Dowd, 2010-09-20 Among the many important tools feminist legal theorists have given scholars is that of anti essentialism all women are not created equal and privilege varies greatly by circumstances particularly that of race and class Yet at the same time feminist legal theory tends to view men through an essentialist lens in which men are created equal The study of masculinities inspired by feminist theory to explore the construction of manhood and masculinity questions the real circumstances of men not in order to deny men s privilege but to explore in particular how privilege is constructed and what price is paid for it In this groundbreaking work feminist legal theorist Nancy E Dowd exhorts readers to apply the anti essentialist model so dominant in feminist jurisprudence to the study of masculinities She demonstrates how men s treatment by the law and society in general varies by race economic position sexuality and other factors She applies these insights to both boys and men examining how masculinities analysis exposes both privilege and subordination She examines men s experience of fatherhood and sexual abuse and boys experience in the contexts of education and juvenile justice Ultimately Dowd calls for a more inclusive feminist theory which by acknowledging the study of masculinities can broaden our understanding of privilege and subordination **Counseling Fathers , The Journals of Lewis and Clark, 1804-1806** Meriwether Lewis, William Clark, 2023-11-17 In The Journals of Lewis and Clark 1804 1806 the diverse geographical and cultural landscapes of early America are masterfully captured through a mosaic of literary styles ranging from detailed observational prose to introspective reflections The collection serves not only as an essential historical document but also as a remarkable narrative of discovery and personal encounter with the uncharted American continent Through a blend of meticulous diary entries and compelling storytelling these works illuminate the monumental expedition undertaken by the Corps of Discovery revealing the trials of passage and the inspirational vistas of a burgeoning nation The contributors Meriwether Lewis and William Clark distinguished explorers and leaders of their time provide deeply individual yet cohesive accounts that reflect both their unique perspectives and shared experiences Encompassing the ethos of the Enlightenment and romanticism the journals integrate scientific inquiry with a profound sense of wonder Their recorded observations about geography wildlife and indigenous cultures intersect with

popular literature, science and arts Chambers's journal, 1859 *Handbook of the Psychology of Fatherhood* Sonia Molloy, Pierre Azzam, Anthony Isacco, 2022-11-21 This handbook examines the psychology of fatherhood throughout the lifespan and across multiple contexts. It synthesizes the trajectory of research and theorization of fathering that has traditionally dominated fatherhood literature. The book explores fathering within the developmental stages of children from infancy to adulthood. In addition, it addresses the health and well-being of fathers from the perinatal period onward with a focus on isolation, loss, trauma, and mental and physical health. The book emphasizes positive fatherhood and masculinity, thereby offering new perspectives of fatherhood. It synthesizes cutting-edge research on the intersectionality of fathering and provides knowledge of fatherhood for diverse populations, including military, LGBTQ, and fathers on the margins. The handbook reviews clinical assessment as well as community-based prevention and intervention strategies for issues of fatherhood and examines directions for future public policy and on-the-ground work. It offers recommendations for promoting the health and well-being of fathers and their families from multiple perspectives. Key areas of coverage include Historical, multicultural, and future directions in the research of fatherhood; Fatherhood and child development from infancy to emerging adulthood; Grandfathering and adult children; Fatherhood and men's mental and physical health and well-being; Positive masculinity and fatherhood. The *Handbook of the Psychology of Fatherhood* is an invaluable resource for researchers, clinicians, and practitioners, as well as graduate students in developmental psychology, social work, public health, pediatrics, human development, family studies, child and adolescent psychiatry, school and educational psychology, and all interrelated disciplines. **Reza Abdoh** Charlie Fox, Tobi Haslett, Dominic Johnson, Jennifer Krasinski, Nick Mauss, Elizabeth Wiet, 2021-01-01 In seinem nur zwölff Jahre umfassenden Schaffen brach der iranische Theatermacher Reza Abdoh mit seinen Parametern des Theaters und brachte seine Schauspieler und das Publikum oft an ihre Grenzen. Seine halluzinatorischen Traumlandschaften waren eindringlich, seine Inszenierungen adressierten sprachgewaltig die bitteren politischen Realitäten seiner Zeit vom staatlich sanktionierten Rassismus über die Weigerung der Reagan-Regierung sich der AIDS-Krise anzunehmen bis hin zu den Kriegen der USA. Kurz vor seinem Tod verfügte er, dass seine Stücke nicht neu aufgeführt werden dürfen. Der Katalog enthält neben zahlreichen Abbildungen neue Essays über die Einflüsse und Rezeption seines Werkes, bereits publizierte und bisher unveröffentlichte Interviews mit Reza Abdoh, Gespräche mit Weggefährten sowie Skripte seiner Stücke und Presseberichte. *Appletons' Journal*, 1872 **The Indian Journals, 1859-62** Lewis Henry Morgan, Leslie A. Biller, 1993-01-21 Biller, well known for his extensive research into the impacts of involved fathering or the absence thereof, provides a comprehensive, straightforward analysis of just how important paternal involvement really is. He describes the great advantages accruing to a child when the father as well as the mother actively participates in the parenting process.

Fathers who sustain high interest and a true presence in a child's nurturing significantly influence body image self esteem moral standards intellectual achievement and social competency The benefits Biller shows extend beyond the father child relationship and include heightened spousal satisfaction and a sense of overall family well being The reciprocal influences of father mother and child development are considered within a lifespan biopsychosocial perspective This is an important and compelling treatment of a topic of immense concern not only to individual families but to society as a whole Biller by relating specific issues to fathers roles and influences offers the first integrated analysis of just how important a father's caring presence and active involvement is to his child's and spouse's psychosocial well being This balanced study of paternal factors addresses not only such issues as nurturance discipline and the cultivation of self esteem intelligence and creativity but also family problems so evident in current society There is a thorough analysis concerning complex connections among gender roles parenting and personality development The work is highly substantive realistic and encouraging in its potential for guidance and offers insightful useful conclusions on paternal behavior and influences
