Fata Morgana 1st Edition:

Beyond Adriaan Theodoor Peperzak, 1997 Although Emmanuel Levinas is widely respected as one of the classic thinkers of our century the debate about his place within Continental philosophy continues In *Beyond The Philosophy of Emmanuel Levinas* Adriaan Theodoor Peperzak shows Levinas's thought to be a persistent attempt to point beyond the borders of an economy where orderly interests and ways of reasoning make us feel at home beyond the world of needs beyond the self beyond politics and administration beyond logic and ontology even beyond freedom and autonomy Peperzak's examination begins with a general overview of Levinas's life and thought and shows how issues of ethics politics and religion are intertwined in Levinas's philosophy Peperzak also discusses the development of Levinas's relations with Husserl and Heidegger demonstrating thematically the evolution of both Levinas's anti Heideggerian view of technology and his critical attitude toward nature

Levinas Colin Davis, 2013-07-03 In recent years there has been a resurgence of interest in the work of Emmanuel Levinas widely recognized as one of the most important yet difficult philosophers of the 20th century In this much needed introduction Davis unpacks the concepts at the centre of Levinas's thought alterity the Other the Face infinity concepts which have previously presented readers with major problems of interpretation Davis traces the development of Levinas's thought over six decades describing the context in which he worked and the impact of his writings He argues that Levinas's work remains tied to the ontological tradition with which he wants to break and demonstrates how his later writing tries to overcome this dependency by its increasingly disruptive sometimes opaque textual practice He discusses Levinas's theological writings and his relationship to Judaism as well as the reception of his work by contemporary thinkers arguing that the influence of his work has led to a growing interest in ethical issues among poststructuralist and postmodernist thinkers in recent years Comprehensive and clearly written this book will be essential reading for students and researchers in continental philosophy French studies literary theory and theology

Levinas and the Crisis of Humanism Claire Elise Katz, 2013 Reexamining Emmanuel Levinas's essays on Jewish education Claire Elise Katz provides new insights into the importance of education and its potential to transform a democratic society for Levinas's larger philosophical project Katz examines Levinas's *Crisis of Humanism* which motivated his effort to describe a new ethical subject Taking into account his multiple influences on social science and the humanities and his various identities as a Jewish thinker philosopher and educator Katz delves deeply into Levinas's works to understand the grounding of this ethical subject

Scholars and Prophets Roland Lardinois, 2017-07-14 The book deals with the long and rich scholarship on India in France since the beginning of 19th Century with particular reference to the work of Louis Dumont It considers the works of scholars and the essayists poets or esotericists who published on India and shows that Dumont has been influenced by both groups The book draws on archives and empirical material

The Ethics of Reading According to Emmanuel Lévinas Roland A. Champagne, 1998 Reading a text is an ethical activity for Emmanuel Levinas His moral philosophy considers written texts to

be natural places to discover relations of responsibility in Western philosophical systems which are marked by extreme violence and totalizing hatred This book uses male feminism as its perspective in presenting the applications of Levinas's vision to texts whose readings have presented moral dilemmas for women readers **The Aconceptual Mind** Pauli Pylkkö, 1998-07-15 According to Heidegger naturalistic thinking is naive and unable to deal with its own essence and limitations It can only serve the veiled interests of modern Western technology in its inherent inclination to attain global dominance But these eight thematically intertwined essays face Heidegger's critique of naturalistic thinking habits The author develops a holistic and antirealist version of naturalism This holistic naturalism does not approach nature as a set of entities or things which can be used for technological purposes Instead nature is approached as human experience which originally lacks conceptual structure and which can therefore not be fully controlled by a rational subject Series A

Levinas, Judaism, and the Feminine Claire Elise Katz, 2003-11-14 Challenging previous interpretations of Levinas that gloss over his use of the feminine or show how he overlooks questions raised by feminists Claire Elise Katz explores the powerful and productive links between the feminine and religion in Levinas's work Rather than viewing the feminine as a metaphor with no significance for women or as a means to reinforce traditional stereotypes Katz goes beyond questions of sexual difference to reach a more profound understanding of the role of the feminine in Levinas's conception of ethical responsibility She combines feminist interpretations of Levinas with interpretations that focus on his Jewish writings to reveal that the feminine provides an important bridge between his philosophy and his Judaism Katz's reading of Levinas's conception of the feminine against the backdrop of discussions of women of the Hebrew bible points to important shifts in contemporary philosophy toward the creation of life and care for the other Theatre World, 1925 **Henri Michaux** Nina Parish, 2007 Henri Michaux is both a recognised poet and visual artist arguably one of the greatest double artists of the twentieth century This book presents the first detailed examination of a particular interdisciplinary aspect of his production namely the innovative experimentation with signs contained in four works *Mouvements Par la voie des rythmes Saisir* and *Par des traits* Questions arise concerning their literary and visual status as in their attempt to render interior rhythm and dynamism they occupy an interstitial space between writing and drawing between the book and the canvas between the Western alphabet and Chinese characters This study addresses these questions by analysing the conception production and reception of Michaux's signs and the literary and artistic contexts in which they were produced *The Palgrave Handbook of German Idealism and Existentialism* Jon Stewart, 2020-08-25 This Handbook explores the complex relations between two great schools of continental philosophy German idealism and existentialism While the existentialists are commonly thought to have rejected idealism as overly abstract and neglectful of the concrete experience of the individual the chapters in this collection reveal that the German idealists in fact anticipated many key existentialist ideas A radically new vision of the history of continental philosophy is thereby established one that understands existentialism as a continuous development

from German idealism Key Features Operates at both the macro level and micro level treating both the two schools of thought and the individual thinkers associated with them Explores the relations from shifting perspectives by examining how the German idealists anticipated existentialist themes and how the existentialists concretely drew on the work of the idealists Meticulously uncovers and documents many little known points of contact between the German idealists and the existentialists Includes often neglected figures such as Jacobi and Trendelenburg This Handbook is an essential resource for researchers and advanced students interested in thinking critically about the broad development of continental philosophy Moreover the individual chapters on specific philosophers contain a wealth of information that will compel experts in the field to reconsider their views on these figures Phenomenology and Intercultural Understanding Kwok-Ying

Lau,2016-09-29 This book approaches the topic of intercultural understanding in philosophy from a phenomenological perspective It provides a bridge between Western and Eastern philosophy through in depth discussion of concepts and doctrines of phenomenology and ancient and contemporary Chinese philosophy Phenomenological readings of Daoist and Buddhist philosophies are provided the reader will find a study of theoretical and methodological issues and innovative readings of traditional Chinese and Indian philosophies from the phenomenological perspective The author uses a descriptive rigor to avoid cultural prejudices and provides a non Eurocentric conception and practice of philosophy Through this East West comparative study a compelling criticism of a Eurocentric conception of philosophy emerges New concepts and methods in intercultural philosophy are proposed through these chapters Researchers teachers post graduates and students of philosophy will all find this work intriguing and those with an interest in non Western philosophy or phenomenology will find it particularly engaging A Companion to Werner Herzog Brad Prager,2012-05-21 A Companion to Werner Herzog
