Thomas, 1943 *Women and Politics in Wartime China* Vivienne Xiangwei Guo, 2018-12-07 Focusing on Chinese elite women as a special socio political group this book places the sophisticated networks they formed in the shifting geographical social cultural and political spaces of wartime China where their political engagement knowledge making and network building in support of national resistance and reconstruction kangzhan jianguo unfolded By examining the emergence development integration and transformation of these networks as an unsettled fragmented process a process that lasted through the extended wars and upheavals in China from the 1930s to the 1950s and that moves beyond party ideologies and geopolitical borders the book seeks to explore the dynamics of war politics and gender in the broader context of the Second World War

Asia First Joyce Mao, 2015-06-09 After Japanese bombs hit Pearl Harbor the American right stood at a crossroads Generally isolationist conservatives needed to forge their own foreign policy agenda if they wanted to remain politically viable When Mao Zedong established the People's Republic of China in 1949 with the Cold War just underway they had a new object of foreign policy and as Joyce Mao reveals in this fascinating new look at twentieth century Pacific affairs that change would provide vital ingredients for American conservatism as we know it today Mao explores the deep resonance American conservatives felt with the defeat of Chiang Kai Shek and his exile to Taiwan which they lamented

as the loss of China to communism and the corrosion of traditional values In response they fomented aggressive anti communist positions that urged greater action in the Pacific a policy known as Asia First While this policy would do nothing to oust the communists from China it was powerfully effective at home Asia First provided American conservatives a set of ideals American sovereignty selective military intervention strident anti communism and the promotion of a technological defense state that would bring them into the global era with the positions that are now their hallmark

The Oxford Encyclopedia of Women in World History Bonnie G. Smith,2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

War and Revolution in South China Edward J. M. Rhoads,2021-09-10 In War

and Revolution in South China Edward Rhoads recounts his childhood and early teenage years during the Sino Japanese War and the early postwar years Rhoads came from a biracial family His father was an American professor while his Chinese mother was a typist and stenographer In the late 1930s and the 1940s the Rhoads family lived through the turbulent years in southern China and Hong Kong The book follows Rhoads childhood in Guangzhou his family's evacuation to Hong Kong his father's internment and repatriation to the United States and his and his mother's flight to Free China He recalls his reunion with family members in northern Guangdong Province in 1943 their retreat to China's wartime capital of Chongqing where his father worked for the American government and how they returned to Guangzhou after the war The Rhoads family then witnessed the socioeconomic recovery in the city and the regime change in 1949 The book ends with their departure from China to the United States in 1951 a year and a half after the Communist revolution The book fills an important gap in the scholarship by examining the impact of the Sino Japanese War in southern China from the perspective of one family Rhoads reveals that the war in this region while often neglected by scholars was in fact no less turbulent than it was in northern and central China He combines autobiography with serious historical research to reconstruct the lives of his family consulting a large number of archival documents private correspondence and scholarly literature to produce a rare study that is both scholarly and accessible This book is a very timely reminder that one should look at the experience of China during the Second Sino Japanese War and the Second World War from a regional perspective in order to understand the diverse historical experience of the people from different geographical ethnic cultural and social backgrounds Chi man Kwong Hong Kong Baptist University A pleasure to read and of compelling interest Edward Rhoads book explores the more benign side of the foreign influence in modern China the introduction of modern educational institutions The intriguing lens through which we look is his biracial family their multiple flights across southern China as refugees escaping war and their eventual expulsion from China Stephen Davies The University of Hong Kong

Gender and the Second World War Corinna Peniston-Bird, Emma Vickers, 2017-09-16 Showing how gender history contributes to existing understandings of the Second World War this book offers detail and context on the national and transnational experiences of men and women during the war Following a general introduction the essays shed new light on the field and illustrate methods of working with a wide range of primary sources

Women and China's Revolutions Gail Hershatler, 2018-09-04 If we place women at the center of our account of China's last two centuries how does this change our understanding of what happened This deeply knowledgeable book illuminates the places where the Big History of recognizable events intersects with the daily lives of ordinary people using gender as its analytic lens Leading scholar Gail Hershatler asks how these events affected women in particular and how women affected the course of these events For instance did women have a 1911 revolution A socialist revolution If so what did those revolutions look like Which women had them Hershatler uses two key themes to frame her analysis The first is the importance of women's visible and invisible labor The labor of women in domestic and public spaces

shaped China's move from empire to republic to socialist nation to rising capitalist power The second is the symbolic work performed by gender itself What women should do and be was a constant topic of debate during China's transformation from empire to weak state to partially occupied territory to nascent socialist republic to reform era powerhouse What sorts of concerns did people express through the language of gender How did that language work and why was it so powerful Drawing on decades of Hershatter's groundbreaking scholarship and mastery of a range of literatures this beautifully written book will be essential reading for all students of China's modern history **Global Medicine in China** Wayne

Soon, 2020-10-20 In 1938 one year into the Second Sino Japanese War the Chinese military found itself in dire medical straits Soldiers were suffering from deadly illnesses and were unable to receive blood transfusions for their wounds The urgent need for medical assistance prompted an unprecedented flowering of scientific knowledge in China and Taiwan throughout the twentieth century Wayne Soon draws on archives from three continents to argue that Overseas Chinese were key to this development utilizing their global connections and diasporic links to procure much needed money supplies and medical expertise The remarkable expansion of care and education that they spurred saved more than four million lives and trained more than fifteen thousand medical personnel Moreover the introduction of military medicine shifted biomedicine out of elite urban civilian institutions and laboratories and transformed it into an adaptive field based practice for all Universal care practical medical education and mobile medicine are all lasting legacies of this effort **Statelessness after Arendt**

Kolleen Guy, Jay Winter, 2025-05-27 This book is a study of statelessness in the period of the Second World War It breaks new ground by focusing not on Europe but on the Asian and Pacific theatres of the conflict This perspective enables us to go beyond Hannah Arendt's classic account of statelessness in her *Origins of Totalitarianism* To her statelessness was the product of a failed European nation state system We find a very different story when we examine the history of stateless people many of them Jews fleeing to Asia from Europe In Asia we see that being stateless was not a uniform experience but a variety of possibilities reflecting the political structure of the states and cities in which refugees found shelter We find too that stateless people managed to enter the political realm long before they reached the threshold of citizenship *The*

United States and China Dong Wang, 2013-01-30 Combining original research with contemporary scholarship *The United States and China* re-examines over two centuries of interaction between the United States and China in a changing world It explains the foundations and character of their political economic military social and cultural relations and shows how they have come to shape the domestic and international affairs of the two countries American Chinese relations have also been affected by national and global forces Societal interchanges and government level interactions are the dual themes of this research survey Since 1784 when the first American ship the *Empress of China* landed in Canton Guangzhou U S Chinese relations have moved from the periphery to the center of strategic attention for both countries This transformation has not eroded either American supremacy or Chinese sovereignty but in the 21st century has given rise to a new order of national

bilateral and supranational institutions that conjoins the two peoples Progress patience and most importantly peace are the proven historical cure for the various ills engendered by Sino U S interactions This text offers the first comprehensive synthesis of the history of U S Chinese relations from initial contact to the present Balancing the modern 1784 1949 and contemporary 1949 periods Dong Wang retraces centuries of interaction between two of the world s great powers from the perspective of both sides The author explores key themes in each phase of the relationship and highlights important case studies for more in depth treatment She examines state to state diplomacy as well as economic social military religious and cultural interplay within varying national and international contexts In both form and content these multi faceted encounters have shaped one of the most significant bilateral relationships of our time As China itself continues to grow in global importance so does the U S Chinese relationship and this book provides an essential grounding for understanding its past present and possible futures

Echoes of Chongqing Danke Li, 2010-10-01 This collection of annotated oral histories records the personal stories of twenty Chinese women who lived in the wartime capital of Chongqing during China s War of Resistance against Japan during World War II By presenting women s remembrances of the war this study examines the interplay between oral history and traditional historical narrative public discourse and private memories The women interviewed came from differing social economic and educational backgrounds and experienced the war in a variety of ways some of them active in the communist resistance and others trying to support families or pursue educations in the face of wartime upheaval Their stories demonstrate that the War of Resistance had two faces one presented by official propaganda and characterized by an upbeat unified front against Japan the other a record of invisible private stories and a sobering national experience of death and suffering The accounts of how women coped worked and lived during the war years in the Chongqing region recast historical understanding of the roles played by ordinary people in wartime and give women a public voice and face that until now have been missing from scholarship on the war

The Last Empress Hannah Pakula, 2009-11-03 With the beautiful powerful and sexy Madame Chiang Kai shek at the center of one of the great dramas of the twentieth century this is the story of the founding of modern China starting with a revolution that swept away more than 2 000 years of monarchy followed by World War II and ending in the eventual loss to the Communists and exile in Taiwan An epic historical tapestry this wonderfully wrought narrative brings to life what Americans should know about China the superpower we are inextricably linked with the way its people think and their code of behavior both vastly different from our own The story revolves around this fascinating woman and her family her father a peasant who raised himself into Shanghai society and sent his daughters to college in America in a day when Chinese women were kept purposefully uneducated her mother an unlikely Methodist from the Mandarin class her husband a

military leader and dogmatic warlord her sisters one married to Sun Yat sen the George Washington of China the other to a seventy fifth lineal descendant of Confucius and her older brother a financial genius This was the Soong family which along with their partners in marriage was largely responsible for dragging China into the twentieth century Brilliantly narrated this fierce and bloody drama also includes U S Army General Joseph Stilwell Claire Chennault head of the Flying Tigers Communist leaders Mao Tse tung and Chou En lai murderous warlords journalists Henry Luce Theodore White and Edgar Snow and the unfortunate State Department officials who would be purged for predicting correctly the Communist victory in the Chinese Civil War As the representative of an Eastern ally in the West Madame Chiang was befriended before being rejected by the Roosevelts stayed in the White House for long periods during World War II and charmed the U S Congress into giving China billions of dollars Although she was dubbed the Dragon Lady in some quarters she was an icon to her people and is certainly one of the most remarkable women of the twentieth century Heroines in History Katie

Pickles,2022-07-21 Heroines in History A Thousand Faces moves beyond stories of individual heroines taking a thematic synthesising and global in scope approach to challenge previous understandings of heroines in history Responding to Joseph Campbell s Hero with a Thousand Faces Katie Pickles explores the idea of a transcultural heroine archetype that recurs through time Each chapter addresses an archetypal theme important for heroines in history The volume offers a new consideration of the often awkward position of women in history and embeds heroines in the context of their times as well as interpreting and analysing how their stories are told re told and represented at different moments To do so it recovers and compares some women now forgotten along with well known recent heroines and brings together a diversity of women from around the world Pickles looks at the interplay of gender race heredity status class and politics in different ways and chronicles the emergence of heroines as historical subjects valued for their substance and achievements rather than as objects valued for their image and celebrity In an accessible and original way the book builds upon developments in women s and gender history and is essential reading for anyone interested in this field **Women Who Changed the World**

Candice Goucher,2022-01-24 This indispensable reference work provides readers with the tools to reimagine world history through the lens of women s lived experiences Learning how women changed the world will change the ways the world looks at the past Women Who Changed the World Their Lives Challenges and Accomplishments through History features 200 biographies of notable women and offers readers an opportunity to explore the global past from a gendered perspective The women featured in this four volume set cover the full sweep of history from our ancestral forbearer Lucy to today s tennis phenoms Venus and Serena Williams Every walk of life is represented in these pages from powerful monarchs and politicians to talented artists and writers from inquisitive scientists to outspoken activists Each biography follows a standardized format recounting the woman s life and accomplishments discussing the challenges she faced within her particular time and place in history and exploring the lasting legacy she left A chronological listing of biographies makes it easy for readers to zero in on
