Dark Matter of the Mind Daniel L. Everett, 2016-11-15 From a linguist and anthropologist a fascinating argument about culture cognition and the concept of human nature Choice Is it in our nature to be altruistic or evil to make art use tools or create language Is it in our nature to think in any particular way For Daniel L Everett the answer is a resounding no it isn't in our nature to do any of these things because human nature does not exist at least not as we usually think of it Flying in the face of major trends in evolutionary psychology and related fields he offers a provocative and compelling argument in this book that the only thing humans are hardwired for is freedom freedom from evolutionary instinct and freedom to adapt to a variety of environmental and cultural contexts Everett sketches a blank slate picture of human cognition that focuses not on what is in the mind but rather what the mind is in namely culture He draws on years of field research among the Amazonian people of the Pirah in order to carefully scrutinize various theories of cognitive instinct including Noam Chomsky's foundational concept of universal grammar Freud's notions of unconscious forces Adolf Bastian's psychic unity of mankind and works on massive modularity by evolutionary psychologists such as Leda Cosmides John Tooby Jerry Fodor and Steven Pinker Illuminating unique characteristics of the Pirah language he demonstrates just how differently various cultures can make us think and how vital culture is to our cognitive flexibility Outlining the ways culture and individual psychology operate symbiotically he posits a Buddhist like conception of the cultural self as a set of experiences united by various apperceptions episodic memories ranked values knowledge structures and social roles and not in any shape or form biological instinct The result is a fascinating portrait of the dark matter of the mind one that shows that our greatest evolutionary adaptation is adaptability itself

Subjectivity and Suffering in American Culture S. Parish, 2008-06-23 Winner of The Boyer Prize from the Society for Psychological Anthropology This book explores the experience of suffering in order to shed light on the nature of the human self Using an intimate life history approach it examines ways people struggle to cope with experiences that can shatter their lives a diagnosis of cancer the death of a spouse a parent's mental illness The volume takes readers deep into private worlds of suffering in American culture and invites reflection on what the subjectivity of suffering tells us about being human Addressing universal themes in a way that fully recognizes the individuality of those who experience a personal crisis Parish shows how individuals personalize the cultural and psychological resources in which

they find their possible selves *The Handbook of Language Emergence* Brian MacWhinney, William O'Grady, 2018-05-01
This authoritative handbook explores the latest integrated theory for understanding human language offering the most inclusive text yet published on the rapidly evolving emergentist paradigm Brings together an international team of contributors including the most prominent advocates of linguistic emergentism Focuses on the ways in which the learning processing and structure of language emerge from a competing set of cognitive communicative and biological constraints Examines forces on widely divergent timescales from instantaneous neurolinguistic processing to historical changes and language evolution Addresses key theoretical empirical and methodological issues making this handbook the most rigorous examination of emergentist linguistic theory ever **Psychotherapy, American Culture, and Social Policy** E.

Throop, 2009-01-05 A lively indictment of American culture's pervasive use of the psychotherapeutic metaphor to explain behaviours a habit that has crossed the Atlantic in recent years arguing that psychotherapy and excessive individualism has only ensured the continuance of social problems **A Study of Personal and Cultural Values** R. D'Andrade, 2008-04-14
This study analyzes American Vietnamese and Japanese personal values attempting to understand how it can be ethnographers find large differences in values between cultures yet empirical surveys find relatively small almost trivial differences in personal values between cultures **Cultural Anthropology** JoAnn Jacoby, Josephine Kibbee, 2007-05-30
The latest edition of a major literature guide provides citations and informative annotations on a wide range of reference sources including manuals bibliographies indexes databases literature surveys and reviews dissertations book reviews conference proceedings awards and employment and grant sources The organization closely follows that of the 1st edition with some much needed additions relating to online resources and new areas of interest within the field such as forensic anthropology environmental anthropology and Lesbian Bisexual Gay and Transgendered Anthropology Separate sections focus on individual subfields as well as emerging concerns such as ethical issues in cultural heritage preservation For academic and research library collections as well as faculty members in anthropology area studies and intercultural studies

Environmental Uncertainty and Local Knowledge Anna-Katharina Hornidge, Christoph Antweiler, 2014-03-15
Southeast Asia is a laboratory showing current worldwide ecological issues Environmental change natural resource exploitation as well as global climate change increasingly threaten people's livelihoods Environmentally based uncertainties foster a high level of knowledge uncertainty This poses a constantly growing threat to agricultural production Vulnerable communities with a low degree of resilience are most severely affected But local communities have abilities to innovate and develop locally embedded coping strategies The contributors of this volume are most interested in environmental change that fosters knowledge uncertainties Regions discussed include the Mekong Delta in Vietnam Moluccas Central Kalimantan West Sumatra and South Sulawesi in Indonesia and Tangail Region in Bangladesh **Becoming Muslim** A. Mansson
McGinty, 2006-10-02 While Islam has become a controversial topic in the West a growing number of Westerners find powerful

meaning in Islam Becoming Muslim is an ethnographic study based on in depth interviews with Swedish and American women who have converted to Islam *Sleep Around the World* K. Glaskin,R. Chenhall,2013-06-05 Although humans slumber for approximately one third of our lives sleep itself is vastly understudied This volume provides a comparative frame through which we can understand the myriad ways in which sleep reflects and embodies culture as contributors examine aspects of sleep in various countries and contexts **The Oxford Handbook of Reciprocal Adult Development and Learning** Carol Hoare,2011-09-06 One of the Best Books of 2011 from the Center for Optimal Adult Development The fields of adult development and the study of learning have traditionally been considered separate with development falling under psychology and learning under education However recent ideas research and practices that have emerged in these fields of study effectively emphasize the inherent reciprocal relationship that exists between them advances in development frequently lead to learning and conversely learning almost necessarily fuels development In this second edition of The Oxford Handbook of Reciprocal Adult Learning and Development the synchronicity between development and learning is explored further as expert authors advance the latest theories to provide a rich foundation for this new area of study and practice for this interrelated field of study At the border of two disciplines this handbook focuses on the capacities of intelligence meta cognition insight self efficacy spirituality interpersonal competence wisdom and other key adult attributes as they relate to positive changes and personal growth in adults Contexts for development and learning e g the work role and environment are also addressed and mixed in throughout the volume are emanating implications for research practice and policy What emerges is a thoughtful handbook for all who promote optimal aging and is a must read for academics psychologists and practitioners in adult development **Chinese Modernity and the Individual Psyche** A. Kipnis,2012-12-18 Rapid industrialization urbanization and marketization have led to startling social changes in reform era China Mindful of the many forms of social theory that relate modernity to individualism this volume addresses social and cultural change through the lens of psychological anthropology **Handbook of Methods in Cultural Anthropology** H. Russell Bernard,Clarence C. Gravlee,2014-07-08 The Handbook of Methods in Cultural Anthropology now in its second edition maintains a strong benchmark for understanding the scope of contemporary anthropological field methods Avoiding divisive debates over science and humanism the contributors draw upon both traditions to explore fieldwork in practice The second edition also reflects major developments of the past decade including the rising prominence of mixed methods the emergence of new technologies and evolving views on ethnographic writing Spanning the chain of research from designing a project through methods of data collection and interpretive analysis the Handbook features new chapters on ethnography of online communities social survey research and network and geospatial analysis Considered discussion of ethics epistemology and the presentation of research results to diverse audiences round out the volume The result is an essential guide for all scholars professionals and advanced students who employ fieldwork *Systematic Methods for Analyzing Culture* H.J.

François Dengah II, Jeffrey G. Snodgrass, Evan R. Polzer, William Cody Nixon, 2020-12-29 *Systematic Methods for Analyzing Culture* is a practical manual that provides step by step instruction for collecting and analyzing cultural data. This compact guide explains complex topics in straightforward and practical terms via research examples, textual and visual software guides, and hands on exercises. Through each chapter's introductory examples, the manual illustrates how socially learned knowledge provides group members with shared understandings of the world which allow for mutually intelligible interactions. The authors then carefully walk readers through the process of eliciting those socially learned shared and thus cultural representations of reality which structure the thinking and practice of individuals inhabiting social groups. Specifically, the book shows how researchers can elicit such thought and behavior via methods such as free lists, pile sorts, cultural consensus, and consonance analysis, textual analysis, and personal network research. The book will help both undergraduate and graduate students identify ways to unpack the black box of culture which may be absent or given only cursory attention within their training and respective fields. The book's clear and systematic step by step walkthroughs of each method will also encourage more established researchers, educators, and practitioners from diverse fields and with varying levels of experience to integrate techniques for assessing cultural processes into their research, teaching, and practice.

Advances in Culture Theory from Psychological Anthropology Naomi Quinn, 2018-07-25 This edited volume provides a long overdue synthesis of the current directions in culture theory and represents some of the very best in ongoing research. Here culture theory is rendered as a jigsaw puzzle; the book identifies where current research fits together the as yet missing pieces and the straight edges that frame the bigger picture. These framing ideas are two Roy D. Andrade's concept of lifeworlds, adapted from phenomenology, yet groundbreaking in its own right, and new thinking about internalization, a concept much used in anthropology but routinely left unpacked. At its heart, this book is an incisive, insightful collection of contributions which will surely guide and support those who seek to further the study of culture.

The Routledge Handbook of Language and Culture Farzad Sharifian, 2014-12-17 The Routledge Handbook of Language and Culture presents the first comprehensive survey of research on the relationship between language and culture. It provides readers with a clear and accessible introduction to both interdisciplinary and multidisciplinary studies of language and culture and addresses key issues of language and culturally based linguistic research from a variety of perspectives and theoretical frameworks. This Handbook features thirty-three newly commissioned chapters which cover key areas such as cognitive psychology, cognitive linguistics, cognitive anthropology, linguistic anthropology, cultural anthropology, and sociolinguistics. It offers insights into the historical development, contemporary theory, research, and practice of each topic and explores the potential future directions of the field. It shows readers how language and culture research can be of practical benefit to applied areas of research and practice such as intercultural communication and second language teaching and learning. Written by a group of prominent scholars from around the globe, The Routledge Handbook of Language and Culture provides a vital resource for scholars and

students working in this area *The Oxford Handbook of Religious Conversion* Lewis R. Rambo, Charles E. Farhadian, 2014-03-06 The Oxford Handbook of Religious Conversion offers a comprehensive exploration of the dynamics of religious conversion which for centuries has profoundly shaped societies cultures and individuals throughout the world Scholars from a wide array of religions and disciplines interpret both the varieties of conversion experiences and the processes that inform this personal and communal phenomenon This volume examines the experiences of individuals and communities who change religions those who experience an intensification of their religion of origin and those who encounter new religions through colonial intrusion missionary work and charismatic and revitalization movements The thirty two innovative essays provide overviews of the history of particular religions including Hinduism Buddhism Confucianism Taoism Sikhism Islam Christianity Judaism indigenous religions and new religious movements The essays also offer a wide range of disciplinary perspectives psychological sociological anthropological legal political feminist and geographical on methods and theories deployed in understanding conversion and insight into various forms of deconversion
