

How to find the Main Idea

The main idea is what the story is mostly about.

1. Ask yourself, "What did I just read about?"
2. Look at the title.
3. Look at the pictures.
4. Look for clue words that are used repeatedly.
5. Reread the first and last sentences/paragraphs.

Finding The Main Idea:

Comprehension and Written Expression Year 4 Alan Horsfield, 2013 Excel Comprehension and Written Expression Year 4 is essential for any student wishing to improve their comprehension skills. It allows students to practice skills such as finding facts, making references, isolating relevant information, understanding questions and paragraphs, and using tables of contents, indexes, maps, and graphs to find information. The extracts are from a wide variety of genres to allow students to gain confidence in reading different materials. When the student completes the exercises in this book, she/he will have worked through a number of question types from a variety of text types. Rather than give a range of question types based on each passage, the focus in this book will be on developing the student's skill with a particular question type. The book is structured so that if there is a weakness, then the student can concentrate on that particular weakness and become competent without working through passages that may not contribute to the student's progress. In this book, your child will find over 60 graded units of stimulating exercises and extracts, a wide variety of questions including true or false, multiple choice, short answer, and sentence completion. Extracts from many different literary and factual text types, a lift-out answer section.
