Fires & Furies James D. Delk, 1995      Disasters and Tragic Events Mitchell Newton-Matza, 2014-03-26 From the Salem Witch Trials of 1692 to the Sandy Hook school massacre of 2012 this two volume encyclopedia surveys tragic events natural and man made famous and forgotten that helped shape American history Tragedies and disasters have always been part of the fabric of American history Some gave rise to reactions that profoundly influenced the nation Others dominated public consciousness for a moment then disappeared from collective memory Organized chronologically Disasters and Tragic Events examines these moments covering both the familiar and the obscure and probing their immediate and long term effects Unlike other works that concentrate on a particular type of disaster for example weather or medicine related tragedies this two volume encyclopedia has no such limits Its entries range from natural disasters such as hurricanes and tornadoes to civic disturbances environmental disasters epidemics and medical errors transportation accidents and more The work is a perfect supplement for history classes and will also prove of great interest to the general reader      *The Contested Murder of Latasha Harlins* Brenda Stevenson, 2013-08-15 In this book Stevenson explores the long simmering resentment within LA s black community that ultimately erupted in April 1992 by focusing on an preceding event that encapsulated the growing racial and social polarization in the city over the course of the 1980s and early 1990s the 1991 shooting of a fifteen year old African American girl Latasha Harlins by a Korean grocer who suspected Harlins of shoplifting      **The 1992 Los Angeles Riots** Louise I. Gerdes, 2014-04-14 The American public was holding its collective breath as four officers of the Los Angeles Police Department were acquitted of excessive force in the arrest and beating of Rodney King Upon the exhale came relief for some but for many more came a crushing grief and anger This essential volume gives readers a strong background on the events leading up to the 1992 Los Angeles Riots Essays also present the controversies related to the event including whether the police department protected its citizens during the riots The last chapter shares first person narratives and accounts of those impacted by the riots giving your readers a chance to go beyond simple facts and experience the event for themselves

**The Law of Internal Armed Conflict** Lindsay Moir, 2002-01-03 Laws regulating armed conflict have existed for centuries but the bulk of these provisions have been concerned with wars between states Relatively little attention has been paid to the enormously important area of internal armed conflict At a time when international armed conflicts are vastly outnumbered by domestic disputes this book seeks to redress the balance through a comprehensive analysis of those rules which exist in international law to protect civilians during internal armed conflict From regulations in the nineteenth and early twentieth centuries according to the doctrine of recognition of belligerency this book traces the subsequent development of international law by the Geneva Conventions and their additional Protocols as well as through the more recent jurisprudence of the Yugoslav and Rwandan tribunals The book also considers the application of human rights law during internal armed conflict before assessing how effectively the applicable law is and can be enforced      **Civil Racism**

Lynn Mie Itagaki, 2016-03-15 The 1992 Los Angeles rebellion also known as the Rodney King riots followed the acquittal of four police officers who had been charged with assault and the use of excessive force against a Black motorist The violence included widespread looting and destruction of stores many of which were owned or operated by Korean Americans in neighborhoods that were predominantly Black and Latina o Civil Racism examines a range of cultural reactions to the riots anchored by calls for a racist civility a central component of the aesthetics and politics of the post civil rights era Lynn Mie Itagaki argues that the rebellion interrupted the rhetoric of civil racism which she defines as the preservation of civility at the expense of racial equality As an expression of structural racism Itagaki writes civil racism exhibits the active though often unintentional perpetuation of discrimination through one s everyday engagement with the state and society She is particularly interested in how civility manifests in societal institutions such as the family the school and the neighborhood and she investigates dramatic filmic and literary texts by African American Asian American and Latina o artists and writers that contest these demands for a racist civility Itagaki specifically addresses what she sees as two blind spots in society and in scholarship One is the invisibility of Asians and Latinas os in media coverage and popular culture that she posits importantly shapes Black White racial formations in dominant mainstream discourses about race The second is the scholarly separation of two critical traditions that should be joined in analyses of racial injustice and the 1992 Los Angeles rebellion comparative race studies and feminist theories Civil Racism insists that the 1992 riots continue to matter that the artistic responses matter and that more than twenty years later debates about issues of race ethnicity class and gender are more urgent than ever **Blacks in the American West and Beyond--America, Canada, and Mexico** George H.

Junne, 2000-05-30 Almost a century before their arrival in the English New World Blacks appeared alongside the Spanish in what is now the American West Through their families communities and institutions these Western Blacks left behind a long history which is just now beginning to receive systematic scholarly treatment Comprehensively indexing a variety of research materials on Blacks in the North American West Junne offers an invaluable navigational tool for students of American and African American history Entries are organized both geographically and topically and cover a broad range of subjects including cross cultural interaction health art and law Contains a complete compilation of African American newspapers

War in the Bible and Terrorism in the Twenty-first Century Richard S. Hess, E. A. Martens, 2008 In February 2004 Denver Seminary s annual Biblical Studies conference addressed the question of modern war and the teachings of biblical ethics regarding it A year earlier the invasion of Iraq had taken place The questions created by the outbreak of war prompted an urgency in the consideration of the topic Association for Christian Conferences Teaching and Service ACCTS provided ethicists and practitioners from within the military of both the U S and Great Britain Hess and Martens also solicited papers from leading theologians and advocates representing pacifist and just war views They have succeeded in bringing together a group of Christians representing a wide range of perspectives to debate and discuss their heritage and biblical roots with

Mustard,2003-09-16 Racial Justice in America examines a volatile social issue that is always in the news focusing on five critical areas criminal justice education employment living accommodations and political participation By 1451 Africans were used as slaves in the Madeiras and Canary Islands Not until 1502 did they arrive in the New World All told nearly 10 million Africans equal to the year 2000 populations of Virginia and Mississippi combined were transplanted across the Atlantic as slaves Despite the termination of the U S slave trade in 1807 and emancipation after the Civil War members of a racial couple married as late as 1958 were jailed for one year for breaking Virginia s antimiscegenation law So where are we today This book which provides historical perspective and a discussion of different types of discrimination examines how systemic changes have been made and analyzes the debates that still exist      **World War III!** Michael Campbell,2008-04-08 The Book of Revelations describes the events leading up to the Second Coming of Jesus Christ The Apostle John describes the 21st Century while giving us essential information Was 9 11 the beginning of World War III Are both Bush administrations playing key roles in the incredible drama of the last days Is President George W Bush a hero or a villain Will the next terrorist attack include nuclear radiation Will the Iraq War be the catalyst precipitating a series of events that will result in the death of one third of the human race What should we be doing now to become fully prepared for these cataclysmic events Despite the terrible turmoil and the gathering clouds of doom we need not fear The Plan of God will prevail Satan will be defeated because the Atonement of Jesus Christ has made it impossible for evil to survive In the end good will conquer evil The purpose of life is to make choices People who choose to love others and to be kind will fulfill the purpose of their mortal existence They are the people who are embracing the eternal opportunities that have been provided by God They will be happy forever      **Class and Culture in Crime Fiction** Julie H. Kim,2014-04-17 The crime fiction world of the late 1970s with its increasingly diverse landscape is a natural beginning for this collection of critical studies focusing on the intersections of class culture and crime each nuanced with shades of gender ethnicity race and politics The ten new essays herein raise broad and complicated questions about the role of class and culture in transatlantic crime fiction beyond the Golden Age How is class understood in detective fiction other than as a socioeconomic marker Can we distinguish between major British and American class concerns as they relate to crime How politically informed is popular detective fiction in responding to economic crises in Scotland Ireland England and the United States When issues of race and gender intersect with concerns of class and culture does the crime writer privilege one or another factor Do values and preoccupations of a primarily middle class readership get reflected in popular detective fiction      "Short Cuts" and American Life and Society in Early Nineties Hasti Sardashti,2011-10-27 Prior and during the time Altmans Short Cuts was developed and shaped Americans experienced over a decade of Republican administration represented by Reagan and Bush extreme right wing national policies and an ill economy On 9 November 1989 with the fall of Berlin Wall America and whole world experienced

one of the most extreme changes in the history of the twentieth century the end of the cold war and the beginning of a new post Cold war era Hardly anyone could have foreseen the end of communism in the Soviet Union and in Eastern Europe during that time The demise of the Soviet Union left the United States the sole remaining superpower a position that carried its own risks and problems With this extreme change of dichotomy between the two world powers on which was the base of the national and international politics for more than fifty years and also a major coping mechanism for the people by splitting between the Good and Bad God and Evil Communism and Democracy in late 1980s and early 1990s it came to a break down of the known structures which were experienced as very frightening by American people I wonder if Short Cuts was an attempt by Robert Altman in the early 90s to comfort all these anxious and helpless people who were confused and who couldnt understand why things happen to them what happened to them and asking themselves why What did we do wrong What if this did not happen and that happened The Robert Altmans Short Cuts and American Society and American Life in the Early Nineties is an attempt to examine all these notions and understand what is about Short Cuts making it to become such a timeless and unique movie

**Managing Uncertainty in Crisis** Xiaoli Lu, 2017-11-07 This book studies the variety of organizational strategies selected to cope with critical uncertainties during crises This research formulates and applies an institutional sense making model to explain the selection of strategies for coping with uncertainties during crises to answer the question why some organizations select a rule based strategy to cope with uncertainties whereas others pursue a more ad hoc based strategy It finds that the level of institutionalization does not affect strategy selection in the initial phase of responding to crises that three rigidity effects can be identified in the selection of sense making strategies once organizations have faced the failure of their selected strategies that discontinuities in the feedback loop of sense making do not necessarily move organizations to switch their sense making strategies but interact with institutionalization to contribute to switching sense making strategies This book bridges the gap between institutional thinking and crisis management theorizing A major step forward in the world of crisis management studies Professor Arjen Boin Leiden University the Netherlands In a world of increasingly complex sociotechnical systems interacting in high risk environments Professor Lu s analysis of how organizations manage uncertainty is both timely and profound Professor Louise K Comfort Director Center for Disaster Management University of Pittsburgh USA Prof Lu greatly enhances our understanding of how organizations cope with uncertainty and make sense of their challenges under the pressures of catastrophe Dr Arnold M Howitt Faculty Co Director Program on Crisis Leadership Harvard Kennedy School USA This book provides not only a theory of crisis management but also a key concept around which research and practice can be conducted Professor Naim Kapucu Director of School of Public Administration University of Central Florida USA A generic institutional model for analyzing and managing hazards disasters and crises worldwide Professor Joop Koppenjan Erasmus University Rotterdam the Netherlands This book has done an excellent job in opening the black box of how organizations make sense of the crisis situations they

face and develop strategies to respond It should be read by all of us who wish for a peaceful and safe world Professor Lan Xue Dean of School of Public Policy and Management Tsinghua University China     Policing Geoffrey P. Alpert, Roger G. Dunham, Meghan S. DeSena, 1999 People Power explores the potential of community organizations to develop political consciousness among working class and poor people Judith N DeSena argues that participation in community organizations can empower residents to challenge government and corporations and attempt to influence the outcome of policy decisions regarding municipal services and the future of neighborhoods She contends that the people who participate in these organizations are transformed politically in many ways including their racial attitudes DeSena points out that involvement in community organizations challenges the participants stereotypical perceptions of race and ethnicity and may lead to fewer conflicts between cultures in urban locales Overall community organizations possess the potential to increase participation in the democratic process while easing common stress between members of the community and improving the lives of the people living in complex urban environments     Hearings on National Defense Authorization Act for Fiscal Year 1997--(H.R. 3230) and Oversight of Previously Authorized Programs Before the Committee on National Security, House of Representatives, One Hundred Fourth Congress, Second Session United States.
