humans and between humans and the Earth Changes in the air we breathe the water we drink and the energy we use are evidence of Nature which has no special interest in sustaining human life looking out for itself Even the evolutionary context for humans has altered Evolutionary pressures from the digital communication revolution have been added to those from natural systems For humans to meet these challenges requires social re organisation that is neither simple nor easy Independent Thinking in an Uncertain World explores workable field tested strategies from the frontiers of creating a viable future for humans on Earth Based on research results from hundreds of social learning workshops with communities worldwide many of them part of Australian National University s Local Sustainability Project authors with diverse interests explore the gap between open minded individual thinking and closed socially defined knowledges The multiple dimensions of individual social and biophysical ways of thinking are combined in ways that allow open minded individuals to learn from one another

Mozart's Sister Rita Charbonnier, 2007-10-09 Maria Anna Walburga Ignatia Mozart affectionately called Nannerl by her family could play the piano with an otherworldly skill from the time she was a child when her tiny hands seemed too small to encompass a fifth At the tender age of five she gave her first public performance amazing the assembled gentlemen and ladies with the beautiful music she created But her moment of glory was cut short for even as her father carried her around to receive their praise her mother began laboring to bring a second child into the world After hours of her mother s pained cries and agonized shouts which rang in Nannerl s ears like a terrifying symphony the child was born They named him Wolfgang Nannerl loved him instantly As they grew Wolfgang and his sister became inseparable creating a fantasy world together and playing music the likes of which no one had ever heard They were two sides of a single person opposite in temperament he lighthearted and charismatic she shy and retiring but equal in talent Yet it was Wolfgang who carried their father s dreams of glory And as the siblings matured Nannerl s prodigious talent was brushed aside by her father Instead of playing alongside her brother in the world s great cities she was forced to stop performing and become a provincial piano teacher to support Wolfgang s career Nannerl might have accepted this life in her brother s shadow but for the appearance of a potential suitor who reawakened her passion for life for love for music and who threatened to upset the delicate balance that kept the Mozart family in harmony Mozart s Sister draws you into the lush palaces and salons of eighteenth century Europe and into the fascinating life of a woman who ultimately found a way to express her own genius
