Roadside Tidbits Jan Young,2014-09-07 How often have you been driving say on a cross country trip and have flashed by a sign that says Historical Marker 1 mile How often have you stopped to read the sign How often have you wondered what you would have discovered if you had stopped Well if you re like me the answers are often almost never and almost always There never seems to be time the markers although announced can be hard to find and then there s the question of where to park and

how to get from the car to the marker and back safely One doubts that it s worthwhile But yet there s that nagging feeling that maybe it would be fascinating This book is a sampling of two hundred eighty four of the thousands of real life historical markers that exist on our roads and highways Each is accompanied by detailed location information and by an expansion of the often brief inscription Writing it satisfied my curiosity It s very likely it will satisfy yours too **Audacious Aviators** Jen Green,2023-10-09 This book tells the stories of adventurers who have defied gravity and soared above the Earth from pioneer aviators and astronauts to the free falling fearlessness of Felix Baumgartner Find out about the courage and skill of audacious aviators and whether you ve got what it takes to be an ultimate adventurer **Work of Art: The Craft of Creativity** James Hegarty,2014-01-10 Creativity is real We can all be creative There s no entry fee no requirements no external expectations no limits In this book Hegarty takes apart the creative process and shows everyone how to take their ideas from inspiration to completion No you probably haven t heard of me I m not on TV But my music has been and on radio and in concert halls around the world For almost 30 years I ve worked with professional and student jazz musicians and composers to help them find ways to express the amazing ideas they have in their heads This is about practical and realistic creativity creativity that works within our own individual lives James Hegarty a jazz pianist producer filmmaker and college professor who has spent his life searching for the new Thanks for checking out my book Comments from readers I just read ten pages on identity and I am hooked You inspire me and I know you will inspire others with this book Honestly I ve never thought of myself as a particularly creative person but I m seeing that there are lots of different approaches to get the juices flowing Your book is very cool The writing style works so well with the content A couple of ideas I really enjoyed Pioneer Aviators Frank Hitchens,2023-11-22 Pioneer Aviators records the various stages of man s journey into the skies taking the reader from the earliest years of experimentation through the early age of ballooning into heavier than air flight our ventures into space and even all the way back around to modern human powered vessels The book introduces the reader to almost three hundred aviation pioneers and the aircraft they flew and is illustrated throughout with photographs mostly from the author s own collection Due to the historical importance of these aircraft and as a tribute to those who flew them many are now housed in museums across the world Without the efforts and sacrifices of the pioneers we would not have the aviation industry of today **Popular Science** ,2003-06 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better Futurehype (EasyRead Edition) Bob Seidensticker,2006 **Chase's Calendar of Events 2025** Editors of Chase's,2024-09-09 Find out what s going on any day of the year anywhere across the globe Since 1957 Chase s Calendar of Events lists everything worth knowing and celebrating for each day of the year 12 500 holidays national days historical milestones famous birthdays festivals sporting events and more One of the most impressive reference volumes in the world Publishers Weekly From national days to celebrity birthdays
