Fear And Envy:

Fear and Envy Rita Ransohoff, Rita M. Ransohoff, 2001 This book is an exploration of man's fear and deeply repressed envy of woman's power and sexuality By examining the subordination of women in the United States and three developing areas conflicting attitudes of purity and pollution are evident The struggle to be a man and the favoritism of boys are taken into account The triumphs and surrenders of gender battles around the world are given a new insightful look A thoughtful and provocative book that questions many assumptions Fear and Envy is a deeply scholarly and insightful book Dr Ransohoff has marshaled an immense amount of data in support of her arguments and she demonstrates with compelling persuasiveness just how envious resentful and fearful men are of women's ability to create life of her body and of her sexuality The fact that this is researched and confirmed across cultures is a vastly important psychological finding We are not just dealing with anomalous cases Female procreative dynamism has an ineluctable and unavoidable psychological impact on the human male Men may differ significantly but whether we are talking about patients politicians or executives whether dealing with religions cultures and popular fantasies Dr Ransohoff demonstrates how entrenched and disturbing is this masculine problematic No longer can machismo patriarchalism and Don Juanism be seen as signs of strength of confidence They reveal our weakness envy and fear of the feminine our needs to disparage what terrifies us to rationalize and disguise our jealousy and anxiety Dr Ransohoff is no male basher nor is her tendentious ideological or hostile She has shed light on a ubiquitous and cross cultural human problem

Explaining Emotions Amélie Rorty, 1980-05-09 The challenge of explaining the emotions has engaged the attention of the best minds in philosophy and science throughout history Part of the fascination has been

that the emotions resist classification. An adequate account therefore requires receptivity to knowledge from a variety of sources. The philosopher must inform himself of the relevant empirical investigation to arrive at a definition and the scientist cannot afford to be naive about the assumptions built into his conceptual apparatus. The contributors to this volume have approached the problem of characterizing and classifying emotions from the perspectives of neurophysiology, psychology and social psychology as well as that of philosophical psychology. They discuss the difficulties that arise in classifying the emotions, assessing their appropriateness and rationality and determining their function in motivating moral action.

The Soul Display'd Theodosia Whitfield, 1727 *The Philosophy of Envy* Sara Protasi, 2021-07-15 Envy is almost universally condemned. But is its reputation warranted? Sara Protasi argues envy is multifaceted and sometimes even virtuous.

Modern psychophysiology practices of ancient civilizations: the tools of yoga and other practices are aimed for developing of brain capabilities and abilities to control it. Personal Disorder and Family Life Peter Lomas, 2017-07-12 This work looks into how, why and when people pursue things in life that they desire, those that make their existence attractive and worth living. Robert A. Stebbins calls this Positive Sociology: the study of what people do to organize their lives such that they become substantially rewarding, satisfying and fulfilling. Western society has many challenges: crime, drug addiction, urban pollution, daily stress, domestic violence and overpopulation. Significant levels of success in avoiding these problems brings a noticeable measure of tranquility, but it does not necessarily generate a positive life.

Personal Decisions in the Public Square draws upon in large part the sociology of leisure, a happy science. Among the basic concepts in the sociology of leisure are activity and human agency. The centrality of positive activity is one of its hallmarks and separates it from other social science specialties. Stebbins's positive sociology centers on conceptual roots found in the serious leisure perspective. This theoretical framework synthesizes three main forms of leisure: serious, casual and project-based, while showing their distinctive features, similarities and interrelationships. Positive sociology also considers two other domains of life: work and non-work obligations. This new approach focuses on the pursuit of that which makes life worth living. Stebbins explores goals that are important to all people, such as negotiating the right work-family or obligation-leisure balance and the tricky relationship between money and happiness. Research scientists or the general public may find the ideas presented in this volume help them better understand and negotiate situations by showing how to approach them in a positive way rather than as problems that need to be solved.

Advances in Color Science: From Color Perception to Color Metrics and its Applications in Illuminated Environments Yandan Lin, Qiang Liu, 2023-03-06 **The Krishnamurti Reader** J. Krishnamurti, 2011-10-11

Krishnamurti was renowned for the penetrating insight and immediacy of his spiritual teaching. Radical in his day for seeking truth beyond the boundaries of religion, ideology or tradition, he declared that Truth is a pathless land and you cannot approach it by any path whatsoever. He traveled and lectured throughout the world calling for a new approach to life and spirituality. In this compilation of Krishnamurti's most essential teachings, he explores what he calls the art of living. The topics addressed include such perennial human concerns as living life without conflict and confusion, how to act with skill and clarity, the significance of meditation, death and dying, true freedom and bringing the sacred into everyday life. These timeless teachings guide us to live our lives simply, intelligently and with great love, free from the bonds of sorrow and fear.

The Pocket Krishnamurti J. Krishnamurti, 2009. Here is a pocket size collection of teachings from J. Krishnamurti, one of the most influential spiritual figures of the twentieth century. With great insight and immediacy, these teachings explore what Krishnamurti calls the art of living. He addresses such topics as the way of life without conflict, skill and clarity in action, living and dying, and meditation and the sacred in daily life. This previously unpublished material comes together to create a little gem to be taken to heart in living our lives simply and intelligently.

Racial Justice, Policies and Courts' Legal Reasoning in Europe María Elósegui, Cristina Hermida, 2017-04-08. This volume looks at how courts and the police handle racial discrimination in Europe. The chapters show that beyond legal technique, neither the legislators nor the judges escape from their own emotions when responding to racial discrimination. But as the authors point out, emotions are not always negative. They can also help in a positive way in judicial interpretation. The study profiles five countries: Germany, UK, Estonia, Portugal and Spain. Each of these belongs both to the European Union and to the Council of Europe. Coverage examines the responsibility of the public powers, more specifically of the legislative and judicial power, both of the police and of the judiciary in persecuting racist behavior. In addition, the authors also consider the increase in racism in groups of citizens. The authors argue that racial justice is a proactive reinforcement of policies, practices, attitudes and actions that lead to equal access to opportunities for all. After reading this book, readers will gain a better understanding of the reasoning of legislators, police and judges when dealing with racial discrimination in Europe today.

Conversations St. Nikolai of Serbia (Velimirovic), *Wealth without work, Pleasure without conscience, Science without humanity, Knowledge without character, Politics without principle, Commerce without morality, Worship without sacrifice*. <https://vidjambov.blogspot.com/2023/01/book-inventory-vladimir-djambov-talmach.html> by St. Nikolai of Serbia, Velimirovic. The victory of Christ is the only victory by which all human beings can rejoice, from the primordial to the last. Every other victory on earth has divided people. When one king of the earth triumphs over another king, one of them rejoices and the other mourns. When a person defeats his neighbor, then under one roof a song and under the other crying. But there is no triumphant joy on earth that is not poisoned by gloating. The ordinary earthly winner rejoices as much as his laughter, so much and the tears of the defeated enemy.
