**Christ and the Altar Fire: Sacrifice as Deification in Matthias Scheeben** David Augustine, 2025-01-01 For renowned nineteenth century German dogmatic theologian Matthias Scheeben the divinely instituted liturgical cult of the Old Testament is replete with soteriological import figuratively signifying not only Christ's saving work and the sacramental worship of the New Testament but also the transformation and elevation of the rational creature by divine grace Scheeben's distinctive use of sacrificial concepts is rooted in his underlying view of sacrifice as primarily perfective directed to the glorification of God and constituted by the conversion of the offering into a pleasing and acceptable aroma via ritual burning with God given fire In *Christ and the Altar Fire* David Augustine offers an in depth study of Scheeben's soteriology of sacrifice providing a comprehensive analysis of his theology of sacrifice as well as a detailed examination of his sacrificial construal of Christ's person his saving work and its application to others At the heart of this account is Scheeben's understanding of Christ's sacrifice as encompassing his entire paschal mystery passion death resurrection and ascension itself a passage of glorification that serves as the site and source of deifying and laetific nuptial union As he shows Scheeben employs the altar fire typology to establish a unity of cross and glory that fully maintains the atoning and meritorious significance of Christ's saving death Displaying careful attentiveness to Scheeben's historical context and to the contours of his substantial corpus Augustine also brings Scheeben's biblically inflected dogmatic theology into dialogue with contemporary biblical and theological scholarship showcasing the enduring relevance of his thought **The Great**

Michaels,2021-08-10 Hinduism is currently followed by one fifth of humankind Far from a monolithic theistic tradition the religion comprises thousands of gods a complex caste system and hundreds of languages and dialects Such internal plurality inspires vastly ranging rites and practices amongst Hinduism s hundreds of millions of adherents It is therefore not surprising that scholars have been hesitant to define universal Hindu beliefs and practices In this book Axel Michaels breaks this trend He examines the traditions beliefs and rituals Hindus hold in common through the lens of what he deems its identificatory habitus a cohesive force that binds Hindu religions together and fortifies them against foreign influences Thus in his analysis Michaels not only locates Hinduism s profoundly differentiating qualities but also provides the framework for an analysis of its social and religious coherence Michaels blends his insightful arguments and probing questions with introductions to major historical epochs ample textual sources as well as detailed analyses of major life cycle rituals the caste system forms of spiritualism devotionism ritualism and heroism Along the way he points out that Hinduism has endured and repeatedly resisted the missionary zeal and universalist claims of Christians Muslims and Buddhists He also contrasts traditional Hinduism with the religions of the West where the self is preferred to the not self and where freedom in the world is more important than liberation from the world Engaging and accessible this book will appeal to laypersons and scholars alike as the most comprehensive introduction to Hinduism yet published Not only is Hinduism refreshingly new in its methodological approach but it also presents a broad range of meticulous scholarship in a clear readable style integrating Indology religious studies philosophy anthropological theory and fieldwork and sweeping analyses of Hindu texts

**The Siva Purana Part 1** J. L. Shastri,2000-01-01 The Purana is a class of literature that treats of ancient religion philosophy history sociology politics and other subjects It is an encyclopaedia of various branches of knowledge and ancient wisdom It has been defined as a class of literature that contains material on the topics of Creation Dis solution of Manus Ages of Manus Genealogies and the History of glorious kings For dealing primarily with these subjects it has been called Pancalaksana a title that was incorporated in the Puranas themselves and had become popular by the Fifth Century A D for it was included by Amarasingha in his lexicon Amarakosa But as the process of interpolation continued the Pancalaksana definition was found inadequate The Puranic redactors adopted a Dasalaksana definition that suited the contemporary text Still the dynamic forces were at work and the process of insertion modification and abridgement went on and it was soon discovered that the Dasa laksana definition too fell short of an actual fact It was found that the Puranas contained certain aspects that were not covered by any five or ten characteristics The Puranas are divided into two classes the Maha puranas and the Upapuranas Each class consists of eighteen Puranas Thus the number of the Puranas is thirty six Mahapuranas are classified into different categories Vaisnava Brahma Saiva etc Sivapurana has all the characteristics of a Mahapurana According to the ancients a Mahapurana contained five main characteristics that concerned either early religion or traditional history

Sivapurana possesses the conventional characteristics of a Mahapurana in common with its other colleagues These entitle it to the status of a great Purana But its real greatness lies in expounding the philosophical background of the Siva ritual The Purana conceives Siva as the eternal principle the supreme god the cosmic soul the support of all existence But the ignorant aspirant bound in the meshes of illusion goes in quest for knowledge and imagines that his lord has a personal form possessed of attributes distinct from his self who in moments of distress responds to his prayers and bestows grace
