Om krigskorrespondenten som helt propagandist og skaber af myter fra Krimkrigen til Vietnamkrigen **The First Casualty** Phillip Knightley, 1975 **Britain and World War One** Alan G. V. Simmonds, 2013-03 The First World War appears as a fault line in Britain s twentieth century history Between August 1914 and November 1918 the titanic struggle against Imperial Germany and her allies consumed more people more money and more resources than any other conflict Britain had hitherto experienced For the first time it opened up a Home Front that stretched into all parts of the British polity society

and culture touching the lives of every citizen regardless of age gender and class Even vegetables were grown in the gardens of Buckingham Palace Britain and World War One throws attention on these civilians who fought the war on the Home Front Harnessing recent scholarship and drawing on original documents oral testimony and historical texts this book casts a fresh look over different aspects of British society during the four long years of war It revisits the early war enthusiasm and the making of Kitchener s new armies the emotive debates over conscription the relationships between politics government and popular opinion women working in wartime industries the popular experience of war and the question of social change The book also explores areas of wartime Britain overlooked by recent histories including the impact of the war on rural society the mobilization of industry and the importance of technology as well as exploring responses to air raids food and housing shortages the challenges to traditional social and sexual mores and wartime culture Britain and World War One is an essential book for all students and interested lay readers of the First World War Professional Journal of the United States Army ,1976 *Voices of the Vietnam POWs* Craig Howes,1993-09-30 Unsure whether they would be greeted as traitors or heroes POWs returning from Vietnam responded by holding tight to their chosen motto Return with Honor We re giving the American people what they want and badly need heroes said a Vietnam jungle POW I feel it s our responsibility our duty to help them where possible shed the idea this war was a waste useless as unpopular as it may have been In the first book to explore the entire range of memoirs biographies and group histories published since America s Vietnam POWs returned home Craig Howes explores the development of a collective history He describes how these captives drew upon their national heritage to compose a unified common story while still in prison and how individual POWs have responded to this Official Story Examining what racial cultural and political assumptions support this shared Official Story Howes places the POWs experiences squarely in the center of American history and within those larger clashes of opinion and belief which characterized the nation s response to the Vietnam War The result is an engrossing study of what these captivity narratives can tell us about the POWs their captors and America s Vietnam legacy **The Hell of War Comes Home** Owen W. Gilman Jr.,2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II s literature and film Like few other books Gilman s volume studies these new texts among them Kevin Powers s debut novel *The Yellow Birds* and Phil Klay s short stories *Redeployment* along with the films *The Hurt Locker* *American Sniper* and Billy Lynn s *Long Halftime Walk* For perspective Gilman also looks at some touchstones from the Vietnam War Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently

preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding *Military Review* ,1976 **War in the American Pacific and East Asia, 1941-1972** Hal M. Friedman,2019-02-22 Before 1940 the Japanese empire stood as the greatest single threat to the American presence in the Pacific and East Asia To a lesser degree the formerly hegemonic colonial powers of Britain France and the Netherlands still controlled portions of the region At the same time subjugated peoples in East Asia and Southeast Asia struggled to throw off colonialism By the late 1930s the competition exploded into armed conflict Japan looked like the early victor but the United States eventually established itself as the hegemonic power in the Pacific Basin by 1945 Yet when it comes to the American movement out into the Pacific there is more to the story that has yet to be revealed In *War in the American Pacific and East Asia 1941-1972* editor Hal Friedman brings together nine essays that explore lesser known aspects and consequences of America's military expansion into the Pacific during and after World War II This study explores how the United States won the Pacific War against Japan and how it sought to secure that victory in the decades that followed ensure it never endured another Pearl Harbor style defeat and saw the Pacific fulfill a Manifest Destiny like role as an American frontier projected toward East Asia The collection explores the role of the US military in the Pacific Basin in different ways by presenting essays on interservice rivalry and military advising as well as unique topics that are new to military history such as the investigations of strategic communications military public relations institutional cultures of elite forces foodways and the military's interaction with the press Together these essays provide a path for historians to pursue groundbreaking areas of research about the Pacific and establish the Pacific War as the pivotal point in the twentieth century in the Pacific Basin

Lippman,2023-04-03 The captivating story of an influential journalist demonstrates the value of a free press to democratic society In the decades between the Great Depression and the advent of cable television when daily newspapers set the conversational agenda in the United States the best reporter in the business was a rumpled hard drinking figure named Homer Bigart Despite two Pulitzers and a host of other prizes he quickly faded from public view after retirement Few today know the extent to which he was esteemed by his peers *Get the Damn Story* is the first comprehensive biography to encompass all of Bigart's journalism including both

his war reporting and coverage of domestic events Writing for the New York Herald Tribune and the New York Times Bigart brought to life many events that defined the era the wars in Europe the Pacific Korea and Vietnam the civil rights movement the creation of Israel the end of colonialism in Africa and the Cuban Revolution The news media's collective credibility may have diminished in the age of Twitter but Bigart's career demonstrates the value to a democratic society of a relentless inquiring mind examining its institutions and the people who run them The principle remains the same today the truth matters Historians and journalists alike will find Bigart's story well worth reading **The Handbook of Journalism Studies**

States From President Lyndon B Johnson's Vietnam War cover ups to George W Bush's rationale for military action in Iraq and Afghanistan And how courageous investigative journalists stood up to power to bring truth to light *East Asia's Other Miracle* Alex J. Bellamy, 2017-09-29 East Asia until recently the scene of widespread blood letting has achieved relative peace A region that at the height of the Cold War had accounted for around eighty percent of the world's mass atrocities has experienced such a decline in violence that by 2015 it accounted for less than five percent This book explains East Asia's other miracle and asks whether it is merely a temporary blip in the historical cycle or the dawning of a new and more peaceful era for the region It argues that the decline of mass atrocities in East Asia resulted from four interconnected factors the consolidation of states and emergence of responsible sovereigns the prioritization of economic development through trade the development of norms and habits of multilateralism and transformations in the practice of power politics Particular attention is paid to North Korea and Myanmar countries whose experience has bucked regional trends largely because these states have not succeeded in consolidating themselves to the point where they no longer depend on violence to survive Although the region faces several significant future challenges this book argues that the much reduced incidence of mass

atrocities in East Asia is likely to be sustained into the foreseeable future      Defence and the Media in Time of Limited War Peter R Young, 2013-09-13 First Published in 2004 Events in the Gulf Crisis of 1990 91 have highlighted the importance of the increasingly complex and difficult relations between Defence and the Media in time of War especially in time of limited conflict when the well being let alone the security of the home nation may not be affected This problem has become especially acute given the growth of the new high technology media and its global spread and immediacy The question of how to reconcile the competing demands for secrecy on the one hand and the public s right to know on the other is fast emerging as a major question of our times In Brisbane during 3 5 April 1991 there was held what is believed to be the first ever International Conference on the topic of Defence and the Media in Time of Limited Conflict to look at this and other issues stemming from the problem Jointly funded by the Queensland University of Technology and the Australian Department of Defence the three day Conference was a major success attracting 160 delegates from Great Britain the United States Zambia Papua New Guinea Brunei New Zealand France Indonesia and of course Australia This volume publishes nearly all the papers delivered at this conference whose main focus was on post 1945 limited wars especially Vietnam Northern Ireland the Falklands Grenada and the Gulf all of which receive detailed analysis      **Massacres and Morality** Alex J. Bellamy, 2012-09-27 Most cultural and legal codes agree that the intentional killing of civilians whether in peacetime or war is prohibited Yet despite this fact the deliberate killing of large numbers of civilians remains a persistent feature of global political life      *The Ashgate Research Companion to Modern Warfare* John Buckley, George Kassimeris, 2016-03-23 This research collection provides a comprehensive study of important strategic cultural ethical and philosophical aspects of modern warfare It offers a refreshing analysis of key issues in modern warfare not only in terms of the conduct of war and the wider complexities and ramifications of modern conflict but also concepts of war the crucial shifts in the structure of warfare and the morality and legality of the use of force in a post 9 11 age
