,1849 **Muslim Fathers and Mistrusted Masculinity in Danish Schools** Anne Hovgaard Jørgensen,2023-03-16 This book seeks to provide a deeper understanding of Muslim migrant fathers experiences of home school cooperation in Danish schools by identifying and contradicting a phenomenon of mistrusted masculinity This term refers to a negative stereotype of Muslim migrant men that figures in political and media rhetoric where they are portrayed as controlling and patriarchal Throughout the ethnography migrant fathers confront this stereotype and express how they must navigate around this negative image in their struggle to be acknowledged as good fathers by their children s schools J rgensen uses Geertzian thick description of micro interaction between fathers and Danish teachers to explore the complex interplay of often untested assumptions misunderstandings and untoward effects

Jewish Masculinity in the Holocaust Maddy Carey,2017-10-05 This book explores for the first time the impact of the Holocaust on the gender identities of Jewish men Drawing on historical and sociological arguments it specifically looks at the experiences of men in France Holland Belgium and Poland Jewish Masculinity in the Holocaust starts by examining the gendered environment and ideas of Jewish masculinity during the interwar period and in the run up to the Holocaust The volume then goes on to explore the effect of Nazi persecution on various elements of male gender identity analysing a wide range of sources including diaries and journals written at the time underground ghetto newspapers and numerous memoirs written in the intervening years by survivors Taken together these sources show that Jewish masculinities were severely damaged in the initial phases of persecution particularly because men were unable to perform the gendered roles they expected of themselves More controversially however Maddy Carey also shows that the escalation of the persecution and later enclosure whether through ghettoisation or hiding offered men the opportunity to reassert their masculine identities Finally the book discusses the impact of the Holocaust on the practice of

fatherhood and considers its effect on the transmission of masculinity This important study breaks new ground in its coverage of gender and masculinities and is an important text for anyone studying the history of the Holocaust *Family Men* Laura King, 2020-01-09 Fathers are often neglected in histories of family life in Britain *Family Men* provides the first academic study of fathers and families in the period from the First World War to the end of the 1950s It takes a thematic approach examining different aspects of fatherhood from the duties it encompassed to the ways in which it related to men's identities The historical approach is socio cultural each chapter examines a wide range of historical source materials in order to analyse both cultural representations of fatherhood and related social norms as well as exploring the practices and experiences of individuals and families It uncovers the debates surrounding parenting and family life and tells the stories of men and their children While many historians have examined men's relationship to the home and family in histories of gender family life domestic spaces and class cultures more generally few have specifically examined fathers as crucial family members as historical actors and as emotional individuals The history of fatherhood is extremely significant to contemporary debate assumptions about fatherhood in the past are constantly used to support arguments about the state of fatherhood today and the need for change or otherwise in the future Laura King charts men's changing experiences of fatherhood suggesting that although the roles and responsibilities fulfilled by men did not shift rapidly their relationships position in the family and identities underwent significant change between the start of the First World War and the 1960s **Counseling Fathers** , **The Father** Luigi Zoja, 2001 This biography aims to tell the full and extraordinary story of one of the most influential figures of the 20th century setting the private individual in the public context **Fragmenting Fatherhood** Richard Collier, Sally Sheldon, 2008-09-05 Debates about the future of fatherhood have been central to a range of conversations about changing family forms parenting and society Law has served an important yet often neglected role in these discussions serving as an important focal point for broader political frustrations playing a central role in mediating disputes and operating as a significant symbolic state sanctioned account of the scope of paternal rights and responsibilities *Fragmenting Fatherhood* provides the first sustained engagement with the way that fatherhood has been understood constructed and regulated within English law Drawing on a range of disparate legal provisions and material from diverse disciplines it sketches the major contours of the figure of the father as drawn in law and social policy tracing shifts in legal and broader understandings of what it means to be a father and what rights and obligations should accrue to that status In thematically linked chapters cutting across substantive areas of law the book locates fatherhood as a key site of contestation within broader political debates regarding the family and gender equality Multiple visions of fatherhood evolving unevenly over time across diverse areas of law emerge from this analysis Fatherhood is revealed as an essentially fragmented status and one which is intertwined in complex ways with the legal cultural and political contexts in which discourses of parenthood are produced *Fragmenting Fatherhood* provides an important and unique resource speaking to debates about fatherhood

across a range of fields including law and legal theory sociology gender studies social policy marriage and the family women s studies and gender studies

Missional fatherhood as praxis to Christian families who grapple with father absence Fazel Ebrihiam Freeks,2021-12-01 All human beings are made in the image of God and form part of God s creation Families per se are valuable to God and they can be infused with God given solutions biblically based to the challenges they are facing One of these challenges are father absence and it is a devastated social ill in many communities Even so missional fatherhood can be a buffer against father absence un involvement of fathers and numerous family issues Missional fathers are filled with a God given mission aiming to instil a love for Christ in the hearts of their children They are not only called but obliged to lead sacrificial lives for the sake of their families Their hearts engage with their children on aspects in life that matters the most Transforming their minds by the Word of God and serving God the Father is far reaching Missional fathers are not only disciple makers in their homes but also in their respective communities This present day notion is God s calling on every father to be part of the Gospel and God s holistic mission and is in response to Jesus s Great Commission to make disciples of all people including families All who decided and turn to the way of Jesus Christ form part of the mission that God had given the Son

Modern Fathers Thomas Schirrmacher,2019-09-19 There have always been good fathers and bad fathers But never before in history has the role of fathers been as undefined as it is today hardly anyone who becomes a father is entering the race with a religious cultural or educational assignment This involves many drawbacks But instead of just deploring this fact I want committed fathers to recognize and exploit the new opportunities involved in this Especially the freedom from old role models opens up completely new possibilities for fathers to take on an hugely positive task for the development of their children and to cultivate a stable relationship with the mother which lives from the difference of the sexes

After Legal Equality Robert Leckey,2014-07-11 Groups seeking legal equality often take a victory as the end of the line Once judgment is granted or a law is passed coalitions disband and life goes on in a new state of equality Policy makers too may assume that a troublesome file is now closed This collection arises from the urgent sense that law reforms driven by equality call for fresh lines of inquiry In unintended ways reforms may harm their intended beneficiaries They may also worsen the disadvantage of other groups Committed to tackling these important issues beyond the boundaries that often confine legal scholarship this book pursues an interdisciplinary consideration of efforts to advance equality as it explores the developments challenges and consequences that arise from law reforms aiming to deliver equality in the areas of sexuality kinship and family relations With an international array of contributors After Legal Equality Family Sex Kinship will be an invaluable resource for those with interests in this area

Constructing Fatherhood Deborah Lupton Lesley Barclay,Professor Deborah Lupton,Professor Lesley Barclay,1997-08-22 It is a very impressive book Its coverage of contemporary discourses of fatherhood is comprehensive The theoretical stance is one that allows for complexity and fluidity The authors write well making even esoteric sociological and cultural theory accessible I recommend it British Journal of

Armengol,Marta Bosch Vilarrubias,Àngels Carabí,Teresa Requena,2017-02-03 As more and more work is being done in the name of the ever growing field of study of literary representations of masculinities it seems timely to not only review its development and main contributions to the larger field of masculinity studies but also to look at its latest advances and new directions These are precisely the two main aims of Masculinities and Literary Studies which seeks to explore the conjunction between these two fields while exploring some of the latest developments and new directions resulting from such intersections If much of the existing masculinity scholarship has traditionally been grounded in a specific discipline this volume also seeks to provide an innovative methodological approach to the subject of literary masculinities by proving the applicability of the latest interdisciplinary masculinity scholarship namely sociology social work psychology economics political science ecology etc to the literary analysis thus crossing the traditional boundary between the Social Sciences and the Humanities in new and profound ways Presenting the latest advances in masculinity scholarship this interdisciplinary book will appeal to gender and masculinity scholars from a wide variety of fields including sociology and social work psychology philosophy political science and cultural and literary studies *Fatherhood Scenarios* Rama Rao Gogineni,April E.
