## **Fateful Split:**

The Fateful Split Chris Ryder, 2004 This title presents the graphic and often disturbing story of a uniquely controversial institution from its formation as a barrier between sectarian factions to its contentious and tragic role in the Troubles since the 1970s domestic discord including Gladstone's failed Home Rule Acts of the late 19th century the partition of Ireland the horror of the Troubles and the establishment of the brittle Good Friday Agreement in which amid accusations of sectarian bias the RUC was generally recognised as an impediment to reconciliation and began its transformation into the Police Service of Northern Ireland in 2001

The Emergency of Being Richard Polt, 2013-07-23 The heart of history for Heidegger is not a sequence of occurrences but the eruption of significance at critical junctures that bring us into our own by making all being including our being into an urgent issue In emergency being emerges from The Emergency of Being The esoteric Contributions to Philosophy often considered Martin Heidegger's second main work after Being and Time is crucial to any interpretation of his thought Here Heidegger proposes that being takes place as appropriation Richard Polt's independent minded account of the Contributions interprets appropriation as an event of emergency that demands to be thought in a future subjunctive mode Polt explores the roots of appropriation in Heidegger's earlier philosophy Heidegger's search for a way of thinking suited to appropriation and the implications of appropriation for time space human existence and beings as a whole In his concluding chapter Polt reflects critically on the difficulties of the radically antirationalist and antimodern thought of the Contributions Polt's original reading neither reduces this challenging text to familiar concepts nor refutes it but engages it in a confrontation an encounter that

respects a way of thinking by struggling with it He describes this most private work of Heidegger s philosophy as a dissonant symphony that imperfectly weaves together its moments into a vast fugue under the leitmotif of appropriation This fugue is seeded with possibilities that are waiting for us its listeners to develop them Some are dead ends viruses that can lead only to a monolithic monotonous misunderstanding of history Others are embryonic insights that promise to deepen our thought and perhaps our lives if we find the right way to make them our own
