## **First Russian Revisionists:**

The First Russian Revisionists Richard Kindersley, 1962

**The Emergence of Russian Constitutionalism 1900-1904**

K. Fröhlich, 2012-12-06 My interest in the topic of this book traces back over more than ten years to my interest in the history of political parties in pre revolutionary Russia To my late tutor Professor Reinhard Wittram who guided me during my undergraduate and post graduate days as a student at the University of Göttingen I owe a special gratitude for giving me interest its special focus I am indebted to him for my academic training more than this book may indicate He did not see the results of his influence but he followed my preparatory work with both sympathy and critical attention My thanks are due equally to Professors Hans Roos Bochum and Rudolf Vierhaus Göttingen whose constant advice and help meant continued encouragement I am further obliged to Professors Dietrich Geyer Tübingen and Hans Kiesel Oldenburg and their critical reading of the 1973 draft of my book In 1977-78 during my revision of the manuscript and its preparation for publication the most important suggestions came to me from many discussions deep into the night with my friend Jürgen Jahnke To the many others whose names do not appear here I owe my thanks for their help and encouragement

The Liberation Movement in Russia 1900-1905 Shmuel Galai, 2002-06-27 The story of Russian liberalism's failure to present an effective alternative to Tsarism and Bolshevism

**Russian Historiography from 1880 to 1905** Thomas M. Bohn, 2024-06-01 In Russian historiography the Moscow School's paradigm shift from political and legal history to social and economic history was markedly driven by Pavel Miliukov 1859-1943 the late leader of the Constitutional Democrats and foreign minister of the Provisional Government Russian Historiography from 1880 to 1905 develops a narrative of historical sociology's advancement through the Moscow School under Miliukov's influence and provides a window into his decision making as a political figure who based his leadership not on public opinion but on the effectiveness of historical processes

**A History of Marxian Economics, Volume I** Michael Charles Howard, John Edward King, 2014-07-14 The first volume of this critical history covers the social political and theoretical forces behind the development of Marxian economics from Marx's death in 1883 until 1929 the year marking the onset of Stalin's revolution from above which subsequently transformed the Soviet Union into a modern superpower During these years Marxists in both Russia and Germany found their economic ideas inextricably linked with practical political problems and treated theory as a guide to action This book systematically examines the important theoretical literature of the period including insightful works by political functionaries outside academia journalists party organizers underground activists and teachers in the labor movement presented here as the primary forgers of Marxian economic thought Beginning with Engels's writings this book analyzes the work of leading Marxist economists in the Second International then concludes with a review of the intellectual movements within the Marxian political economy during the 1920s A second volume treating the period from 1929 to the present will follow Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books

from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

*A History of Russian Philosophy 1830-1930* G. M. Hamburg, Randall A. Poole, 2010-04-22 The great age of Russian philosophy spans the century between 1830 and 1930 from the famous Slavophile Westernizer controversy of the 1830s and 1840s through the Silver Age of Russian culture at the beginning of the twentieth century to the formation of a Russian philosophical emigration in the wake of the Russian Revolution This volume is a major history and interpretation of Russian philosophy in this period Eighteen chapters plus a substantial introduction and afterword discuss Russian philosophy's main figures schools and controversies while simultaneously pursuing a common central theme the development of a distinctive Russian tradition of philosophical humanism focused on the defence of human dignity As this volume shows the century long debate over the meaning and grounds of human dignity freedom and the just society involved thinkers of all backgrounds and positions transcending easy classification as religious or secular The debate still resonates strongly today

*The French Revolution in Russian Intellectual Life*, 2009 Russian intellectual discourse on the French Revolution as a representation of the West rather than a symbol of revolution

*Nineteenth-Century Russia* Derek Offord, 2014-05-12 This new Seminar Study provides students with a rewarding introduction to nineteenth century Russia This period of Russian history is of course characterised by the flowering of an enormously rich intellectual and cultural life the origins of which lie in the intelligentsia's opposition to autocratic rule Here Professor Offord introduces the reader to the period while focusing particularly on the rise of radicalism The book opens with two scene setting chapters one looking at the political and social structure peculiar to Russia and the second looking at the cultural and intellectual background Then within a chronological framework the author examines all the great events in the history of Russian radicalism from the Decembrist Revolt in 1825 to the going to the people in 1874 and the assassination of Alexander II in 1881 However throughout the text sustained attention is given to the intellectual dimension of nineteenth century Russian history Professor Offord examines all the major schools of thought and looks in

detail at all the great thinkers of the day including Chaadaev Belinsky Herzen Chernyshevsky Bakunin and Tolstoy This new book will provide essential reading for anyone studying nineteenth century Russia Lucid accessible and immensely readable it is a formidable achievement Vekhi Nikolei Berdiaev, Marshall S. Shatz, S.N. Bulgakov, Frank Semen, Judith E. Zimmerman, 2016-09-16 A collection of essays first published in Moscow in 1909 Writing from various points of view the authors reflect the diverse experiences of Russia's failed 1905 revolution Condemned by Lenin and rediscovered by dissidents this translation has relevance for discussions on contemporary Russia Russia, China and the Revisionist Assault on the Western Liberal International Order Gerlinde Groitl, 2023-05-22 This book analyzes Russian and Chinese revisionism in the face of US and Western post Cold War liberal international order building and asks why both powers have turned revisionist in the late 2000s The study develops a neoclassical realist model of international order building and contestation and posits to view revisionism as a strategic choice States go revisionist if the status quo international order threatens their vital security needs broadly defined not only as territorial security but also political economic normative and ontological and if they have the means to challenge the undesirable status quo Russia and China were both unhappy with the post Cold War international order of American designs but had to opt for accommodation in the 1990s and early 2000s strategic accommodation in the Chinese case resentful accommodation in the Russian case before revisionism became even more of a necessity and a real policy option from the late 2000s onward constructive revisionism in the Chinese case destructive revisionism in the Russian case The author calls for a policy of neo containment to counter Moscow's and Beijing's efforts to game and erode the international order *Political Ideas And Institutions In Imperial Russia* Marc Raeff, 2019-07-09 Marc Raeff is one of the truly outstanding scholars of Russian history This volume offers a sampling of the best essays from his prolific forty year career they span the history of Russia from the late seventeenth to the late nineteenth century In these essays Raeff considers the problems of imperial Russian politics and administration analyzes Russia's intellectual and social history as it relates to the governance of the multiethnic empire and places the institutional and intellectual history of Russia in the context of other Western and Central European developments Raeff's essays offer a sketch of the generation that came of age in the era of the Napoleonic Wars and the ensuing attempts at constitutional reform the generation that laid the foundations of the modern Russian national consciousness He explores modernization reform and liberalism in the second half of the nineteenth century the acquisition and incorporation of Russia's multiethnic population and the politics and administration of the reigns of Peter III and Catherine II He examines how the Russian elites assimilated values from the Western and Central European Enlightenment and assesses the important intellectual and ideological effects the Enlightenment had on the nation The volume concludes with a comparative look at the process of Westernization focusing on issues of literacy state leadership and the role of the intelligentsia Many of these seminal essays are long out of print and hard to find This timely volume makes Marc Raeff's insights readily available as Russia reemerges as a nation state facing

new challenges that are often deeply rooted in its past      The Cambridge History of Russia: Volume 2, Imperial Russia, 1689-1917 Maureen Perrie, D. C. B. Lieven, Ronald Grigor Suny, 2006-08-17 A definitive new history of Russia from early Russia to the collapse of the Soviet Union      **Russia and the Idea of Europe** Iver B. Neumann, 2016-10-14 The end of the Soviet system and the transition to the market in Russia coupled with the inexorable rise of nationalism brought to the fore the centuries old debate about Russia's relationship with Europe In this revised and updated second edition of *Russia and the Idea of Europe* Iver Neumann discusses whether the tensions between self-referencing nationalist views and Europe-orientated liberal views can ever be resolved Drawing on a wide range of Russian sources this book retains the broad historical focus of the previous edition and picks up from where it left off in the early 1990s bringing the discussion fully up to date Discussing theoretical and political developments it relates the existing story of Russian identity formation to new foreign policy analysis and the developments in the study of nationalism The book also offers an additional focus on post Cold War developments In particular it examines the year 2000 when Putin succeeded Yeltsin as president and 2014 when Russian foreign policy turned from cooperation to confrontation Bringing to life the various debates surrounding this complicated relationship in an accessible and clear manner this book continues to be a unique and vital resource for both students and scholars of international relations      **Russian Religious Thought** Judith Deutsch Kornblatt, Richard F. Gustafson, 1996 Contains 11 essays on four seminal thinkers from the modern Russian tradition Vladimir Soloviev 1853-1900 Pavel Florensky 1882-1937 Sergei Bulgakov 1871-1944 and Semen Frank 1877-1950 Despite their various approaches they all share the predominant dual focus of most Russian religious thought on the doctrines of Incarnation and Deification and the attendant stress on moral and social issues the philosophy of history and the relation of religion and culture Paper edition unseen 21 95 Annotation copyright by Book News Inc Portland OR      Socialist Europe and Revolutionary Russia Bruno Naarden, 2002-05-02 This book analyses perceptions and images of Russia held by European socialists from 1848 to the 1920s      Hybridisation of Political Order and Contemporary Revisionism Nik Hynek, Vít Strátecký, 2022-08-01 This volume argues that contemporary political and security revisionism should not be considered a homogenous attack against the international order but rather a bag of tailor-made strategies to exploit opportunities found in various highly localised contexts Scholars with backgrounds in Security Studies Area Studies International Relations and Political Theory are brought to examine revisionist tendencies in Central Eastern Europe Post Soviet Space China and the Transatlantic Space In doing so they try to remedy the existing disciplinary separatism or policing which has obfuscated any theorisation of the connections between international and domestic politics for many decades Part of the analytical focus is on novel phenomena especially the utilization of cyberspace and new social media and technological innovation One of the conclusions of this volume is that the rise in contemporary revisionism shows the oft-forgotten importance of the first image of international politics political leaders in other words do indeed matter The fact that they matter is only reinforced when they represent regional or even

great powers and especially revisionist regimes and states with the propensity to produce complex effects The chapters in this book were originally published as a special issue of the journal Europe Asia Studies

**Socialism & Marginalism in Economics 1870 - 1930** Ian Steedman, 2003-05-20 The rise to dominance of marginalist economics coincided with a major increase in the spread of socialist ideas As many socialist and Marxist thinkers were preoccupied with economic questions this was scarcely a development that could be ignored Socialists either had to defend Marxist economics against marginalist criticism or show that socialism and marginalism were compatible This volume explores the varied socialist responses in a number of major European countries including Italy France Russia and German speaking countries

**Pioneers for Profit** John P. McKay, 2015-03-12 Foreign investment increased from 17 percent of the capital of industrial corporations in Imperial Russia in 1880 to 47 percent in 1914 coinciding with the rapid development of Russian industrialization before World War I John McKay s study based largely on intensive research in numerous archives and utilizing many previously unexplored private business records is the first detailed analysis of the impact of foreign enterprise on Russian industry during this period His conclusions are significant for historians economists and those interested in the development of modern industrial society
