Fashion Theory and the Visual Semiotics of the Body Žarko Paić,2022-07-18 Instead of the logic of representation of fashion in the light of modern society and postmodern culture this book argues that contemporary fashion should be regarded as a performative conceptual turn in the very core of body iconograms The text presents a theoretical perspective of the phenomenon of fashion within fashion theory as establishing a new approach from visual semiotics Through this lens fashion therefore emerges as a visual code of contemporary societies and cultures in the networked matrices of hyperreality and visions of that coming time that will determine the combination of cybernetics fetishism and transgression
