The Places of Modernity in Early Mexican American Literature, 1848-1948 José F. Aranda Jr., 2022-02-2023 Choice Outstanding Academic Title. In *The Places of Modernity in Early Mexican American Literature, 1848-1948*, José F. Aranda Jr. describes the first one hundred years of Mexican American literature. He argues for the importance of interrogating the concept of modernity in light of what has emerged as a canon of earlier pre-1968 Mexican American literature. In order to understand modernity for diverse communities of Mexican Americans, he contends one must see it as an apprehension, both symbolic and material, of one settler colonial world order giving way to another, more powerful, colonialist but imperial vision of North America. Letters, folklore, print culture, and literary production demonstrate how a new Anglo-American political imaginary revised and realigned centuries-old discourses on race, gender, class, religion, citizenship, power, and sovereignty. The modern, Aranda argues, makes itself visible in cultural productions being foisted on a conquered people who were themselves beneficiaries of a notion of the modern that began in 1492. For Mexican Americans, modernity is less about any particular angst over global imperial designs or cultures of capitalism and more about becoming the subordinates of a nation-building project that ushers the United States into the twentieth century.

Seen and Heard in Mexico Elena Jackson Albarran, 2015 During the first two decades following the Mexican Revolution children in the country gained unprecedented consideration as viable cultural

critics social actors and subjects of reform Not only did they become central to the reform agenda of the revolutionary nationalist government they were also the beneficiaries of the largest percentage of the national budget While most historical accounts of postrevolutionary Mexico omit discussion of how children themselves experienced and perceived the sudden onslaught of resources and attention Elena Jackson Albarr n in *Seen and Heard in Mexico* places children s voices at the center of her analysis Albarr n draws on archived records of children s experiences in the form of letters stories scripts drawings interviews presentations and homework assignments to explore how Mexican childhood despite the hopeful visions of revolutionary ideologues was not a uniform experience set against the monolithic backdrop of cultural nationalism but rather was varied and uneven Moving children from the aesthetic to the political realm Albarr n situates them in their rightful place at the center of Mexico s revolutionary narrative by examining the avenues through which children contributed to ideas about citizenship and nation
