First Men In The Moon:

The First Men in the Moon H. G. Wells, 2016-12-22 My next clear recollection is that we were prisoners at we knew not what depth beneath the moon's surface At the village of Lympne on the south coast of England the most uneventful place in the world the failed playwright Mr Bedford meets the brilliant inventor Mr Cavor and together they invade the moon Dreaming respectively of scientific renown and of mineral wealth they fashion a sphere from the gravity defying substance Cavorite and go where no human has gone before They expect a dead world but instead they find lunar plants that grow in a single day giant moon calves and the ant like Selenites the super adapted inhabitants of the Moon's utopian society The First Men in the Moon is both an inspired and imaginative fantasy of space travel and alien life and a satire of turn of the century Britain and of utopian dreams of a wholly ordered and rational society *The First Men in the Moon* Herbert George Wells, 1995 The most dazzling of Wells' scientific romances and the last of the series that began with *The Time Machine* this edition offers the only annotated version of *The First Men in the Moon* Wells combines subtle comedy and thrilling adventure in this engaging satire of imperialism and human frailty in which the heroes invade the moon only to be captured by the ant like Selenites Wells established a new level of the science fiction genre with his fantastical but subtle writing The explanatory notes in this edition clarify Wells' rich allusions and elucidate the scientific aspects of the moon voyage *The First Men In The Moon* H.
