Fear Less Real Truth About Risk Safety And Security In A Time Of Terrorism:

Fear Less Gavin De Becker, 2002 Gavin de Becker's landmark book *THE GIFT OF FEAR* showed millions of readers how to better protect themselves from violence and unwarranted fear. Now in *FEAR LESS* de Becker answers the questions many Americans have been asking since September 11th: Can air travel be safe? What is the risk of biological or chemical attack? Can the government detect and prevent future acts? How can we best talk to our children about what has happened and what might happen? What can we do to reduce fear and worry? What specific steps can we take to reduce terrorism? What are terrorists likely to do next? Most simply, is everything going to be all right? De Becker says: Just as your imagination has placed you in frightening situations, it is now time to place yourself in empowering situations; time to see that you have a role to play and contrary to so many TV news stories, it isn't just victim in waiting. *FEAR LESS* offers specific recommendations that can enhance our national security and our individual safety and help put fear into perspective. Nobody in the world understands risk and safety better than Gavin de Becker. At a time of uncertainty, terrorism, and a whole new set of rules, it is hard to imagine a more important, more reassuring, and more necessary book than *FEAR LESS*. *The World's Fearlessness Teachings* R. Michael Fisher, 2010 *The World's Fearlessness Teachings* addresses the human fear problem in a truly unique and insightful way, summarizing the teaching on fearlessness from around the world and throughout history. The author then utilizes critical integral theory à la Wilber as an approach to categorize the developmental and evolutionary spectrum of fear management systems known thus far. The author has spent twenty years researching the timely topic of fear and how to best manage and transform it. From this experience, he offers an educational healing vision to address the challenges of a dangerous 21st century. Fear's empire has taken rule. It is time to resist it using the best intelligence from both sacred and secular traditions, as well as the transformational theories humanity has to offer. R. Michael Fisher maps out ten fear management systems that will benefit future positive leaders everywhere. Book jacket **Fear, Law and Criminology** Desh Subba, R. Michael Fisher, B. Maria Kumar, 2018-08-20 With the growing awareness of many critics of risk society, the culture of fear, and the dangerous rising levels of unhealthy fear around individual, group, and public insecurities, three keen observers of the human condition have joined experiences, theories, and ideas to create a fresh vision for how best to look at the fear problem and how law and criminology may benefit from a new lens or perspective. The authors, with their backgrounds in the study of the philosophy of fearism à la Subba, bring a new lens to law and criminology, to social policies, politics, and policing, and how best to improve enforcement of safety, security, and moral order. The fearist perspective of a philosophy of fearism creates an exciting, challenging, and sometimes radical position whereby the authors argue that fear itself requires a concerted focus for analysis and solution—that is, if law and criminology are to fully meet the highest standards of serving justice for all in a globalizing, complicated world. Going beyond the simple fear of crime or fear of policing issues commonly dealt within discourses about law, the philosophy of fearism offers other concepts with a rich vocabulary introduced in this

book one of which is the introduction of a new subdiscipline called fearcriminalanalysis Readers will find additional to the main text as collective writing of the three coauthors several fresh dialogues of the three authors in conversation which bring their individual personalities philosophies and approaches into a weaving of differences and similarities Overall they each agree that fear has been underestimated and often misinterpreted in law and criminology and this has resulted at times in exacerbating insecurity crime and injustice in the world
