Finnish Farming Typology Economics:

Finnish Farming Uno Varjo,1977 Areal Livestock Combinations on Finnish Farms Paavo Talman,1979 A Short History of Finland Fred Singleton,1998-10 Finland has often been ignored or misunderstood by the English speaking world and this work presents the reader with a readable and authoritative introduction to the life of the Finns and the position of their country in the modern world The book explains how a small nation placed in an unfavorable geopolitical situation won its independence and eventually achieved a high material standard of living together with an enviable degree of social and political stability by adapting itself to the realities of life in an unpromising environment Copyright Libri GmbH All rights reserved *Finnish Farming* Uno Varjo,1977 **Progress in Agricultural Geography (Routledge Revivals)** Michael Pacione,2014-06-03 In the second half of the twentieth century significant changes were occurring within the agricultural industry including an increase in efficiency and government intervention as well as expanded and more complicated patterns of trade This comprehensive volume first published in 1986 reflects how these developments challenged the field of agricultural geography Considering agricultural innovations farming systems government policy and land ownership this title provides an essential background to students with an interest in agricultural methods distribution and reform **Farming, Development and Space** Bernd Andreae,2013-02-06 No detailed description available for Farming Development and Space **The Statesman's Year-Book 1982-83** J. Paxton,2016-12-15 The classic reference work that provides annually updated information on the countries of the world *The Statesman's Year-Book 1981-82* J. Paxton,2016-12-15 The classic reference work that provides annually updated information on the countries of the world **The Geography of Agriculture in Developed Market Economies** I.R. Bowler,2014-10-13 First published in 1993 The broad objective of this book is to describe and explain the contemporary geography of agriculture in developed market economies The objective has been approached by a team of agricultural geographers each writer contributing an analysis of a particular topic **Entrepreneurship and Innovation in Japanese Agriculture** Akira Kiminami,2019-08-14 This is the first book to comprehensively analyze key issues regarding innovation entrepreneurship and human resource development in the Japanese agricultural sector Despite the fact that innovation and entrepreneurship are vital to the development of modern Japanese agriculture there have been comparatively few studies in this field in addition they have been virtually none on measures for developing entrepreneurial human resources or innovation in agriculture The agricultural sector's declining competitiveness and sustainability as an industry in Japan are serious concerns especially in combination with an aging labor

force and decreasing farmland To date Japanese agricultural policies have largely concentrated on accumulating farmland and securing a sufficient agricultural labor force However from the perspectives of industrial and regional development policies focusing on creating innovation the driving force of economic development have been recognized as being more effective Moreover there have been some recent developments concerning innovation and entrepreneurship in various regions of Japan This book provides a wealth of significant findings from studies on successful cases involving e g agricultural clusters agriculture commerce industry collaborations networking franchising and corporate entry induced innovation utilizing limited regional resources and how they have contributed to the development of each region The interrelationships between innovation entrepreneurship and human resource development are then clarified and effective policies to promote Japanese agriculture and rural areas are suggested Given its scope the book contributes to the advancement not only of farm management science but also of regional science and related fields

Regional Development in Northern Europe Mike Danson, Peter de Souza, 2012-02-07 This book draws on work from across northern Europe and is parallel and complementary to the network itself By establishing an intellectual and practically orientated framework and platform and by bringing together contributions defining the state of the art and potential development paths in the field it is the first volume to offer a systematic and scientific view from the periphery

The Cultural Landscape Hilary H. Birks, 1988 The Cultural Landscape Past Present and Future considers different aspects of man's intervention with natural vegetation and the landscape resulting from a long equilibrium of co-existence These landscapes are not stable and the recent and ever accelerating changes in technology and life style have increasingly affected many ancient landscapes as old land use practices are abandoned and traditions forgotten The papers in this book describe and trace the development of cultural landscapes in different climatic and biogeographical regions in Europe Remnants of traditional land use still remaining are described particularly from Western Norway where traditions have lingered because the rugged topography of the region is inimicable to high technology Each chapter is by an expert in the field The topics cover the documentation of present cultural landscapes their maintenance and restoration and the history of the development of cultural landscapes from the Stone Age onwards linking the intensity of landscape utilization with population dynamics and technological attainments The disciplines involved include vegetation science vegetation history ecology palaeoecology archaeology sociology geography and history

Environmental and Agricultural Modelling: Floor M. Brouwer, Martin van Ittersum, 2010-04-05 Agriculture increasingly faces the challenge of balancing its multiple functions in a sustainable way Integrated assessment and modelling IAM can provide insight into the potential impacts of policy changes However concepts to address the wide range of issues and functions typical for agriculture are still scarce Environmental and Agricultural Modelling reviews and presents our current understanding of integrated and working tools to assess and compute ex ante alternative agricultural and environmental policy options allowing
