Fatima And Its Surroundings:

Literary Madness in British, Postcolonial, and Bedouin Women's Writing Shahd Alshammari, 2016-09-23 This book considers the ways in which madness has been portrayed in writing by women writers It readdresses the madwoman trope opening up multiple sites of literary madness examining places and spaces outside of the madwoman in the attic In particular a transnational approach sets itself up against a Eurocentric approach to literary madness Women novelists from the Brontës to the Indian writer Arundhati Roy and Arab writers Fadia Faqir and Miral al Tahawy interrogate patriarchal societies and oppressive cultures Female characters who suffer from madness are strikingly similar in their revolutionary subversion of patriarchal environments

Women and the Fatimids in the World of Islam Delia Cortese, 2006-01-06 This first full length study of women and the Fatimids is a groundbreaking work investigating an unexplored area in the field of Islamic and medieval studies The authors have unearthed a wealth of references to women thus re inscribing their role in the history of one of the most fascinating Islamic dynasties the only one to be named after a woman At last some light is thrown on the erstwhile silent and shadowy figures of women under the Fatimids which gives them a presence in the history of women in medieval and pre modern dynasties Basing their research on a variety of sources from historical works to chronicles official correspondence documentary sources and archaeological findings the authors have provided a richly informative analysis of the status and influence of women in this period Their contribution is explored first within the context of Isma'ili and Fatimid genealogical history and then within the courts in their roles as mothers courtesans wives and daughters and as workers and servants Throughout the book comparison is drawn with the status and roles of women in earlier contemporary and subsequent Islamic as well as non Islamic courts

Vision of Fatima Fr. Thomas McGlynn, 2017 Here's the first hand account of the Dominican priest and sculptor who worked under the direction of Sr Lucia the last surviving witness to the 1917 Marian apparitions in Fatima as she guided him in perfecting the famed statue of Our Lady of Fatima Sr Lucia insisted Our Lady's hands be positioned just so the tunic fall exactly the way she remembered the star placed on the proper spot on the tunic and

the ball of light around her neck reaching almost to her waist She would make corrections as Fr Tom worked and at times would even take one of the tools and make changes to his model Fr Tom emerged with far more than an exact replica of how Our Lady appeared he came to understand and recounts here in these pages Sr Lucia s intimate explanations of what happened in Fatima the spiritual meanings of the apparitions whether the Consecration to Russia occurred why the secrets had to remain secrets for so long and why Mary chose to appear to three young shepherd children in rural Portugal Fr Tom reminds us that Fatima is a place of miracles and he points us toward the penitential character of Our Lady s message especially the importance of praying the Rosary Few books can provide such a penetrating close encounter with a major Catholic event as Fr McGlynn s Vision of Fatima And only this book leads us into the heart and mind of a Portuguese nun who met face to face with the Mother of God **Fatima and its surroundings** Manuel da Silva Guimarães,Editorial Escudo de Oro,1988

Pilgrimage and Healing Jill Dubisch,Michael Winkelman,2022-08-09 Bikers converge at the Vietnam Veterans Memorial in Washington D C Thousands flock to a Nevada desert to burn a towering effigy And the hopeless but hopeful ill journey to Lourdes as they have for centuries Although pilgrimage may seem an antiquated religious ritual it remains a vibrant activity in the modern world as pilgrims combine traditional motives such as seeking a cure for physical or spiritual problems with contemporary searches for identity or interpersonal connection That pilgrimage continues to exercise such a strong attraction is testimony to the power it continues to hold for those who undertake these sacred journeys This volume brings together anthropological and interdisciplinary perspectives on these persistent forms of popular religion to expand our understanding of the role of the traditional practice of pilgrimage in what many believe to be an increasingly secular world Focusing on the healing dimensions of pilgrimage the authors present case studies grounded in specific cultures and pilgrimage traditions to help readers understand the many therapeutic resources pilgrimage provides for people around the world The chapters examine a variety of pilgrimage forms both religious and non religious from Nepalese and Huichol shamanism pilgrimage to Catholic journeys to shrines and feast days to Nevada s Burning Man festival These diverse cases suggest a range of meanings embodied in the concept of healing itself from curing physical ailments and redefining the self to redressing social suffering and healing the wounds of the past Collectively and individually the chapters raise important questions about the nature of ritual in general and healing through pilgrimage in particular and seek to illuminate why so many participants find pilgrimage a compelling way to address the problem of suffering They also illustrate how pilgrimage exerts its social and political influence at the personal local and national levels as well as providing symbols and processes that link people across social and spiritual boundaries By examining the persistence of pilgrimage as a significant source of personal engagement with spirituality Pilgrimage and Healing shows that the power of pilgrimage lies in its broad transformative powers As our world increasingly adopts a secular and atheistic perspective in many domains of experience it reminds us that for many spiritual quest remains a potent force **Iran and the Surrounding World** Nikki R. Keddie,Rudi

Matthee,2011-10-01 These essays examine Iran's place in the world its relations and cultural interactions with its immediate neighbors and with empires and superpowers from the beginning of the Safavid period in 1501 to the present day The book provides important historical background on recent political and social developments in Iran and on its contemporary foreign relations The topics explored include Iranian influence abroad on political organization religion literature art and diplomacy as well as Iran's absorption of foreign influences in these areas A special focus is the prevailing political culture of Iran throughout its early modern and contemporary periods The authors combine approaches from history political science anthropology international relations and cultural studies Some essays address Iran's interactions with various Arab and Turkic ethnicities in the region stretching from India to Egypt Others examine its relations with the West during the Qajar and Pahlavi eras women's issues culture inside Iran during the Islamic Republic and the Shi'ite theocracy of Iran as compared with other Muslim states

Public Management and Complexity Theory Mary Lee Rhodes,Joanne Murphy,Jenny Muir,John A. Murray,2010-10-04 That public services exhibit unpredictability novelty and on occasion chaos is an observation with which even a casual observer would agree Existing theoretical frameworks in public management fail to address these features relying more heavily on attempts to eliminate unpredictability through increased reliance on measurable performance objectives improved financial and human resource management techniques decentralisation of authority and accountability and resolving principal agent behaviour pathologies Essentially these are all attempts to improve the steering capacity of public sector managers and policy makers By adopting a Complex Adaptive Systems CAS approach to public services this book shifts the focus from developing steering techniques to identifying patterns of behaviour of the participants with the ultimate objective of increasing policy makers and practitioners understanding of the factors that may enable more effective public service decision making and provision The authors apply a CAS framework to a series of case studies in public sector management to generate new insights into the issues processes and participants in public service domains

Peace Through Personal Growth Sukhvinder Jutla,2013-08-06 Have we become numb to the increasing frequency of terrorist acts They seem to happen in other countries and do not affect us directly There has been nothing to compare to the horrific magnitude of the 9/11 attacks yet But could something even more disastrous happen again When We feel helpless at events seemingly outside our control But what if we could individually contribute towards collective peace And what if we grow personally and prosper no matter what happens This is a fictional story of the very wise Sheikh Umeed the imam living in New York who has always been preaching for peace but discovers to his horror that his son has been involved with terrorist activities We follow his experiences from initial shock and deep dismay to really trying to understand what drives ordinarily peaceful humans to extreme violence to acknowledge injustice without condoning terrorism He shares with us the lessons he learns along the way how we can grow mentally and spiritually and live a life of peace and prosperity How we can learn from the lessons the terrorists are unknowingly teaching us the lessons we can teach to the

terrorists and the steps we and the terrorists can take to bring about lasting peace Is there an end to mindless violence Are we being buffeted by a terrible passing storm or are we in a never ending upward spiral of violence Is there daylight after the end of the worlds terrorist nightmare In answering these questions we have the opportunity to grow mentally and spiritually and leave a legacy of peace and prosperity *The Bride's Secret* Helen Brooks,2011-07-15 Should she confess to her husband Marianne had been thrilled when Hudson de Sance proposed But could she really go ahead with the wedding She was being blackmailed and the only solution seemed to be disappearing from Hudson s life Only Hudson had found her and he was still determined to make Marianne his wife But now he was driven by revenge not love Marianne longed to marry him but what would happen when Hudson discovered his bride s secret Organic Pollutants M. bodies The material atoms have a subtle counterpart to which they are connected by an etheric web When human beings inspired by dark forces generate processes to obtain energy from those atoms this has a direct effect upon the physical concrete foundation for anchoring divine power in manifested existence Such processes constitute a violation of laws that should be learned controlled and then used in an altruistic way for the benefit of the All The negative karmic consequences generated by this violation are enormous and are already making themselves felt Only the intervention of a higher power is capable of bringing such an imbalance to a halt For this reason the work of transmutation and preservation of life carried out by the planetary centers and by the service groups is immeasurable and constant If it were not for these the Earth would no longer exist as a material planet This book is about the existence of those centers and those groups Taking Up Space Siham Bouamer, Sonja Stojanovic, 2022-11-15 This is the first English language volume on representations of women at work in contemporary French cultural productions It covers a variety of genres literature cinema and television journalism bande dessinée Draws from a wide range of work experiences from salaried work in academic artistic corporate and working class worlds to unpaid reproductive domestic labour illegal activities and activism **The Official Catholic Directory**, 2007

The Postsecular Imagination Manav Ratti, 2013 Through an intimate literary conjunction of religion and politics this book theorizes the emergence of a post secular condition of the contemporary world in which organized conventional religion has failed politically Nationalism has also had its failures after decolonization in the postcolonial world marked especially by ethnic violence civil war partition and communalism In the wake of such crises however we have still retained within us the need for faith wonder and enchantment which must now find its expression
