Freedom of Speech on Campus Eamon Doyle, 2018-07-15 Freedom of speech is a fundamental aspect of American democracy and university campuses have historically been central to the free speech debate through serving as protectors of this constitutional right In recent years campuses have returned to the center of this debate as our notion of what kinds of speech are acceptable and how speech should be controlled continues to develop With the rise of trigger warnings designated free speech zones and controversial speakers being disinvited from lecturing at universities the question of whether campuses continue to represent the future of free speech or symbolize its repression has become progressively urgent

FIRE's Guide to First-year Orientation and Thought Reform on Campus Harvey A. Silverglate, Jordan Lorence, 2005 Before one can have the freedom to express ideas in open debate however one must have freedom of conscience the right to arrive at one's private beliefs without being coerced into an artificial unity by those who wield power over him/her After all the freedom to speak is a dead letter if one lacks the freedom to think to believe or to disbelieve At the heart of American liberty lies a recognition of individual rights individual responsibility and individual dignity Over one's inner mind conscience and self no one has coercive power The form of censorship with which this Guide is concerned is the affirmative form of censorship that goes beyond prohibiting bad speech and ideas It instead seeks to impose on a student and coerce the student to adopt and to believe in the approved point of view advanced by the authorities The fundamental rights of conscience and belief the thought reform programs that threaten those rights at today's universities and the means by which a decent and free people can challenge such programs are the topics of this Guide Contains 1 footnote

The Rise of Victimhood Culture Bradley Campbell, Jason Manning, 2018-03-07 The Rise of Victimhood Culture offers a framework for understanding recent moral conflicts at U S

universities which have bled into society at large These are not the familiar clashes between liberals and conservatives or the religious and the secular instead they are clashes between a new moral culture victimhood culture and a more traditional culture of dignity Even as students increasingly demand trigger warnings and safe spaces many young people are quick to police the words and deeds of others who in turn claim that political correctness has run amok Interestingly members of both camps often consider themselves victims of the other In tracking the rise of victimhood culture Bradley Campbell and Jason Manning help to decode an often dizzying cultural milieu from campus riots over conservative speakers and debates around free speech to the election of Donald Trump

and free expression can and should coexist on campus Palfrey currently Head of School at Phillips Academy Andover and formerly Professor and Vice Dean at Harvard Law School writes that free expression and diversity are more compatible than opposed Free expression can serve everyone even if it has at times been dominated by white male Christian heterosexual able bodied citizens Diversity is about self expression learning from one another and working together across differences it can encompass academic freedom without condoning hate speech Palfrey proposes an innovative way to support both diversity and free expression on campus creating safe spaces and brave spaces In safe spaces students can explore ideas and express themselves with without feeling marginalized In brave spaces classrooms lecture halls public forums the search for knowledge is paramount even if some discussions may make certain students uncomfortable The strength of our democracy says Palfrey depends on a commitment to upholding both diversity and free expression especially when it is hardest to do so
