Finding God Today Contemporary Spirituality And The Church:

Finding God Today Josephine Bax, 1990-01-01 **Hearing God's Words** Peter Adam, 2004-02-11 Many discussions of Christian spirituality draw on a range of traditions and disciplines but little attention is given to the Bible itself Drawing on the Old and New Testaments John Calvin and the Puritans Peter Adam expounds a biblical model of spirituality in this New Studies in Biblical Theology volume **Christian Roots, Contemporary Spirituality** Lynda Barley, 2006 Time to Listen is a series of booklets that present current research messages for the Church today in an accessible way It is intended to help ordinary churches understand the changes in the world around them Christian roots contemporary spirituality the first title in the series looks at recent social trends and attitudes towards church God and belief Drawing on current research Lynda Barley addresses the question of how British society engages with church today and uncovers some surprising signs of encouragement Her analysis shows that the Christian faith still has a place at the heart of the nation on a personal and national level Combining analysis with real life stories she encourages the Church to take advantage of residual inherited faith in order to engage with the spiritual needs of those outside the Church Grounded Diana Butler Bass, 2015-10-06 The headlines are clear religion is on the decline in America as many people leave behind traditional religious practices Diana Butler Bass leading commentator on religion politics and culture follows up her acclaimed book Christianity After Religion by arguing that what appears to be a decline actually signals a major transformation in how people understand and experience God The distant God of conventional religion has given way to a more intimate sense of the sacred that is with us in the world This shift from a vertical understanding of God to a God found on the horizons of nature and human community is at the heart of a spiritual revolution that surrounds us and that is challenging not only religious institutions but political and social ones as well Grounded explores this cultural turn as Bass unpacks how people are finding new spiritual ground by discovering and embracing God everywhere in the world around us in the soil the water the sky in our homes and neighborhoods and in the global commons Faith is no longer a matter of mountaintop experience or institutional practice instead people are connecting with God through the environment in which we live Grounded guides readers through our contemporary spiritual habitat as it points out and pays attention to the ways in which people experience a God who animates creation and community Bass brings her understanding of the latest research and studies and her deep knowledge of history and theology to Grounded She cites news trends data and pop culture weaves in spiritual texts and ancient traditions and pulls it all together through stories of her own and others spiritual journeys Grounded observes and reports a radical change in the way many people understand God and how they practice faith In doing so Bass invites readers to join this emerging spiritual revolution find a revitalized expression of faith and change the world *Contemporary Yoga and Sacred Texts* Susanne Scholz, Caroline Vander Stichele, 2024-09-10 This book explores the textual traditions that authorize the history legitimacy and authenticity of today's physical posture practice The volume focuses on why and how yoga communities have

adopted various texts that they consider sacred or spiritually meaningful Among the texts discussed are Yogananda's Autobiography Sri Aurobindo's Savitri Patanjali's Yoga Sutra the Bhagavad Gita the Hatha Yoga Pradipika the Upanishads the Vedas and the Yogin Tantra Famous thinkers included are Aurobindo Yogananda Osho Rajneesh Sogyal Rimpoche Charles Johnston and Howard Thurman Offering a starting point the ten chapters address the nature selection and function of various ancient and contemporary texts read in contemporary yoga settings The attention centers on how and why texts are read and for whom they are read As yoga is practiced in ashrams yoga studios gyms meeting rooms and even private living rooms scholarly approaches to investigate the connections between yoga and texts are necessarily diverse This volume aims to inspire further scholarship on the reading of texts in past and present yoga communities The collection demonstrates that textual traditions deserve to be an important part of contemporary yoga scholarship The volume will therefore be of great interest to scholars of religious studies yoga studies and Asian studies as well as those studying sacred texts **The**

Spirituality Revolution David John Tacey, 2004 The Spirituality Revolution addresses the major social issue of spirituality which requires immediate attention if we are to creatively respond to spiralling outbreaks of depression suicide addiction and psychological suffering **The Christian Church in the Modern World** Raymond Calkins, 1924 *Discipleship,*

Secularity, and the Modern Self Judith A. Merkle, 2020-07-23 Judith A Merkle examines the situation of Christian spirituality today in a secular age through the images of dance silence and music Drawing on the work of Charles Taylor as well as core aspects of the tradition of Christian theology on discipleship Merkle asks how these new conditions affect the practice of Christianity as modern discipleship The author calls God the music maker She argues that response to the reality of God can be captured through the image of dance Merkle reminds us that people in secular society connect to God in diverse ways not in the least through the call of creation and the call of conscience She explores discipleship as a lens through which we can understand how a community of faith service prayer worship and sacramentality can be viewed and integrated in daily life She emphasizes how the interconnection between prayer Eucharist and a believing community is inseparable from the dance of discipleship as it can be lived in secular society The image of dancing to silent music is a powerful symbol of Christian religious experience in modern times **Religion and the Individual** Dr Abby Day, 2013-05-28 What does religion mean to

the individual How are people religious and what do their beliefs practices and identities mean to them The individual's place within studies of religion has tended to be overlooked recently in favour of macro analyses Religion and the Individual draws together authors from around the world to explore belief practice and identity Using original case studies and other work firmly placed in the empirical contributors discuss what religious belief means to the individual They examine how people embody what religion means to them through practice considering the different meanings that people attach to religion and the social expressions of their personal understandings and the ways in which religion shapes how people see themselves in relation to others This work is cross cultural with contributions from Asia Europe and North America *Orthodox*

Christianity and the Politics of Transition Tornike Metreveli, 2020-11-29 This book discusses in detail how Orthodox Christianity was involved in and influenced political transition in Ukraine Serbia and Georgia after the collapse of communism Based on original research including extensive interviews with clergy and parishioners as well as historical legal and policy analysis the book argues that the nature of the involvement of churches in post communist politics depended on whether the interests of the church for example in education the legal system or economic activity were accommodated or threatened if accommodated churches confined themselves to the sacred domain if threatened they engaged in daily politics If churches competed with each other for organizational interests they evoked the support of nationalism while remaining within the religious domain

Oxford Textbook of Spirituality in Healthcare Mark Cobb, Christina Puchalski, Bruce Rumbold, 2012-08-09 The relationship between spirituality and healthcare is historical intellectual and practical and it has now emerged as a significant field in health research healthcare policy and clinical practice and training Understanding health and wellbeing requires addressing spiritual and existential issues and healthcare is therefore challenged to respond to the ways spirituality is experienced and expressed in illness suffering healing and loss If healthcare has compassionate regard for the humanity of those it serves it is faced with questions about how it understands and interprets spirituality what resources it should make available and how these are organised and the ways in which spirituality shapes and informs the purpose and practice of healthcare These questions are the basis for this resource which presents a coherent field of enquiry discussion and debate that is interdisciplinary international and vibrant There is a growing corpus of articles in medical and healthcare journals on spirituality in addition to a wide range of literature but there has been no attempt so far to publish a standard text on this subject Spirituality in Healthcare is an authoritative reference on the subject providing unequalled coverage critical depth and an integrated source of key topics Divided into six sections including practice research policy and training the project brings together international contributions from scholars in the field to provide a unique and stimulating resource

All in Sync Robert Wuthnow, 2003-05-05 Robert Wuthnow shows how music and art are revitalizing churches and religious life across the nation in this first ever consideration of the relationship between religion and the arts All in Sync draws on more than four hundred in depth interviews with church members clergy and directors of leading arts organizations and a new national survey to document a strong positive relationship between participation in the arts and interest in spiritual growth Wuthnow argues that contemporary spirituality is increasingly encouraged by the arts because of its emphasis on transcendent experience and personal reflection This kind of spirituality contrary to what many observers have imagined is compatible with active involvement in churches and serious devotion to Christian practices The absorbing narrative relates the story of a woman who overcame a severe personal crisis and went on to head a spiritual direction center where participants use the arts to gain clarity about their own spiritual journeys Readers visit contemporary worship services in Chicago Philadelphia and Boston and listen to leaders and participants explain how music and art have contributed to the

success of these services All in Sync also illustrates how music and art are integral parts of some Episcopal African American and Orthodox worship services and how people of faith are using their artistic talents to serve others Besides examining the role of the arts in personal spirituality and in congregational life Wuthnow discusses how clergy and lay leaders are rethinking the role of the imagination especially in connection with traditional theological virtues He also shows how churches and arts organizations sometimes find themselves at odds over controversial moral questions and competing claims about spirituality Accessible relevant and innovative this book is essential for anyone searching for a better understanding of the dynamic relationships among religion spirituality and American culture *Credo of a Modern Kabbalist* Zalman Schachter-Shalomi, Daniel Siegel, 2005 Making Judaism relevant and crucially significant for this age requires a reformatting that increases its value to its adherents while working in conscious harmony with global and universal concerns *Jesuits and the Natural Sciences in Modern Times, 1814-2014* Agustín Udías, 2019-05-27 From 1814 linked to their educational work Jesuits made significant contributions to the natural sciences especially in the fields of astronomy meteorology seismology terrestrial magnetism mathematics and biology in a worldwide network of universities secondary schools and observatories
