Foreign Affairs and the Founding Fathers Norman A. Graebner, Richard Dean Burns, Joseph M. Siracusa, 2011-11-01 This concise diplomatic history of the Confederation era is the first new work on the topic in a generation In its pages three distinguished diplomatic historians offer a realist interpretation of the way in which the Founding Fathers conducted foreign affairs refreshing our collective memory about their priorities and their values When three of the nation s leading historians come together to fashion a fresh study of American history the resulting work cannot help but be a monumental addition to the field **Foreign Affairs and the Founding Fathers** From Confederation to Constitution 1776 1787 is such a work These eminent scholars provide a thoughtful realist interpretation of the Founders view of America s place in the world delivering a timely reassessment of their aspirations thoughts and actions during the seminal decades of the American nation This book takes readers backstage where they can eavesdrop on the Founders to better understand their motives and intentions and see how they responded to threats and problems associated with America s place in the world Arguing that the Founding Fathers essentially thought and acted in terms of power ranking matters of national interest and security over ideology and moral concerns the book sheds new light on the foreign policy opportunities and challenges of the day as the Founders weighed and determined them In so doing it offers important guideposts for our own time
