Critique of Security Mark Neocleous, 2008-05-12 This book brings together a range of diverse discussions about security in order to sustain a genuine critique of the subject It is unique in its examination of the historical and political links between social security and national security and in its assessment of the way that emergency powers as the most intense realisation of the rhetoric of national security have been synthesised with normal law Among other ideas and concepts Mark Neocleous discusses the place of security in the liberal tradition of political theory Building on insights from Foucault and Marx he argues that liberalism s central category is not liberty but security He also deals with the role of security in justifying the introduction and continuation of emergency powers through a historical excavation of the state of emergency a political reading of the way emergency powers are only tangentially concerned with warfare and a theoretical reading of the debate between Schmitt and Benjamin

Parables for the Virtual Brian Massumi, 2021-08-30

Since its publication twenty years ago Brian Massumi s pioneering *Parables for the Virtual* has become an essential text for interdisciplinary scholars across the humanities Massumi views the body and media such as television film and the internet as cultural formations that operate on multiple registers of sensation Renewing and assessing William James s radical empiricism and Henri Bergson s philosophy of perception through the filter of the postwar French philosophy of Deleuze Guattari and Foucault Massumi links a cultural logic of variation to questions of movement affect and sensation Replacing the traditional opposition of literal and figural with distinctions between stasis and motion and between actual and virtual Massumi tackles related theoretical issues by applying them to cultural mediums as diverse as architecture body art the digital art of Stelarc and Ronald Reagan s acting career The result is an intriguing combination of cultural theory science and philosophy that asserts itself in a crystalline and multifaceted argument This twentieth anniversary edition includes a new

preface in which Massumi situates the book in relation to developments since its publication and outlines the evolution of its main concepts It also includes two short texts Keywords for Affect and Missed Conceptions about Affect in which Massumi explicates his approach to affect in ways that emphasize the book's political and philosophical stakes **Trajectories** Kuan-Hsing Chen, 2005-10-05 Trajectories brings together cultural theorists not only from countries with a known historical critical tradition such as America Canada and Australia but from the East Asia locations of Hong Kong Korea Singapore Taiwan Philippines India and Thailand It constitutes a critical confrontation between the imperial and colonial coordinates of north and south east and west Without rejecting the Anglo American practices of cultural studies the contributors present critical cultural studies as an internationalist and decolonized project Trajectories links critical energies together and charts future directions of the discipline The contributors discuss subjects such as Japanese colonial discourse cultural studies out of Europe Chinese nationalism in the context of global capitalism white panic stories from East Timor queer life in Taiwan and new social movements in Korea The book ends with an interview with Stuart Hall **Perversion and Modern Japan** Nina Cornyetz, J. Keith Vincent, 2010-01-21 Perversion and modern Japan focuses on the psychoanalytic approach to the study of modern Japan Using a wide range of psychoanalytic approaches the contributors to this book have brought together chapters on everything from the Ajase complex to underpants from fascist modernism in literature to internet based suicide pacts **Asian Migrants and Religious Experience** Bernardo Brown, Brenda Yeoh, 2025-10-01 Typically scholars approach migrants' religions as a safeguard of cultural identity something that connects migrants to their communities of origin This ethnographic anthology challenges that position by reframing the religious experiences of migrants as a transformative force capable of refashioning narratives of displacement into journeys of spiritual awakening and missionary calling These essays explore migrants' motivations in support of an argument that to travel inspires a search for new meaning in religion **Critical Perspectives on Ancient DNA** Daniel Strand, Anna Kallen, Charlotte Mulcare, 2024-07-02 The first comprehensive critical analysis of the practices and consequences of ancient DNA research This edited collection Critical Perspectives on Ancient DNA presents a critical enquiry into the much hyped ancient DNA revolution in archaeology Offering the first comprehensive and in depth scholarly analysis of the practices and effects of archaeogenetics editors Daniel Strand Anna Kallen and Charlotte Mulcare along with other renowned scholars from Europe and the United States address a host of questions such as What happens with our understanding of the past when archaeology is married to genetic science What cultural forms and historical narratives are generated by ancient DNA aDNA research and what energies could they unleash Taking a multidisciplinary and multisite approach to the topic these essays offer important insights into the epistemological ethical and political consequences around and beyond the scientific analysis of aDNA As such Critical Perspectives on Ancient DNA provides a timely and much needed critical engagement with the rapidly growing field of aDNA research a field that while already having a notable impact on how we view the past in research museums and popular media had not yet

been subject to thorough critical scrutiny Contributors Ruth Amstutz Chip Colwell Magnus Fiskesj K Ann Horsburgh Anna K

Sommer Daniel Strand **Deleuze & Guattari** Eleanor Kaufman, Kevin Jon Heller, 1998 During their lives Gilles Deleuze
and Felix Guattari were two of France s most prominent thinkers and their work continues to be a vital and influential part of
critical theory The essays in this collection written by prominent scholars offer a new approach to their work Unique in its
emphasis on Guattari both in conjunction with Deleuze and independently this volume features an essay by Deleuze himself
and includes a comprehensive bibliography of Guattari s and Deleuze s work The body of work explored here spans three
decades and cuts across the lines of philosophy political theory geography literature aesthetics and even the applied sciences
Readers unfamiliar with Deleuze and Guattari will gain a broad sense of their work from these pages specialists will discover
new and different methods of understanding the contributions of these writers The essays map out a set of applications that
rather than explain Deleuze and Guattari aim to extend and reinvent their thought in new and real life domains from cinema
to the Gulf War from quantum mechanics to the L A riots and from Israel s deportation of Palestinians to Jean Jacques
Rousseau s masochism Overall the collection demonstrates the wide range of potential applications of Deleuze s and Guattari
