First Editions A Guide To Identification 2nd Edition:

First Editions, a Guide to Identification Edward N. Zempel, Linda A. Verkler, 1989 Gulls: A Guide to Identification. 2nd Edition P.J Grant, 2010-11-30 This second edition of Peter Grant's guide has been extensively revised and has been reset throughout. Importantly a further eight species of gulls occurring on the west coasts of Canada and the USA have been added. The book now covers 31 species and has been increased in length from 280 to 352 pages. More than 280 new photographs have been added or substituted bringing the total to 544 including 79 photographs for the eight North American additional species. The great increase in interest in gull identification since the publication of the first edition and the author's series on that topic in *British Birds* has helped bring much new information to light. As a result some revision was made to almost every text page and most of the identification drawings were improved in some way. In addition changes were made to many of the distribution maps. These revisions and improvements were often quite minor but others were substantial and important see the author's Introduction. Until recently gulls were widely regarded as a difficult group and identification and ageing was often inaccurate or uncertain. This was largely due to the complexities of immature plumages which of necessity were generally unrepresented in standard field guides. Birdwatchers need no longer be deterred or confounded by that deficiency. The book offers them the opportunity to advance their skill in field identification by accepting the challenge rather than shrinking from the difficulties. Alexander's Bridge Willa Cather, 2007-01-01 Engineer Bartley Alexander appears to have a happy life in Boston with a successful career and a beautiful wife. He has been commissioned to design the Moorlock Bridge in Canada the most important project of his career. With the onset of middle age however he grows increasingly restless and discontented so much so that while in London he recklessly reignites a love affair with the sweetheart of his youth the Irish actress Hilda Borgoyne. Although the tryst allows Alexander to recapture an element that has been missing from his pedestrian life the relationship torments his sense of morality and eventually proves disastrous. *Alexander's Bridge* explores the demands of Gilded Age society on the individual as well as the capacity of the individual to violate his own standards of integrity. This Willa Cather Scholarly Edition provides an illuminating new framework for Cather's debut novel. The novel is edited according to standards set by the Committee for Scholarly Editions of the Modern Language Association and presents the full range of biographical, historical and textual information now available complete with illustrations and maps.

Urgo, Ann J. Abadie, 2009-09-18 In 1952 Faulkner noted the exceptional nature of the South when he characterized it as the only really authentic region in the United States because a deep indestructible bond still exists between man and his environment The

essays collected in *Faulkner and the Ecology of the South* explore Faulkner's environmental imagination seeking what Ann Fisher Wirth calls the ecological counter melody of his texts. Ecology was not a term in common use outside the sciences in Faulkner's time. However the word environment seems to have held deep meaning for Faulkner. Often he repeated his abiding interest in man in conflict with himself with his fellow man or with his time and place his environment. Eco criticism has led to a renewed interest among literary scholars for what in this volume Cecelia Tichi calls humanness within congeries of habitats and environments. Philip Weinstein draws on Pierre Bourdieu's notion of habitus. Eric Anderson argues that Faulkner's fiction has much to do with ecology in the sense that his work often examines the ways in which human communities interact with the natural world and François Pitavy sees Faulkner's wilderness as unnatural in the ways it represents reflections of man's longings and frustrations. Throughout these essays scholars illuminate in fresh ways the precarious ecosystem of Yoknapatawpha County.
