*Kohut's Twinship Across Cultures* Koichi Togashi, Amanda Kottler, 2015-09-16 Kohut's Twinship Across Cultures The Psychology of Being Human chronicles a 10 year voyage in which the authors struggled initially independently to make sense of Kohut's intentions when he radically re defined the twinship experience to one of being human among other human beings Commencing with an exploration of Kohut's work on twinship and an illustration of the value of what he left for elaboration Togashi and Kottler proceed to introduce a new and very different sensitivity to understanding particular psychoanalytic

relational processes and ideas about human existential anguish trauma and the meaning of life Together they tackle the twinship concept which has often been misunderstood and about which little has been written Uniquely the book expands and elaborates upon Kohut's final definition being human among other human beings It problematizes this apparently simple concept with a wide range of clinical material demonstrating the complexity of the statement and the intricacies involved in recognizing and working with traumatized patients who have never experienced this feeling It asks how a sense of being human as opposed to being described as human can be generated and how this might help clinicians to better understand and work with trauma Written for psychoanalysts and psychoanalytic psychotherapists interested in self psychological intersubjective and relational theories Twinship Across Cultures will also be invaluable to clinicians working in the broader areas of psychoanalysis psychotherapy social work psychiatry and education It will enrich their sensitivity and capacity to understand and treat traumatized patients and the alienation they feel among other human beings **30 Steps to Finding**

Sharon Rampersad,2020-07-16 The truth of the matter is that 95% of the time people tell you what you want to hear I wanted to produce something unique and that other women could use to get to know themselves on a deeper level based on my own inner reflections that I know are common to many This book is like having coffee with your best friend And hearing things few people have the ability to say It is easy to read

and digest written in a way that any reader can relate to It s more like having a conversation than reading a book There is something for everyone who reads it with an open mind I went through every experience without a partner but I had my family and friends I had to teach myself to stop thinking in lack and start appreciating the things that were present in my life every day We often overlook the great things about our lives because we fixate on one area I trained my mind to identify the difference between a need and a want The person we need to love first is ourselves because this is the only person we can control The intentions of this book are to offer a beacon to those who are stumbling around in the dark trying to find their way To offer some consolation to other women because we often go through the same things so there is no need to beat yourself up To give some direction to the negative energies most people carry around because they feel obligated to hold on to that pain Why wait till tomorrow to start being the person you want to be today
