First World War Posters:

Picture This Pearl James, 2009 Essays by Jay Winter Jeffrey T Schnapp Jennifer D Keene and others reveal the centrality of visual media particularly the poster within the specific national contexts of Britain France Germany Russia and the United States during World War I Ultimately posters were not merely representations of popular understanding of the war but instruments influencing the Posters of the First World War David Bownes, Robert Fleming, 2014-07-10 The First World War a new low in the annals of armed conflict coincided with a golden age for the relatively new art of advertising Striking and colourful posters were produced throughout the years 1914 18 to recruit soldiers promote investment keep up morale and naturally to vilify the enemy prominent artists including Alfred Leete paired bold images with punchy text to maximise impact The selection in this book offers an informative guide to the range of posters created and to how they were displayed around the nation and explores the public s increasing dissatisfaction with being patronised and goaded From the iconic commanding Your Country Needs YOU to the anxious domestic scene of Daddy What Did YOU Do in the War and including the infamous depiction of a bayoneting in Back Him Up this book puts the reader in the shoes of the Great War man in the street Patriotic Culture in Russia During World War I Hubertus Jahn, 1998 A cultural history charting the rise and fall of Russian patriotism during the first few years of the Great War Illustrated with period prints posters and broadsides the book traces the evolution of patriotic symbolism in popular entertainments and cultural production **Posters of The Great War** Frédérick Hadley, Martin Pegler, 2013-05-20 Until the arrival of radio and television and despite the influence of newspapers posters were the major medium for mass communication During the Great War all the belligerent nations produced an extraordinary variety of them and they did so on a massive scale As the 200 wartime and immediate post war posters selected for this book reveal they were one of the most potent and memorable ways of conveying news information and propaganda In the most graphic and colourful fashion they promoted values such as patriotism and sacrifice By using rallying symbols such as flags as well as historical and mythical models they sought to maintain morale and draw people together by stirring up anger against the enemy Today their remarkable variety of styles give us an instant insight into the themes and messages the military and civilian authorities wished to publicize The sheer inventiveness of the poster artists is demonstrated as they focused on key aspects of the propaganda campaign in Britain France Germany America and Russia The diversity of their work is displayed here in chapters that cover recruitment money raising the soldier the enemy the family and the home front films and the post war world A century ago when these images were first viewed they must have been even more striking in contrast to the poor quality newspaper photographs and postcards that were available at the time The Great War was to change that forever It introduced a means of propaganda that was novel persuasive and above all powerful It was the first media war and the poster played a key role in it **World War I in 40 Posters** Ann P. Linder, 2016-04-01 Published during the war s centennial this is the story of the First World War through forty propaganda

Williams, 2016-06-28 Propaganda and Hogarth's Line of Beauty in the First World War assesses the literal and metaphoric connotations of movement in William Hogarth's eighteenth century theory of a line of beauty and subsequently employs it as a mechanism by which the visual propaganda of this era can be innovatively explored Hogarth's belief that this line epitomises not only movement but movement at its most beautiful creates conditions of possibility whereby the construct can

be elevated from traditional analyses and consequently utilised to examine movement in artworks from both literal and metaphorical perspectives Propagandist promotion of an alternate reality as a challenge to a current real lends itself to these dual viewpoints the early years of the twentieth century saw growth in the advertising of conflict via the pictorial poster instigating intentionally or otherwise an aesthetic response from soldier artists embroiled on the battlefields The line of beauty therefore serves as a productive mechanism by which this era of propaganda art can be appraised
