First Colony Blue Planet:

Blue Planet Jane O'Reilly, 2020-07-16 It's 2208 and the universe is on the brink of war. Only a few brave outlaws stand between our world and annihilation and frankly they've been in better shape. Dax and Jinn may be together again in body but Jinn fears that the distance between them will never be bridged. Her love for Dax remains strong but their experiences on Sittan cannot easily be forgotten and the tension between them threatens everything she holds dear. Luckily there's no time to dwell on her failings for they are running out of time. The Sittan are rampaging through neutral space coming ever closer to Earth and the government does nothing, frozen by bureaucracy, ignorance and fear. Feronia may be down but she's far from out and she is as ruthless and determined as ever. Meanwhile the deadly Shi Fai wait for a chance, any chance to claim more of their shared universe. With enemies on all sides Jinn is driven to embrace the extraordinary power she's been holding at bay. The mysterious living metal Virena may well hold the secret to ending the war and saving her species but in letting herself go will Jinn lose her own humanity. Join other readers in discovering the thrill of the Second Species. I read it within a day because each chapter left me desperate to find out what happened next. It's sexy action packed and it was easy to get sucked into the world created. Amazon reviewer: A really fun, fast-paced read in an interesting universe. Cat Rambo, author of *Beasts of Tabat*. A lot of fun lives and breathes through its characters, burdened as they are with loves and hatreds, guilt, fears. Sets things up for an explosive finale. Blue Book Balloon: I was addicted from the first page. An intriguing story line with interesting characters and a different view of the future and of space travel. Amazon reviewer: This is one fabulous Sci-Fi story with a brilliantly well-realised futuristic world. Reading Revelations: A thrilling adult sci-fi adventure set in 2187 with a backdrop of a dying earth, space travel, aliens, technology and fabulous space pirates. The cast of characters are an eclectic mix of personalities with questionable morals, hang-ups and conflicts that are brought to life with vibrant description, thrilling action and humour. Amazon reviewer: Perfect for fans of Jessie Mihalik and Tricia O'Malley.

A New Order of the Ages Collin Robert Bowling, 2011 For millennia the human race has been controlled and manipulated by forces beyond our own dimension or awareness A carefully managed human extra dimensional breeding program has produced a hybrid slave race that isn't aware of its true origins or fate Few know that these shadow puppeteers are actually in control or that they even exist They are not human but then again neither are we As the epic battle of consciousness expands into the outer dimensions we know that one thing is for certain When the Liberty Bell rings once again their empire will be reduced to a heap of ashes There will be an army of forces backed by the highest of forces in the heavens which will conduct this re awakening of the masses This story recounts the takeover of planet Earth by the Snake of Zion and shares everything you need to know to be truly free The battleground is within each of us and our captors are but a reflection of humanity Unless we change ourselves how will the reflection be changed Hopefully after this enduring encounter deep into the rabbit hole you will realize how this reality has been manipulated by forces in the fourth dimension In order to succeed we must propel ourselves through the heart chakra and into the fifth dimension where the beloved Terra will find the peace and dignity that she deserves The fate of the world hangs in the balance All we have to do now is make a choice
