Paul T. Frankl and Modern American Design Christopher Long, 2007-01-01. A comprehensive view of the life work and ideas of one of the creative giants of modern American design. Arriving in the United States in 1914, Viennese-born Paul T. Frankl (1886-1958) brought with him an outsider's fresh perspective and an enthusiasm for forging a uniquely American design aesthetic. In the years between the two world wars, he more than any other designer helped shape the distinctive look of American modernism. This authoritative book draws on an extensive collection of unpublished documents and family papers and photographs to provide the first full account of Frankl's life and ideas. The book also explores the history of modern American design and the extent of Frankl's influence on its trajectory. In the early 1920s, Frankl opened a New York City shop that became an epicenter of American modernism. Over the next decades, his work encompassed everything from individual pieces of furniture and decorative accessories to entire interiors, and his style continuously evolved from early Skyscraper furniture to relaxed and casual designs favored by the Hollywood elite in the 1930s to manufactured pieces for the mass market in the 1950s. The book charts the impact of Frankl's ideas on merchants and consumers, on his fellow designers, and on the changing look of American homes and workplaces. With close to 170 illustrations, *Paul T. Frankl and Modern American Design* is an essential reference on 20th-century design.

Chicago Makes Modern Mary Jane Jacob, Jacquelyn Baas, 2012-12-15 Chicago is a city dedicated to the modern from the skyscrapers that punctuate its skyline to the spirited style that inflects many of its dwellings and institutions from the New Bauhaus to Hull House. Despite this, the city has long been overlooked as a locus for modernism in the arts; its rich tradition of architecture, design, and education disregarded. Still, the modern in Chicago continues to thrive as new generations of artists incorporate its legacy into fresh visions for the future. *Chicago Makes Modern* boldly remaps twentieth-century modernism from our new-century perspective by asking an imperative question: How did the modern mind deeply reflective yet simultaneously directed help to dramatically alter our perspectives on the world and make it new? Returning the city to its rightful position at the heart of a multidimensional movement that changed the face of the twentieth century, *Chicago Makes Modern* applies the missions of a brilliant group of innovators to our own time. From the radical social and artistic perspectives implemented by Jane Addams, John Dewey, and Buckminster Fuller to the avant-garde designs of L. S. Moholy-Nagy and Mies van der Rohe, the prodigious offerings of Chicago's modern minds left an indelible legacy for future generations. Staging the city as a laboratory for some of our most heralded cultural experiments, *Chicago Makes Modern* reimagines the modern as a space of self-realization and social progress where individual visions triggered profound change. Featuring contributions from an acclaimed roster of contemporary artists, critics, and scholars, this book demonstrates how and why the Windy City continues to drive the modern world.
