Fast Carriers The Forging Of An Air Navy:

The Fast Carriers Clark G Reynolds, 2013-09-15 This classic study is considered essential reading for its analysis of fast aircraft carrier development in WWII It provides a fascinating record not only of the U S Navy s metamorphosis from a battleship oriented to a carrier centered fleet but also of the heated debates that took place over the changing naval strategy With an insider s grasp of the famous individuals involved award winning naval historian Clark G Reynolds takes readers from the war rooms of Washington to the flight decks of the Pacific He vividly describes the battles over the concept of fast carriers between the air admirals and battleship admirals and offers little known details gleaned from personal interviews and private diaries *The Fast Carriers* ,1978 *The Fast Carriers* Clark G. Reynolds, 1978-01 *A Leader Born* Alton Keith Gilbert, 2006-08-19 This biography of one of World War II s great military leaders is a rich tribute to a staunch American naval hero WWII Quarterly John S Slew McCain was an old school sailor Wiry profane a cusser and a gambler he reminded more than one observer of Popeye He was also a pioneer in the hard hitting naval tactics that brought Imperial Japan to its knees McCain graduated from Annapolis in 1906 and served aboard an armored cruiser in World War I Perceiving the future of naval warfare he earned his aviation wings in 1936 and by 1939 McCain was commander of the aircraft carrier USS Ranger He was thus well placed to play a leading role in America s cut and thrust war with the Japanese across the broad expanses of the Pacific In 1942 he was made commander of all land based aircraft during the campaign for Guadalcanal Though he took his share of blame for the disaster at Savo Island he counterattacked with every means at his disposal to the point of commandeering the planes of the crippled carriers Enterprise and Saratoga to reinforce US strength on Henderson Field By the time the US returned to the Philippines McCain was leading a fast carrier task force under William Bull Halsey When asked what he thought about his carrier commander Halsey replied Not much more than my right arm McCain s carrier group would destroy thousands of enemy planes and hundreds of ships with aggressive swarming tactics Four days after Japan officially surrendered McCain died in his bed His name has lived on however through his son who became commander of US naval forces in the Pacific and his grandson John S McCain III carrier pilot Vietnam POW and United States Senator Drawing upon a wealth of primary sources including information provided by the McCain family as well as an expert grasp of the titanic battles waged by the US armed forces in the Pacific Alton Keith Gilbert has provided the fullest account of the Admiral John McCain s life yet written *World War Two* Jeremy Black, 2004-11-23 Cutting through over half a century of historical build up this new and convincing account of World War II uses a global perspective to explain the complicated course in military terms Black a distinguished military historian bucks the current trend to demilitarise and gives due weight to the campaigns and battles that made up the war In doing so he challenges common interpretations and includes new insights to make this one of the most exciting new histories of the Second World War Covering all the main areas of conflict the chronological approach includes analysis of attacks at land air and sea and a comparison of military

a number of weaknesses the most important of which was a shortage of modern equipment and after 1942 diminished air power Yet he demonstrates how the Japanese remained a resilient enemy who could be defeated only when the Americans deployed sufficient equipment and used it in an appropriate manner The Office of Naval Intelligence as well as the intelligence services operating in the Pacific theater thus had to assess a wide array of conflicting characteristics and provide a balanced evaluation concerning the strengths and weaknesses of the Imperial navy At the same time a large part of the intelligence analysis was undertaken by commanders in the Pacific Fleet Naval personnel and aircrews assessed the information gained through encounters with the enemy so that they could develop a set of methods whereby US forces were able defeat the Japanese without incurring excessive casualties and losses The intelligence services in turn played an important role in disseminating the information on the most efficient tactics and weapons that could be used to defeat the Imperial Fleet The Elusive Enemy aims to explain how American perceptions concerning the Japanese navy evolved during the conflict with a particular focus on the role of intelligence It also seeks to introduce a new perspective on the question as to why the U S Navy carried out its campaigns during the Pacific War in the manner that it did Pearl Harbor's Revenge Rod Macdonald, 2024-07-09 informative and detailed with some interesting and little known anecdotes as well National Maritime Historical Society Early on Sunday 7 December 1941 Japanese carrier borne aircraft launched a surprise attack against the US Pacific Fleet based at Pearl Harbor It was a date that President Roosevelt declared will live in infamy During the strike Japanese planes attacked the seven US battleships lined up in Battleship Row and the flag battleship USS Pennsylvania in drydock for overhaul The battleship USS Arizona exploded from a bomb hit at the forward magazine killing 1 177 officers and men On USS Oklahoma 429 men were killed many trapped inside as the great battleship capsized after aerial torpedo strikes USS West Virginia meanwhile was hit by at least seven torpedoes and several bombs and engulfed in flames she settled onto the bottom on an even keel USS California was hit by a pair of torpedoes and a bomb flooding slowly she too settled on the bottom The other four battleships present were more lightly damaged with the crippled Nevada the only battleship to get underway during the attack being successfully beached By the time the assault was over eight battleships three light cruisers three destroyers a training ship and other smaller vessels had been sunk or damaged Hundreds of US aircraft had been damaged or destroyed while 2 403 Americans had been killed Within a week of the Japanese attack a great salvage organization had been formed Very quickly the lightly damaged battleships Pennsylvania Maryland and Tennessee had been repaired in naval yards and put back into service to protect the west coast of the USA Of the eight battleships attacked all but Arizona were raised temporarily patched up and sent back to naval yards on the west coast of America for final repair and modernization Main battery guns and ordnance were recovered from the wrecked Arizona which would then be left to rest on the bottom of the harbor for eternity as a memorial to the events of that fateful December day USS Nevada was lifted off the bottom in February 1942 California in March 1942 and West Virginia in June

1942 The capsized Oklahoma while eventually parbuckled and raised was found to be too badly damaged to be fully rebuilt Six of the eight battleships would thus return to service with improved protection against bombs and torpedoes and being fitted with the latest anti aircraft and gunnery systems They would re enter to the war to wreak a terrible revenge making their presence felt during the reconquest of the Aleutian Islands and the Philippines and the great battles of Leyte Gulf Iwo Jima and Okinawa Nevada would go on Atlantic convoy duty before bombarding German positions off Utah beach as the D Day Normandy landings began This is the story of those six

Young, 2024-11-21 The US Navy s 1944 Philippines raids were the first time naval aircraft had challenged and beaten a land based air force With artwork and rare photos this is the first book to study them During September 1944 the US Navy s Task Force 38 launched a series of huge airstrikes against Japanese forces in the Philippines Seventeen carriers wielding over 1 000 combat aircraft made up the most powerful naval fleet assembled to date It was the first time aircraft carriers had dared to confront a major land based air force Over a period of two weeks TF 38 demonstrated the power and mobility of the Fast Carrier Task Force The strike forces claimed 368 Japanese aircraft shot down and 446 destroyed on the ground with over a hundred ships destroyed and significant damage to ground installations This book is the first to focus on the campaign and is illustrated with archive photos original artwork maps and 3D diagrams Renowned Pacific War historian Edward M Young draws upon after action reports and other primary sources to explain how these September strikes impacted the reeling forces of Imperial Japan Soon overshadowed by the invasion of Leyte and the enormous Battle of Leyte Gulf few detailed accounts of this campaign exist But it was an important stage in the Pacific War for the relative ease of these raids prompted the planned invasion of Leyte to be brought forwards by two months **Arguing Over the American Lake** Hal M. Friedman, 2009 Hal M Friedman analyzes the major issues concerning the Pacific Basin that confronted the executive branch departments between 1945 and 1947 The Eastern Fleet and the Indian Ocean, 1942-1944 Charles Stephenson, 2022-04-06 A study of the British Royal Navy s activities in the Indian Ocean during World War II led by Admiral Sir James Somerville The story of

the British Eastern Fleet which operated in the Indian Ocean against Japan has rarely been told Although it was the largest fleet deployed by the Royal Navy prior to 1945 and played a vital part in the theatre it was sent to protect it has no place in the popular consciousness of the naval history of the Second World War So Charles Stephenson's deeply researched and absorbing narrative gives this forgotten fleet the recognition it deserves British pre war naval planning for the Far East is part of the story as is the disastrous loss of the battleship Prince of Wales and battlecruiser Repulse in 1941 but the body of the book focuses on the new fleet commanded by Admiral Sir James Somerville and its operations against the Japanese navy and aircraft as well as Japanese and German submarines Later in the war once the fleet had been reinforced with an American aircraft carrier it was strong enough to take more aggressive actions against the Japanese and these are described in vivid detail Charles Stephenson's authoritative study should appeal to readers who have a special interest in the war with Japan in naval history more generally and Royal Navy in particular Praise for *The Eastern Fleet and the Indian Ocean 1942-1944* This meticulously researched outstandingly clear well written and absorbing account is long overdue and will most likely become a standard work The text is most helpfully supported by over 80 pages of detailed end notes referenced to each chapter and a detailed index This is not only a book for naval historians but also for anyone with an interest in the War in the Indian Ocean region Highly recommended Military Historical Society I enjoyed this book it gives us an account of an often neglected part of the war at sea and of the achievements of Admiral Somerville who kept his fleet intact in the face of a potentially overwhelming opponent then was willing to acknowledge that his fleet needed to improve massively before it could take on the Japanese Dr John Rickard author and webmaster of the Military History Encyclopedia on the Web
