Dramatic works Henry Fielding, 1882 *The Fleet Air Arm in the Second World War, Volume II, 1942-1943* Ben Jones, 2018-06-13 This is the second of three volumes covering the transformation of the Fleet Air Arm during the Second World War As the subtitle of this volume The Fleet Air Arm in Transition suggests the years 1942 1943 marked a stepping stone between the small pre war cadre operating from a small number of carriers to a naval air arm flying modern aircraft types from a large number of ships and as will be seen in Volume III capable of operating a number of Fleet Carriers in the Pacific Ocean for sustained periods Whereas the majority of Volume I dealt with operations this volume has a much more even balance covering planning and policy on the one hand and operations on the other This reflects the crucial nature of this period as the development and expansion of the Fleet Air Arm gathered pace whilst an increasingly diverse range of operations took place with those in the Mediterranean and the Atlantic reaching a climax The reader will gain a clear appreciation of the growing importance indeed primacy of the aircraft carrier within the proposals for the future composition of Royal Navy s surface fleet together with the nature of the Fleet Air Arm s expansion programmes Such expansion programmes were hindered by the constraints of aircraft production and the acquisition of sufficient shore facilities for the formation of new squadrons and the continued support of others Some of the Fleet Air Arm s most famous operations occurred during these years such as the escort of the Pedestal convoy to Malta air cover for the landings in North Africa Sicily and at Salerno and the gallant but ill fated attack of 825 Squadron during the Channel Dash The increasing role played by the Fleet Air Arm aircraft operating from Escort Carriers and Merchant Aircraft Carriers in the Battle of the Atlantic during 1943 is also apparent The documents in this volume will bring to life the difficulties of operating aircraft at sea the nature of air combat and the complexities involved in expanding an organisation such as the Fleet Air Arm under wartime conditions As such it will enhance our understanding of the history of the Royal Navy s air arm during the Second World War

Prophets and Profits Richard Evans,2017-09-07 This volume examines the ways in which divination often through oracular utterances and other mechanisms linked mortals with the gods and places the practice within the ancient sociopolitical and religious environment Whether humans sought knowledge by applying to an oracle through which the god was believed to speak or used soothsayers who interpreted specific signs such as the flight of birds there was a fundamental desire to know the will of the gods In many cases pragmatic concerns personal economic or political can be deduced from the context of the application Divination and communication with the gods in a post pagan world has also produced fascinating receptions The presentation of these processes in monotheistic societies such as early Christian Late Antiquity where the practice continued through the use of curse tablets or medieval Europe and beyond where the role of religion had changed radically provides a particular challenge and this topic has been little discussed by scholars This volume aims to rectify this desideratum by providing the opportunity to address questions related to the reception of Greco Roman divination oracles and prophecy in all media including literature and film Several contributions in this volume originated in the 2015 Classics Colloquium held at the University of South Africa and the volume has been augmented with additional contributions
