**What Do Children Need from Their Fathers?** Cynthia Milligan, Alan Dowie, 1998

**I Am My Father's Child** Thandi Njuti, 2016-03-31 The story is about a young girl by the name of Nobomvu and her father Mr Mxgekwa Mr and Mrs Mxgekwa were an elderly Xhosa couple late fifties that often worked out of town as farmers but resided in the rural village called Cofimvaba at the Eastern Cape in South Africa They worked as farmers for a long time and they both had no educational background but they were well mannered and lived in harmony with other community members In that old age Mrs Mxgekwa bore a baby girl which was a surprise to many as no one including her husband was aware that she was pregnant The child was genetically different from her family hence she was named Nobomvu meaning the red one She was literally a white child in the black family The non resemblance of Nobomvu and her genetic indifference brought about a lot of unanswerable questions that resulted to confusion and tension with relatives and within the community The story of Nobomvu Mxgekwa is Christian fiction that is inspired by true life stories The contents of the story consist of parables that portray the application of the word of God The parable is known as an earthly story with the heavenly meaning

**I Am My Father's Child** Kenneth Samples, 2020-03-23 Growing up can be an exciting time and troublesome I once read that children get their identity from their parents If that is the case there are many households where one may be missing which leaves the parent raising the child a little time between their job and other requirements to provide for the household Some children are getting identity from the wrong source There is a possibility of dark influences that all children might face these days through peers whose families are not walking with the Lord I Am My Father s Child is just a reminder to those of all ages that none of us are fatherless We only have to seek him and read his words and we will have the right identity

**My Father's Child** Marguerite Hegley, Social Adjustment and Personality Development in Children Merrill Flagg Roff, Saul B. Sells, Mary M. Golden, 1972-01-01

Out of Touch Geoffrey L. Greif, 1997-04-03 The breakdown of the family has moved in

recent years to the forefront of national consciousness All manner of social ills from poor academic performance to teenage drug use and gang crime have been attributed to high divorce rates and the collapse of the traditional two parent family Targets of particularly harsh criticism are parents who lose all contact with their children after a divorce So called deadbeat dads are denounced in political speeches and ridiculed on billboard advertisements mothers who lose touch with their children are stigmatized as emotionally unstable or lacking maternal instincts Everyone seems to understand the importance of children being raised by two parent families and the damage that can occur when one parent loses contact completely What is significantly less clear is why this loss of contact occurs and what can be done to prevent it In Out of Touch Geoffrey Greif explores these issues with clarity compassion insight and an evenhandedness rarely encountered in an arena far more susceptible to acrimonious debate than sympathetic understanding Setting out to find the reality beneath the catchall categorization of out of touch parents as deadbeats substance abusers child mistreaters or criminals Greif focuses on those parents who tried and for a vast array of reasons failed to maintain contact with their children It is their voices in a discussion dominated up till now by the custodial parent that we most need to hear Greif argues if we are to uncover ways to avoid such failures in the future Rather than offering dry statistics and abstract generalizations Greif lets us hear these voices directly in 26 in depth interviews with estranged parents and with children caught in the crossfire of painful divorces Extending over a period of two to ten years these interviews and Greif s perceptive analyses of them reveal the whole spectrum of logistical emotional and legal difficulties that keep parents and children apart From the ordinary problems of visitation rights and child support to the more complex and troubling issues bitter court battles accusations of sexual abuse domestic violence children rejecting a parent child kidnapping and many others Out of Touch vividly and often heartbreakingly presents all the ways that fathers and mothers even with the best intentions can lose contact with their children But the book does more than tell the stories of failed relationships Its concluding chapter offers a series of specific and extremely helpful suggestions for families parents children grandparents who find themselves in danger of complete estrangement Greif outlines how families can employ support systems communication skills mediation and many other strategies to overcome the most difficult obstacles that occur after a divorce It is here that the lessons gleaned from the broken relationships of the past become invaluable advice for the future Informed by fresh perspectives moving personal accounts and a clear sighted approach to a tangled issue Out of Touch is a timely and deeply important book about both the forces that drive parents and children apart and the understanding that can keep them together

**Parenting Plan Evaluations** Kathryn Kuehnle,Leslie Drozd,2012 When conducting parenting plan evaluations mental health professionals need to be aware of a myriad of different factors More so than in any other form of forensic evaluation they must have an understanding of the most current findings in developmental research behavioral psychology attachment theory and legal issues to substantiate their opinions With a number of publications on child custody available there is an essential need for a text focused on translating the research associated with the most important topics within the family court This book addresses this gap in the literature by presenting an organized and in depth analysis of the current research and offering specific recommendations for applying these findings to the evaluation process Written by experts in the child custody arena chapters cover issues associated with the most important and complex issues that arise in family court such as attachment and overnight timesharing with very young children dynamics between divorced parents and children s potential for resiliency co parenting children with chronic medical conditions and developmental disorders domestic violence during separation and divorce gay and lesbian co parents and relocation among others The scientific information provided in these chapters assists forensic mental health professionals to proffer empirically based opinions conclusions and recommendations Parenting Plan Evaluations is a must read for legal practitioners family law judges and attorneys and other professionals seeking to understand more about the science behind child custody evaluations *Handbook of Family Theories* Mark A. Fine, Frank D. Fincham, 2013-03-05

Organized by content areas rather than by theory this comprehensive accessible handbook helps readers gain greater insight into how key theories have impacted today s family research Most competing books organized by theory do not provide a strong sense of the links between theory and research Using the 2000 and 2010 decade in review issues of the Journal of Marriage and Family as a resource the book addresses the most important topics impacting family studies research today The introductory chapter written by the editors provides an overview of the role family theories have had on the field This chapter is followed by 23 others on family related content areas written by renowned scholars in the field The book is

organized around the most important domains in the field parenting and parent child relationships romantic relationships conflict and aggression structural variation and transitions demographic variations and families and extra familial institutions Each of the contributors describes how theory has been used to generate new knowledge in the field and suggests future directions for how theory may be used to extend our knowledge base The book helps readers acquire a working knowledge of the key family science theories findings and issues and understand how researchers make use of these theories in their empirical efforts To maximize accessibility each of the renowned contributors addresses a common set of issues in their chapter Introduction to the content area Review of the key topics issues and findings A description of each of the major theories used to study that particular content area Limitations of the theories Suggestions for better use of the theories and or new theoretical advances Conclusions about future theoretical developments An ideal text for graduate and or advanced undergraduate family theories courses this book s unique organization also lends itself to use in content based family studies science courses taught in family studies human development psychology sociology communication education and nursing Due to its comprehensive and current approach the book also appeals to scholars and researchers in these areas
