Health Ellen Cole, Esther D

Rothblum, Phyllis Chesler, 2014-05-12 *Feminist Foremothers in Women's Studies Psychology and Mental Health* is by and about the more recent wave of feminist foremothers those who were awakened in the 1960s and 70s to the realization that something was terribly wrong. These are the women who created the fields of feminist therapy, feminist psychology, and women's mental health as they exist today. The 48 women share their life stories in the hope that they will inspire and encourage readers to take their own risks and their own journeys to the outer edges of human possibility. Authors write about what led up to their achievements, what their accomplishments were, and how their lives were consequently changed. They describe their personal stages of development in becoming feminists from unawareness to activism to action. Some women focus on the painful barriers to success, fame, and social change; others focus on the surprise they experience at how well they and the women's movement have done. Some well-known feminist foremothers featured include Phyllis Chesler, Gloria Steinem, Kate Millett, Starhawk, Judy Chicago, Zsuzanna Emese Budapest, Andrea Dworkin, Jean Baker Miller, Carol Gilligan. In *Feminist Foremothers in Women's Studies Psychology and Mental Health*, many of the women see in hindsight how prior projects and ideas, and even dreams, were the forerunners to their most important work. They note the importance of sisterhood and the presence of other women, and the loneliness and isolation experienced when they don't exist. They note the validation they have received from grassroots feminists in contrast to disbelief from professionals. Although these women have been and continue to be looked up to as foremothers, they realize how little recognition they've been given from society at large and how much better off their male counterparts are. Some foremothers write about the feeling of being different, not meshing with the culture of the time, and about challenging the system as an outsider, not an insider. These are women who had few mentors, who had to forge their own way, hit the ground running. Their stories will challenge readers to press on to continue the work these foremothers so courageously started. Throughout the pages of *Feminist Foremothers in Women's Studies Psychology and Mental Health*, there runs a sense of excitement and vibrancy of lives lived well, of being there during the early years of the women's movement, of making sacrifices, of taking risks, and living to see enormous changes result. Throughout these pages too, sounds a call not to take these changes for granted but to recognize that feminists, rather than arguing over picayune issues or splitting politically correct hairs, are battling for the very soul of the world. *Women's Political Writings, 1610-1725 Vol 4* Hilda L. Smith, Mihoko Suzuki, Susan Wiseman, 2024-08-01 Includes a variety of women's political writings from the Seventeenth Century. This collection highlights the principles inherent in female political action in its many and varied forms, from women's Civil War petitioning to the efforts of Quaker women to reform prisons. *Women's Experience of Modernity, 1875-1945* Leslie W. Lewis, Ann L. Ardis, 2003-01-27 Analyzing such cultural practices as selling and shopping, political and social activism, urban field work, and rural labor, radical discourses on feminine sexuality, and literary and artistic experimentation, this volume contributes to the rich vein of current feminist scholarship on the gender of modernism and challenges the assumption that modernism rose naturally or inevitably to the forefront of the cultural.
