Fearful Warriors A Psychological Profile Of U S Soviet Relations:

Fearful Warriors Ralph K. White,1984 Argues that fear rather than ideology is driving the U S and Russia to perpetuate the arms race looks at current sources of political tension and suggests ways to prevent a nuclear war **Intercultural**

Communication and Diplomacy Hannah Slavik,2004 **Herbert C. Kelman: A Pioneer in the Social Psychology of Conflict Analysis and Resolution** Herbert C. Kelman,Ronald J. Fisher,2017-01-18 This edited volume presents selected papers capturing Herbert Kelman s unique and seminal contributions to the social psychology of conflict analysis and resolution with a special emphasis on the utility of concepts for understanding and constructively addressing violent and intractable conflicts Central concepts covered include perceptual processes basic human needs group and normative processes social identity and intergroup trust which form the basis for developing interactive methods of conflict resolution

Sad and Luminous Days James G. Blight,Philip Brenner,2007-02-08 In October 1962 school children huddled under their desks and diplomats feverishly negotiated as the world sat on the brink of nuclear war The Cuban Missile Crisis was the most dangerous moment in modern history and resulted in a changed worldview for the United States the Soviet Union and Cuba In tracing the developments of the missile crisis and beyond *Sad and Luminous Days* presents and interprets a heretofore unavailable and largely unknown secret speech that Castro delivered to the Cuban leadership in 1968 In it Castro reflects on the crisis and reveals the distrust and bitterness that characterized Cuban Soviet relations in 1968 Blight and Brenner frame the annotated speech with an examination of the missile crisis itself and an analysis of Cuban Soviet relations between 1962 1968 ending with an epilogue that highlights the lessons the missile crisis offers us in the current search for security and a stable world order *Sad and Luminous Days* sheds new light on Cuban Soviet relations and should be required reading not only for Cold War scholars and historians but also for anyone intrigued by the drama of the thirteen momentous days in October 1962 **The Military and Negotiation** Deborah Goodwin,2004-11-23 A new investigation of the role of the modern

soldier diplomat and the nature of military negotiation in comparison with negotiation in other key contexts This new book presents a detailed analysis of the role of the military in current operations as negotiators and liaison workers in the field It shows how very few in the academic world are writing on this specific role of the military and the nature of negotiation in this situation and such a volatile context This publication is a first in this context and has a keen audience in light of the current world order This study breaks new ground in analyzing the nature of military negotiation in relation to more generic forms of negotiation and assessing the role of the modern soldier diplomat in recent deployments around the world The author is an academic working within the military environment very few people have the same capacity and accessibility to firsthand evidence and observation Whilst peacekeeping has grown in the last decade or so no one has successfully investigated the role of the military and their approach to non violent conflict resolution on the ground as few have access to such work to make a viable detailed assessment of the nature of negotiation in a violent context but Dr Goodwin is able to do

so Alternative Security Burns H Weston, 2019-06-03 Alternative Security offers the thinking person a place to begin to kick the nuclear habit Even as it accepts the premise that war is endemic to the human condition it provides reassurance that an other than nuclear deterrence policy can work to effectively safeguard national and transnational interests These eight original essays accompany **New Books** National Defense University. Library, 1984 Substance Abuse as Symptom Louis S. Berger, 2013-05-13 What can psychoanalysis contribute to an understanding of the etiology treatment and prevention of substance abuse Here Louis Berger contests both the orthodox view of substance abuse as a disease explicable within the medical model and the fashionable dissenting view that substance abuse is a habit controllable through the willpower fostered by superficial treatment approaches According to Berger substance abuse is first and foremost a symptom He argues that it is only by grasping this fact that we can understand why standard approaches to treatment and prevention have failed Berger invokes a wide spectrum of recent analytic insights about infant and child development the psychology of narcissism and primitive character disorders in making the case that substance abuse masks serious preoedipal or midrange psychopathology Such psychopathology operating at both cultural and person levels explains why certain individuals become dependent on illicit drugs it is equally revelatory of why the substance abuse establishment and society at large continues to misconstrue the nature of the problem and to proffer ill conceived and ineffective remedies After thoroughly examining the motives conscious and unconscious that maintain mainstream myths about substance abuse Berger points the way to alternative approaches to prevention and treatment Can Governments Learn? Lloyd S. Etheredge, 2013-10-22 Can Governments Learn American Foreign Policy and Central American Revolutions examines U S foreign policy toward revolutions which use Marxist rhetoric receive material aid from the Soviet Union and are directed against a repressive government that has been the beneficiary of substantial material and political assistance from the United States The case material is drawn from the history of American policy in Latin America the 1954 overthrow of a leftist government in Guatemala the evolution of Cuban policy from 1958 to 1962 and the repetition of similar policies in the 1980s This book is comprised of seven chapters and begins by reviewing the history of America's failed Bay of Pigs invasion in 1961 Operation MONGOOSE and the Cuban nuclear confrontation crisis of 1962 The successful use of the Bay of Pigs model in 1954 against a government in Guatemala is examined along with the U S government's contract with the Mafia to assassinate Premier Fidel Castro at the time of the Bay of Pigs invasion The following chapters look at three vectors reflecting the blockage of government learning the adoption of similar policies across historical encounters the repetition of collectively self blocking behavior within the national security decision process and the repetition of a common syndrome of errors in judgment and perception The final chapter analyzes American foreign policy toward Central America in the 1980s and offers suggestions to improve the foreign policy learning rate This monograph will be of interest to diplomats politicians political scientists and others concerned with international relations **Handbook on Peace Education** Gavriel Salomon, Ed Cairns, 2011-02-25

This handbook encompasses a range of disciplines that underlie the field of peace education and provides the rationales for the ways it is actually carried out. The discipline is a composite of contributions from a variety of disciplines ranging from social psychology to philosophy and from communication to political science. That is, peace education is an applied subject which is practiced in differing ways but must always be firmly based on a range of established empirical disciplines. The volume is structured around contributions from expert scholars in various fields that underpin peace education plus contributions from experts in applying peace education in a range of settings, all complemented by chapters which deal with issues related to research and evaluation of peace education.

The Fog of War James G. Blight, Janet M. Lang, 2005-03-31

Robert S. McNamara is one of modern America's most controversial figures. His opinions, policies, and actions have led to a firestorm of debate, ignited most recently by Errol Morris's Academy Award-winning film *The Fog of War*. In the companion book, editors James G. Blight and Janet M. Lang use lessons from McNamara's life to examine issues of war and peace in the 20th century. McNamara's career spans some of America's defining events from the end of World War I through the course of World War II and the unfolding of the Cold War in Cuba, Vietnam, and around the world. *The Fog of War* brings together film transcripts, documents, dialogues, and essays to explore what the horrors and triumphs of the 20th century can teach us about the future.

Crimes of Obedience Herbert C. Kelman, V. Lee Hamilton, 1989-01-01

Sergeant William Calley's defense of his behavior in the My Lai massacre and the widespread public support for his argument that he was merely obeying orders from a superior and was not personally culpable led Herbert C. Kelman and V. Lee Hamilton to investigate the attitudes toward responsibility and authority that underlie crimes of obedience not only in military circumstances like My Lai but as manifested in Watergate, the Iran-Contra scandal, and the Kurt Waldheim affair. Their book is an ardent plea for the right and obligation of citizens to resist illegal and immoral orders from above.

It provides examples illustrating the uses and abuses of data to promote partisan views and agendas, outlines

a conceptual framework that can be used to understand problem solving and decisionmaking by individuals and family groups presents a model that explores family decisionmaking focusing on the conditions under which decisions are made presents findings from a study of early adolescents' perceptions of their role in family decisionmaking The book closes with an upbeat discussion of possible solutions to current pathologies affecting human societies and cultures Professionals who work with families will find this book an enlightening and encouraging guide for helping families cope with the myriad issues and choices they face in planning for their futures

Values, Self and Society Mahlon Brewster Smith, 2017-09-08 In a tough opening statement M Brewster Smith outlines his own life course and contrasts it with the agenda of social psychology in the present professional moment Today's journals textbooks and conferences represent a vigorous but narrow scientific specialty in psychology the practitioners of which are more closely focused on agendas that are primarily and often only intelligible within the subdiscipline than was the case when I formed my identity as a psychologist In contrast Smith sees himself and has long been seen by others as a social psychologist in the tradition of Gordon Allport Gardner and Lois Murphy Kurt Lewin and Muzafer Sherif Smith's unique ability has been to contribute to the emergence of personality as a differentiated academic field and at the same time maintain strong interdisciplinary ties to a variety of fields ranging from sociology to philosophy In recent years such concerns have made the author a central figure in the development of Humanistic Psychology as a part of the American Psychological Association Because of these wide ranging concerns the major statements of Brewster Smith have appeared in diverse places Here brought into a unified and uniform frame of reference one has his work on values and selfhood humanistic psychology and the social sciences and humanism and social issues brought together for the first time The picture is of a major thinker who is at home in the details of psychology and in the broad areas of public interest and social policy Brewster Smith discusses major issues in terms of the political processes involved in the public interest These range from the issue of advocacy within social research to conceptualizing anew familiar issues within psychology For the generalist interested in the broader meanings of social psychology to the specialist aiming to recapture the big issues with which the field was once identified this is a must volume Origins of National Interests

Glenn Chafetz, Benjamin Frankel, Michael Spirtaz, 2012-10-12 The concept of identity in international relations offers too many vague and imprecise definitions of the concepts that stand at its very core This text offers clear definitions of the concept of identity and the concepts surrounding the term Intergroup Conflicts and Their Resolution Daniel Bar-Tal, 2011-01-26 This book sheds an illuminating light into the psyche of people involved in macro level destructive intergroup conflicts It also describes the changes in the socio psychological repertoire that are necessary to ignite the peace process Finally it elaborates on the nature and the processes of peace building including conflict resolution and reconciliation

Where the Evidence Leads Robert C. Johansen, 2021-10-19 Where the Evidence Leads develops a new theory of empirical realism to enable the United States to respond more effectively to rising security threats than do present

policies It shows that more US security benefits are likely to result from maximizing the causes or correlates of peace than from maximizing US military power the usual recommendation of US policymakers and political realists Ironically a global grand strategy for human security with US national security folded into it is likely to produce more security for the United States than a national security policy pursued as an end in itself Global human security policies can achieve sustainable peace in contexts where a national grand strategy for US security often fails *Psychology of Non-violence and Aggression* V.K. Kool,2007-11-27 Kool draws on recent research to illustrate that whilst the control of violence is a reaction to aggression nonviolence is by contrast an active behaviour The book explores a wide survey of theories and examples spanning ideas in cognition motivation and behaviour that will provide students with an engaging entry point to the subject **Military Ethics and Peace Psychology** Jean Maria Arrigo,Richard V. Wagner,2014-07-16 First published in 2005 This is a special issue of the Journal of Peace Psychology which presents a dialogue on military ethics Including articles on the five obstacles facing military ethics decision making and collateral the question of whether wars can be justified unprofessional soldiers and lessons learned from the Battle of Algiers **As Moscow Sees Us** Richard M. Mills,1990 Examines the prism through which Soviet analysts interpret American domestic and foreign politics and the factors that shape continuity and change in the Soviet framework The author analyzes this perspective by asking from the Soviet viewpoint such questions as who rules America
