Fine Printed Manuscript Music:

Distant Cycles Richard Kramer, 1994-07-20 Franz Schubert's song cycles *Schöne Müllerin* and *Winterreise* are cornerstones of the genre. But as Richard Kramer argues in this book, Schubert envisioned many other songs as components of cyclical arrangements that were never published as such. By carefully studying Schubert's original manuscripts, Kramer recovers some of these distant cycles and accounts for idiosyncrasies in the songs which other analyses have failed to explain. Returning the songs to their original keys, Kramer reveals linkages among songs which were often obscured as Schubert readied his compositions for publication. His analysis thus conveys even familiar songs in fresh contexts that will affect performance interpretation and criticism. After addressing problems of multiple settings and revisions, Kramer presents a series of briefs for the reconfiguring of sets of songs to poems by Goethe, Rellstab, and Heine. He deconstructs *Winterreise* using its convoluted origins to illuminate its textual contradictions. Finally, Kramer scrutinizes settings from the *Abendrote* cycle on poems by Friedrich Schlegel for signs of cyclic process. Probing the farthest reaches of Schubert's engagement with the poetics of lieder, *Distant Cycles* exposes tensions between Schubert the composer and Schubert the merchant entrepreneur. Fine Printed Music and Manuscript Music Sotheby's, 1993 **Maurice Ravel** Stephen Zank, 2013-05-24 Maurice Ravel A Research and Information Guide is an annotated bibliography concerning both the nature of primary sources related to the composer and the scope and significance of the secondary sources which deal with him, his compositions, and his influence as a composer and theorist.

The Music of Francis Poulenc (1899-1963) Carl B. Schmidt, 1995-10-19 The name of Francis Poulenc, 1899-1963, was first brought to prominence in the 1920s as a member of Les Six, a group of young French composers encouraged by Satie and Cocteau. His subsequent fame spread well beyond France, and he is coming to be regarded as one of this century's most significant composers. His compositions are heard constantly in concert halls the world over, and numerous recordings, including complete sets of songs and piano music, have been released. Books, articles, and more than a dozen doctoral dissertations have discussed his music. Carl Schmidt's catalogue of Poulenc's works represents the first comprehensive attempt to list an oeuvre which numbers approximately 185 compositions written from his teenage years until his death at the age of 63. The Catalogue identifies a number of unpublished works and adds a small group of compositions to his musical canon for the first time. Each work, whether complete or unfinished, published or unpublished, is described fully. Catalogue entries list and describe all known printed editions, including reprints and manuscript copies of each work. In addition, they provide detailed compositional histories based on numerous letters, documents, and press accounts, many of which have not been published previously. Russian interest in Poulenc's music, manifested in press runs exceeding one million copies, is also revealed for the first time.
