Fish Heads And Dirty Rice:

Fish Heads and Dirty Rice Patrick Nolan, 2002-03-01 This is the story of an American teenager who was incredibly caught up in the events of the Second World War in Asia following the Japanese attack on Pearl Harbor in 1941 This book is based on a true story but it has been fictionalized because the author does not know the actual details of the man's daily experiences just the core of his nearly inconceivable story However every effort was made to accurately report the actual events of the war and the names of the real people who experienced those events The details of the USS Nevada's heroic and successful dash to escape being sunk in Pearl Harbor are real as are the names of the officers and crewmembers who battled so bravely to save their stricken ship on that infamous morning in the Territory of Hawaii The names and activities of the Japanese High Command and the brutalities they endorsed are all accurate The unheralded dramatic and world altering inspiration that General Douglas MacArthur had when he persuaded the Emperor to publicly renounce his divinity was the author believes the most important diplomatic declaration of the Twentieth Century This work can best be described as an historic novel telling the extraordinary story of a young American who was forced to join and fight for the army of his enemy even though at the time he wasn't able to speak more than a few words of the Japanese language Imagine alone thousands of miles from your home your family and your friends and suddenly you are stripped of your own identity and forced at gunpoint to fight for your enemy That is actually what happened to Kenji Kasamatsu The fact that he survived the war is miracle enough but when you consider that he lived a long productive life after the war is truly amazing Enter now a Japanese garden on the Island of Oahu and listen as an old man tells his curious granddaughter the story of fish heads dirty rice *South*

Guyana: from Slavery to the Present Ramesh Gampat,2015-04-15 It is common knowledge that slavery and indenture were characterized by long hours of physical labor restriction of movement and other basic human freedoms and severe punishment for violations of draconian labor laws Less well known is the fact that nutrition was very deficient and a range of infectious diseases maimed debilitated and killed on a large scale In trying to narrow the knowledge gap with respect to Guyana Ramesh Gampat shows that extremely poor sanitary conditions hygiene and nutrition hastened infections and created a vicious cycle The British protected its own soldiers officials and colonists by establishing a medical enclave that lasted until Emancipation in 1838 Former slaves were quarantined to neglected and decaying villages and Indians to

plantations Concern with health conditions appeared only during periods of epidemics and even then it was essentially for the protection of Europeans Colonial medicine opened the way for stereotyping labeling racialization of disease neutralization of potential leaders in the struggle for justice and crystallization of the view that Europeans were superior to Blacks and Indians Shorter stature and life expectancy are good indications that slaves and indentured immigrants fared considerably less well than Europeans Several infectious diseases sickened and fell Blacks and Indians including malaria and undefined fevers pneumonia and bronchitis diarrhea and enteritis tuberculosis pneumonia and hookworm The conquest of malaria in the early 1950s initiated the epidemiological transition from communicable to chronic diseases and today NCDs account for some three quarters of all deaths in Guyana Malaria has reemerged fueled by a gold boom that consumes huge amount of mercury The potentially adverse public health consequences of the trio have been neglected
