tells of Kou his extraordinary life and the compelling thread that gives the work its title It is powerful because it shatters the notion that every human being has of himself of feeling that he is the protagonist of his own existence Although it is an inevitable perception Kou helps us to understand that this is not the case He presents us with evidence of the fact that the real protagonist is someone else an invisible presence who silently waits for man to do what he must does nothing to show itself but never denies its being if it is sought In the first part the author narrates Kou's story but in the second part it is the invisible protagonist who speaks about himself and the man he inhabits their roles their missions and also what death means for both of them It is about a man but also about all men because the sense of infinity that permeates the book belongs to every human being and the reader cannot help but feel it It will be like sensing the beating of your own essence which you have ignored or forgotten until now but which you can now rediscover and discover why and for whom you are living along with it *The Cosmopolitan*, 1919 *Come a Stranger* Cynthia Voigt, 2013-02-19 A dashed dream leads to a rash decision

proliferation of terms along with the renewed focus on questioning the relationship between individual black artists and the larger black community indicates the arrival of novel forms of black identity and black art. Leader Picone defines these terms as significant facets of a larger post era linking them with the social and political context of Barack Obama's presidency. Analyzing claims of progress associated with Obama's election and post era thinking, he examines the contours of black aesthetics in the new century. To do so, he sifts through post era African American fiction, considering both celebrations and rejections of an early twenty-first century rhetoric of progress. In addition, he maps the subsequent implications of these concepts for rearticulating racial identities. Through the works of Colson Whitehead, Alice Randall, Chimamanda Ngozi Adichie, Paul Beatty, Kiese Laymon, and Jesmyn Ward, Leader Picone tracks how recent fiction manifests the tension between the embrace of post-civil rights era gains and the recognition of persistent structural racism. Ultimately, far less triumphal than the prefix post would imply, these authors address the Black Arts Movement and revise double consciousness and other key themes from the African American literary tradition. They interrogate their relevance in an era encompassing not only the election of the nation's first black president but also the government's failed response to Hurricane Katrina, the expansion of class divisions within the black community, mass incarceration, and ongoing police violence.
