activity in relation to value systems the child's perspective versus the adult's perspective the development of sophistication retention and loss of pre war attitudes and their post war fate British literature is placed in a wider context through a consideration of what British writing reached the USA and vice versa and also through an exploration of wartime Europe as it was shown to British children Questions of leadership authority individualism community conformity urban rural division ageism class race and gender awareness are explored In this incredibly broad ranging book covering over 100 writers Owen Dudley Edwards looks at the literary inheritance when the war broke out and asks whether children's literary diet was altered in the war temporarily or permanently Concerned with the effects of the war as a whole on what children could read during the war and what they made of it he reveals the implications of this for the world they would come to inhabit

Popular Texts in English Antonio Ballesteros González, 2001 This book comprises a collection of articles devoted to the academic study of popular texts in English Authors analyse genres which had been habitually looked down on by canonical approaches to literature and art They take into serious consideration forms like horror literature the gothic fantasy detective fiction science fiction best sellers films and television series of different kinds among some other representations of what conservative scholars had been considering as marginal The referential richness of the perspectives reflected here demonstrates that popular texts can be enjoyable for readers and audiences at the same time that they can be significant in order to reach a better understanding of our culture and ourselves at the beginning of a new millennium **Get Up!** James A. Levine, 2024-06-04 Take a stand against disease depression and obesity by ditching the sedentary lifestyle and becoming actively happy and healthy Fascinating research Booklist It feels great to sink into the sofa after a long day but spending too much time sitting down can have serious health consequences Some studies show it can be more dangerous than smoking But how can you combat the threat in an era of desk jobs spread out suburbs and digital everything In *Get Up* James A. Levine's original scientific research shows how today's chair based world in which we no longer use our bodies as they evolved to be used is having negative consequences on our health and is a leading cause of diabetes cancer and heart disease In the course of recent history humans have moved from a primarily active lifestyle to one that is largely sedentary and this change has reshaped every facet of our lives from social interaction to classroom design The good news is that fixing the problem doesn't require mountain climbing or marathon running Levine shows how to throw off the shackles of inertia and reverse these negative trends through simple changes in our daily lives *Humor in Contemporary Junior Literature* Julie Cross, 2010-12-14 In this new book Julie Cross examines the intricacies of textual humor in contemporary junior literature using the tools of literary criticism and humor theory Cross investigates the dialectical paradoxes of humor and debunks the common belief in oppositional binaries of simple versus complex humor The varied combinations of so called high and low forms of humor within junior texts for young readers who are at such a crucial stage of their reading and social development provide a valuable commentary upon the culture and values of contemporary western society making the book of

considerable interest to scholars of both children's literature and childhood studies Cross explores the ways in which the changing content forms and functions of the many varied combinations of humor in junior texts including the Lemony Snickett series reveal societal attitudes towards young children and childhood The new compounds of seemingly paradoxical high and low forms of humor in texts for developing readers from the 1960s onwards reflect and contribute to contemporary society's hesitant and uneven acceptance of the emergent paradigm of children's rights abilities participation and empowerment Cross identifies four types of potentially subversive transgressive humor which have emerged since the 1960s which coupled with the three main theories of humor relief superiority and incongruity theories enables a long overdue charting of developments in humor within junior texts Cross also argues that the gradual increase in the compounding of the simple and the complex provide opportunities for young readers to play with ambiguous complicated ideas helping them embrace the complexities and contradictions of contemporary life *Refugees from the Third Reich in Britain*, 2016-08-29
