forces shaping America and himself the Iran hostage crisis the incoming tide of Ronald Reagan's presidency and the political rise of the Christian Right As Tommy is increasingly drawn to the group his mother Connie grows frantic She has been hiding the truth from her son telling him that his father was a saxophonist from New York who never knew he had a child and is lying low in Suborney to hide from Tommy's actual father Richie Thorpe Connie knows Richie has come for his son and though she has witnessed Thorpe's mysterious powers the desperation to protect her lie her son and their life begets a venom with an elemental power that threatens the whole town

Fire In The Turtle House Osha Gray Davidson, Osha Davidson, 2008-11-05 Sea turtles have existed since the time of the dinosaurs But now suddenly the turtles are dying ravaged by a mysterious plague that some biologists consider the most serious epidemic now raging in the natural world Perhaps most important sea turtles aren't the only marine creatures falling prey to deadly epidemics Over the last few decades diseases have been burning through nearshore waters around the world with unprecedented lethality What is happening to the sea turtle and how can it be stopped In this fascinating scientific detective story Osha Gray Davidson tracks the fervent efforts of the extraordinary and often quirky scientists marine biologists veterinarians and others racing against the clock to unravel a complicated biological and environmental puzzle and keep the turtles from extinction He follows the fates of particular turtles revealing their surprisingly distinct personalities and why they inspire an almost spiritual devotion in the humans who come to know them He also explores through vivid historical anecdotes and examples the history of man's relationship to the sea opening a window onto the role played by humans in the increasing number of marine die offs and extinctions Beautifully written intellectually provocative Fire in the Turtle House reveals how emerging diseases wreaking havoc in the global ocean pose an enormous direct threat to humanity This is science journalism at its best

Baptized in the Fire of Revolution Jun Xing, 1996 The efforts made by YMCA secretaries as the administrative officers were called to apply social gospel ideas to China's political social and cultural

environment provides a unique perspective on the history of cross cultural interaction or rather collisions between the two countries born of different civilizations While the influence in this case ran mainly in one direction from the United States to China the implications flowed in two ways especially for the YMCA secretaries as field workers The process of implanting the American social gospel into the Chinese setting involved negotiations confrontations and amalgamation along a whole range of different cultural norms and values on the scene including the indigenous Confucianism Chinese nationalism and international communism The YMCA leaders cross cultural experiences transformed their own understanding and interpretation of the Christian mission and their own cultural identity as a result of their interactions with the cultural forces in China The export of benevolence and the spread of American dreams is a recurrent theme in American history The social gospel experience not only forms an important chapter in the history of Sino American cultural relations but also bears important contemporary implications It may show that many Americans have yet to learn that American society is pluralistic and that differences in color religion and political beliefs must be tolerated Also in view of the recent escalation of international reformism and the call for exporting the American dream it is important to know that Americans cannot Christianize the world after their own images for every culture has its own share to contribute to an interdependent world community in the twenty first century
