First Amendment 2003:

, The Governance of Online Expression in a Networked World Helena Carrapico, Benjamin Farrand, 2017-10-02 In recent years we have witnessed the mushrooming of pro democracy and protest movements not only in the Arab world but also within Europe and the Americas Such movements have ranged from popular upheavals like in Tunisia and Egypt to the organization of large scale demonstrations against unpopular policies as in Spain Greece and Poland What connects these different events are not only their democratic aspirations but also their innovative forms of communication and organization through online means which are sometimes considered to be outside of the State s control At the same time however it has become more and more apparent that countries are attempting to increase their understanding of and control over their citizens actions in the digital sphere This involves striving to develop surveillance instruments control mechanisms and processes engineered to dominate the digital public sphere which necessitates the assistance and support of private actors such as Internet intermediaries Examples include the growing use of Internet surveillance technology with which online data traffic is analysed and the extensive monitoring of social networks Despite increased media attention academic debate on the ambivalence of these technologies mechanisms and techniques remains relatively limited as is discussion of the involvement of corporate actors The purpose of this edited volume is to reflect on how Internet related technologies mechanisms and techniques may be used as a means to enable expression but also to restrict speech manipulate public debate and govern global populaces This book was published as a special issue of the Journal of Information Technology and Politics **A**

Funny Thing Happened on the Way to the Senate Wyman Spano, Nona Yates, 2010-07-15 The Franken Coleman campaign saga really begins with the tragic plane crash resulting in the death of Senator Paul Wellstone That moment provided Norm Coleman his second opportunity for major political reinvention the first being when he switched parties Following the tragedy Coleman shifted gears to run a kinder gentler series of television ads that hardly mentioned his new opponent Walter Mondale Meanwhile when Republicans accused Democrats of turning the Wellstone memorial service into a carefully choreographed political rally Franken was outraged He immediately set upon a mission to unseat Coleman which ended up with their eventual head to head run in 2008 The unprecedented recount and legal drama that ultimately decided the election was an appropriate coda to what had already been an extraordinary Minnesota Senate race A Funny Thing Happened on the Way to the Senate tells the whole story Universal's Master Guide to Judicial Service Examination
