## **Fiscal Triage For Government:**

Fiscal Triage for Government C. Bradley Doss, Richard F. Wacht, 1989      *Grants* Jean M. Fromm, 2007 Grants are available from thousands of sources both private and public To the grantseeker however this wealth of sources appears like an impenetrable jungle Where are the grants I need and what do I need to do to submit my ideas and proposals This book is designed to answer these questions by aiming the grantseeker to both the grant givers and by providing a bibliography of book for further research      Government Finance Review, 1991      *Challenges to Teacher Education in Difficult Economic Times* Joan Stephenson, Lorraine Ling, 2013-10-23 Teacher education in a financial crisis what are the consequences and how can probity be maintained Education like most other parts of everyday life is experiencing the challenges brought about by global financial constrictions This book presents the experiences and views of practising teacher educators from multiple countries and continents on how the melt down in world economics has affected and will continue to affect teacher education and concomitant experiences in schooling The ramifications are seen to extend into every aspect of teacher preparation continuing staff development and teacher support and there are significant implications for the quality of teaching and learning and the ethos and standing of the process of education as a whole Drawing on educational theory and social political and economic discourses the book addresses issues such as policy philosophy organisation funding resources modes of teaching and learning curricular change recruitment and retention amongst others and provides a snap shot across diverse contexts It aims to provide an evaluative analytical but reflective picture of teacher education in the light of the world economic crisis whilst exploring good practice and suggesting future strategies to develop the quality of teacher education and professional support teaching and learning The volume provides an insight into the need for a new paradigm for teacher education one that involves teacher educators in devising a discourse of positive and radical change It will be a valuable resource for teacher educators educational leaders policy makers educational commentators and teachers seeking to engage with the scholarship of teaching as a means to engage in continuous professional development      The Debt Ceiling Disasters Neil H. Buchanan, 2013-09-09 In 2011 the new Republican majority in the House of Representatives embarked on a radical and dangerous path threatening to refuse to increase the limit on federal debt This new Republican strategy threatened to bring about the first federal default in the history of the United States a default that would be caused not by economic necessity but by political opportunism Because no one had ever threatened to force the federal government to default on its obligations politicians and scholars found themselves in uncharted territory Most commentary was superficial and ad hoc failing to take seriously the profound legal and economic questions that the Republican strategy raised Neil H Buchanan an economist and a tax law scholar emerged as the only expert analyst who systematically engaged in depth with all of the issues surrounding the debt ceiling This book brings together Professor Buchanan s accessible and lively analysis of the debt ceiling disasters as they have unfolded since 2011 He also provides an overview of where we now stand He explains why the

debt ceiling forces the President to choose between nothing but illegal and unconstitutional options He shows that the President must obey the spending and taxing laws rather than the debt ceiling law that novel strategies such as minting platinum coins are both illegal and dangerous and that the only way to stop the debt ceiling disasters from continuing into the future is for the President to take a constitutional stand today      **How Effectively are Federal, State, and Local Governments Working Together to Prepare for a Biological, Chemical, Or Nuclear Attack?** United States. Congress. House. Committee on Government Reform. Subcommittee on Government Efficiency, Financial Management, and Intergovernmental Relations,2003      **Towards Responsible Government in East Asia** Linda Chelan Li,2009-04-03 This book explores the idea of responsible government in East Asia arguing that many recent governance crises have resulted from responsibility failures on a huge scale It distinguishes between accountability which it argues has been overemphasised recently and responsibility which it argues goes beyond accountability true responsible government involving the actor in feeling liable for and taking responsibility for his or her actions It shows how historically the concept of responsibility is more embedded in political discussions in Asia whereas the concepts of democracy and accountability are more embedded in the intellectual traditions of Europe but that the challenges of revolution and post revolution decolonization and post colonization and neo liberal globalization have complicated matters Drawing on a wide range of case studies from East Asia and relating the concepts discussed to political theory ethics and social psychology the book shows how actors in government and society interact to deliberate produce or distract from the practice and perception of responsible government and suggests how the concept of responsible government better defined might be encouraged to produce better governance      Dewey Decimal Classification, 20th Edition Jeanne Osborn,1991 This work traces recent developments in the Dewey Decimal Classification and points to those characteristics which appear to be shaping its future Although designed for use with previous editions of DDC this offers reliable explanation and drill The present study is more concerned with differences between DDC 19 and DDC 20      **Monthly Catalog of United States Government Publications** ,1995      **The Elgar Companion to Modern Money Theory** Yeva Nersisyan,L. R. Wray,2024-08-06 This Companion is a comprehensive introduction to Modern Money Theory MMT covering a wide variety of topics from the nature and origins of money to the fundamentals of government spending and taxation to the application of MMT in developed and developing countries      *Public Accounts for the Fiscal Year Ended ...* ,1918      **Community-Based Systems of Long-Term Care** Rick T. Zawadski,2014-04-23 An enlightening review of the successes and failures of several federally funded community based projects that offered elderly persons an alternative to nursing home care Policymakers caregivers and students of public administration and gerontology must read this valuable book      *Missing Links* United States. Congress. Senate. Committee on Governmental Affairs,1990 Abstract This hearing considers the problem of drug abuse among pregnant women and mothers and the effect this substance abuse has on infants and children The hearing attempts to establish the dimensions of the problem to discuss the needs of the

women and children and to decide what steps need to be taken to meet those needs The testimony reveals that 375 000 babies are born exposed to drugs and federal programs are inadequate to affect this situation Research Handbook on City and Municipal Finance Craig L. Johnson,Tima M. Moldogaziev,Justin M. Ross,2023-09-06 This timely Research Handbook explores the handling of city and municipal finances in the 21st century It examines the impact of the Great Recession and COVID 19 pandemic on cities and municipalities highlighting strengths weaknesses and avenues for future progress in city and municipal financial management *The Adapters* Sean Worker,2021-03-24 The Adapters is a multi book and audiograph series written around podcast style interviews with an impressive collection of GGTs Gutsy Genius Thinkers These are the men and women vibrantly engaged in one of the hottest business sectors in the world Travel Tourism and Hospitality and the ecosystem that supports them While sharing their stories and insights on entrepreneurship and the management skills they are continuously developing to inspire success in themselves their organizations and their teams The Adapters adds interpretations identifies trends and patterns brings historical context and provides Tips and Takeaways for the progression of the reader There are even Scribble Zones to capture responses reactions and that next brilliant idea as you read Travel Tourism and Hospitality are fundamental to how the 4th Age of Change will shape our future With The Adapters spend some time with the Gutsy Genius Thinkers in the space as they speak to the real issues trending right now Cultivate your curiosity and unleash the Gutsy Genius Thinker in you **The Life and Soul of the Party** Brett Evans,2001 Out of office and at sea the federal ALP has spent the past five years facing up to the causes of its electoral failure and the lessons for the future But despite the soul searching this work states that it s not clear that Labour has come up with a convincing case for its return to government University Research in Business and Economics ,1989 **Emergencies and Public Health Crisis Management- Current Perspectives on Risks and Multiagency Collaboration** Amir Khorram-Manesh,Frederick M Burkle,2020-12-11 The successful management of emergencies and public health crises depends on adequate measures being implemented at all levels of the emergency chain of action from policy makers to the general population It starts with appropriate risk assessment prevention and mitigation and continues to prehospital and hospital care recovery and evaluation All levels of action require well thought out emergency management plans and routines based on established command and control identified safety issues functional communication well documented triage and treatment policies and available logistics All these characteristics are capabilities that should be developed and trained particularly when diverse agencies are involved In addition to institutional responses a robust community based disaster response system can effectively mitigate and respond to all emergencies A well balanced response is largely dependent on local resources and regional responding agencies that all too often train and operate within silos with an absence of interagency cooperation The importance of this book issue is its commitment to all parts of emergency and public health crisis management from a multiagency perspective It aims to discuss lessons learned and emerging risks introduce new ideas

about flexible surge capacity and show the way it can practice multiagency collaboration      **The Future of Disaster Management in the U.S.** Amy LePore, 2016-12-08 This book looks at various aspects of the current legal policy and fiscal framework for disaster management and its current effects on local capacity building and recommends systemic reform The authors argue that resources should be used more efficiently and with more flexibility in order to promote local self reliance and increased resilience The book presents evidence based options for policy makers at all levels of government to envision and implement alternative approaches that meet the increasing challenges of the 21st century      **Hall of Mirrors** Barry Eichengreen, 2014-12-01 The Great Depression and the Great Recession are the two great economic crises of the past hundred years In Hall of Mirrors Barry Eichengreen draws on his unparalleled expertise for a brilliantly conceived dual track account of the two crises and their consequences He describes how the lessons of the Great Depression importantly shaped the policy response to the recent crisis for both better and worse but also how the recent crisis will re shape our understanding of the Depression
