time and space to be ill a person can find true health again a real life phenomenon rarely discussed by doctors and patients In *Seized Searching for Health* In the United States Holly tells the story of her journey with illness That well told personal tale provides a lens through which a reader can explore the common experience of searching for health in the United States Who would have imagined that it would be a dance artist who does so well exploring the many dimensions of illness and the failures of the United States healthcare system but that s precisely what happens here in *Seized* About the Author Holly Eckert grew up in a small town in the mountains of Idaho where she learned to dance from a former ballerina with the New York Ballet who also lived there After high school she took her scholarships and went to The Evergreen State College There she combined dance and social sciences to create her own integrated studies program Her education prepared her to go to Seattle and pursue her artistic mission of exploring substantive topics inside the art of dance Winning awards and praise for her artwork Holly pursued her passion with passion and made choreography about things like the experience of fear and the injustices of the US prison system She was healthy and strong into her mid thirties when one day she suddenly began seizing uncontrollably Epilepsy quickly overwhelmed her life It sent Holly on a diverse personal journey On her travels she discovered many new things about herself and as she did she learned more and more about the potentials for healing that exist inside the human body She also learned a great deal about the tragic failures of the United States medical system that often inhibits these possibilities from being realized Knowing that she liked to write as well as dance Holly decided to tell this story through words not movements Her readers continually give her praise for her efforts

Living On Christopher T. Dole, 2025-04-08 Living On centers around the unprecedented mobilization of mental health professionals in the wake of a massive earthquake that struck western Turkey in 1999 a disaster that left more than 20 000 people dead and hundreds of thousands of residents displaced Working amid unimaginable destruction and suffering volunteer psychiatrists and psychologists would quickly improvise a makeshift response offering thousands of survivors access to psychiatric care for the first time Never before had there been such a collective expression of concern for people's psychological well being Christopher Dole explores how this psychiatric response fashioned individual and collective lives far into the disaster's future Based on research spanning two decades from the earthquake to its twentieth anniversary he considers how this convergence of geological activity and psychiatric expertise introduced novel psychiatric and psychological discourses into everyday lives of survivors as it also animated new

Parliament,1881 *The Balancing Act* Hally v.P. Brandle,2009-02-16 Each of us has so many aspects to who we are as a person it is easy to become overwhelmed in trying to move forward It becomes too hard and some of us even give up As we take one step into tomorrow we are often forced to face challenges we are not always prepared for that can leave us afraid of change afraid of the unknown and consequently afraid of ourselves It is often said that most of us do not fear our failures we fear our success and so do anything possible to avoid the one thing that we so desperately yearn We all want to be happy we all want to be fulfilled and yet we find ourselves putting conditions on the very things that are readily available to us We convince ourselves believing that the status quo is as good as it gets and we feel selfish to want something more The Balancing Act is a book of articles compiled to help every person for almost every situation Between all the responsibilities we face with all the roles we take on it can be a Balancing Act to find something that works for us whether it is a shortage of time or limited resources or even the ability to believe that at the end of the day we deserve to be happy There are no quick fixes to anything The only quick fix is to make the decision that you deserve to be happy and you deserve the best life has to offer simply because you are you The Balancing Act is a stepping stone to assist you to move towards whatever your heart desires and whatever it is that gets you up in the morning and know it is going to be a good day
