First Ladies of the Poster Laura Gold,1998 **The Preacher's Wife** Kate Bowler,2019-10 Although most evangelical traditions bar women from ordained ministry many women have carved out unofficial positions of power in their husbands spiritual empires or their own ministries The biggest stars write bestselling books grab high ratings on Christian television and even preach Bowler offers a sympathetic and revealing portrait of megachurch women celebrities showing how they must balance the demands of celebrity culture and conservative male dominated faiths And black celebrity preachers wives carry a special burden of respectability A compelling account of women's search for spiritual authority in the age of celebrity adapted from jacket Earth Lost Without Power L. S. Wood,2017-05-15 When greed for power consumes people's souls

there is no limit to how far they will go in pursuit of their goals regardless of the destruction they may wreak on others When an enormous missile launches from within the Russian empire countries around the globe are in shock It seems Russian scientists have developed power neutron bombs and placed them in orbit around the earth in order to consolidate the empire's power But their plans go awry when faulty equipment launches all of the missiles back toward the earth in one shocking blow The Russian military activates a self destruct mechanism but it is too late for billions of people on earth Those who don't die in the initial explosions as their bodies nervous systems are fatally disrupted find themselves living without electricity Planes plummet from the sky and modern life comes to a screeching halt Now only time will tell if humanity will ever recover In this science fiction novel powerful neutron bombs devastate human life on earth leaving the survivors to pick up the pieces **U.S. Government Books** ,1985 **100 Years of Children's Book Week Posters** Leonard S.

Marcus,2019-03-05 Celebrate a century of children's book illustration For families art lovers and history buffs alike Leonard S. Marcus's visual history tour of 100 years of children's book illustration gathers in one glorious volume the posters of the annual Children's Book Week Featuring work from early luminaries such as N. C. Wyeth and Marcia Brown to more contemporary illustrators like David Wiesner Mary GrandPré Christian Robinson and Jillian Tamaki this beautiful collection showcases the conceptual and iconic images that have defined children's books for generations of young readers While the posters within these pages are linked in their resounding advocacy for young people's literacy they are distinguished by the styles and mediums of their creators and by the historical social and cultural influences of their times Renowned historian

Leonard S Marcus traces these developments in the children's book field with incisive descriptions to accompany each poster. Children's Book Week has grown over the past one hundred years from a modest grassroots effort to a full-throttle nationwide annual celebration of literacy and the pleasures of reading. The posters in this book beautifully emphasize Book Week's mission with slogans such as Build the Future with Books, Get Lost in a Book, and One World Many Stories.

Leading the Life You Want Stewart Friedman, 2014-09-16 A Wall Street Journal Bestseller For nearly thirty years my life's work has been to help people like you find ways to bring the often warring aspects of life into greater harmony. Stew Friedman from *Leading the Life You Want* You're busy trying to lead a full life. But does it really feel full or are you stretched too thin? Enter Stew Friedman, Wharton professor, adviser to leaders across the globe, and passionate advocate of replacing the misguided metaphor of work-life balance with something more realistic and sustainable. If you're seeking balance, you'll never achieve it, argues Friedman. The idea that work competes with life ignores the more nuanced reality of our humanity: the interaction of four domains—work, home, community, and the private self. The goal is to create harmony among them instead of thinking only in terms of trade-offs. It can be done. Building on his national bestseller *Total Leadership* and on decades of research, teaching, and practice as both consultant and senior executive, Friedman identifies the critical skills for integrating work and the rest of life. He illustrates them through compelling original stories of these remarkable people: former Bain Company CEO and Bridgespan co-founder Tom Tierney, Facebook COO and bestselling author Sheryl Sandberg, nonprofit leader and US Navy SEAL Eric Greitens, US First Lady Michelle Obama, soccer champion turned broadcaster Julie Foudy, renowned artist Bruce Springsteen. Each of these admirable though surely imperfect people exemplifies a set of skills for being real, being whole, and being innovative that produce a sense of purpose, coherence, and optimism. Based on interviews and research, their stories paint a vivid picture of how six very different leaders use these skills to act with authenticity, integrity, and creativity, and they prove that significant public success is accomplished not at the expense of the rest of life but as the result of meaningful engagement in all its parts. With dozens of practical exercises for strengthening these skills, curated from the latest research in organizational psychology and related fields, this book will inspire you, inform you, and instruct you on how to take realistic steps now toward leading the life you truly want. [The Best Plays of 1971-1972](#) Otis L. Guernsey, 1972 [New York Teachers' Monographs](#), 1918 [Moms in Chief](#) Tammy R. Vigil, 2019-01-23 In 1776 when Abigail Adams implored her husband to Remember the Ladies, John Adams scoffed, declaring, "We know better than to repeal our masculine system." More than two hundred years later, American women continue to struggle against the idea that they are simply vassal extensions of their husbands, a notion that is acutely enacted in presidential campaigns. An examination of how the spouses of recent presidential candidates have presented themselves and been perceived on the campaign trail, *Moms in Chief* reveals the ways in which the age-old rhetoric of republican motherhood maintains its hold on the public portrayal of womanhood in American politics and constrains American women's status as empowered, autonomous citizens.

The rhetoric of republican motherhood describes the ostensibly ideal female patriot as domestically focused self sacrificial deferential and defined by her relationship to others particularly her husband Moms in Chief combines the study of history gender communication and politics to show how the spouses of the major parties presidential nominees from 1992 to 2016 at times fulfilled at other times flouted but at all times were handicapped by this stereotype From Barbara Bush as dynastic mother to Michelle Obama as Mom in Chief from Laura Bush as all American wife to Melania Trump as model immigrant from Teresa Heinz Kerry as assertive heiress to Bill Clinton as past president and prospective first gentleman Tammy R Vigil explores the function of presidential consorts in their spouses campaigns and she scrutinizes how their portrayal by opponents the press and themselves has challenged or reinforced perceptions of the role of gender and the place of women in American political life In the unofficial contest between candidates spouses there are winners and losers What is at stake Vigil s research suggests is the very definition of women as American citizens and political actors *Teachers' Monographs* ,1917 **Town Journal** ,1929 **Mr. and Mrs. President** Gil Troy,2000 With a new chapter devoted to Hillary and Bill Clinton s tainted partnership in office and to the present First Lady s senatorial ambitions this second edition offers fresh insights into America s paradoxical expectations for its presidential wives and husband Deeply engrossing Publishers Weekly 33 photos *The Best Plays of ...* ,1972 **Left Behind** Lily Geismer,2022-03-01 The 40 year history of how Democrats chose political opportunity over addressing inequality and how the poor have paid the price For decades the Republican Party has been known as the party of the rich arguing for business friendly policies like deregulation and tax cuts But this incisive political history shows that the current inequality crisis was also enabled by a Democratic Party that catered to the affluent The result is one of the great missed opportunities in political history a moment when we had the chance to change the lives of future generations and were too short sighted to take it Historian Lily Geismer recounts how the Clinton era Democratic Party sought to curb poverty through economic growth and individual responsibility rather than asking the rich to make any sacrifices Fueled by an ethos of doing well by doing good microfinance charter schools and privately funded housing developments grew trendy Though politically expedient and sometimes profitable in the short term these programs fundamentally weakened the safety net for the poor This piercingly intelligent book shows how bygone policy decisions have left us with skyrocketing income inequality and poverty in America and widened fractures within the Democratic Party that persist to this day **Hope: A Collection of Obama Posters and Prints** Hal Elliott Wert, **The Best Plays of 1971-1972** Otis Love Guernsey (Jr.),1972 **Imelda Romualdez Marcos** Carmen Navarro Pedrosa,2017-10-12 This book contains the story of the trial and acquittal of Imelda Romualdez Marcos in a New York court in 1990 Her media image of being e one of the richest women in the worlde and coming from one of the poorest countries was the scandal This book discusses some facts and events that lead to Imelda s fall The author also addresses the scandalous affair of Ferdinand Marcos with Dovie Beams and how it destroyed Imelda Slowly the partner in marriage had become a rival in politics The
