Food Fears Alison Blay-Palmer,2016-04-15 The industrial food system of the West is increasingly perceived as problematic The physical social and intellectual distance between consumers and their food stems from a food system that privileges quantity and efficiency over quality with an underlying assumption that food is a commodity rather than a source of nourishment and pleasure In the wake of various food and health scares there is a growing demand from consumers to

change the food they eat which in turn acts as a catalyst for the industry to adapt and for alternative systems to evolve Drawing on a wealth of empirical research into mainstream and alternative North American food systems this book discusses how sustainable grass roots local food systems offer a template for meaningful individual activism as a way to bring about change from the bottom up while at the same time creating pressure for policy changes at all levels of government This movement signals a shift away from market economy principles and reflects a desire to embody social and ecological values as the foundation for future growth

The Homelessness of Being Prashan Ranasinghe,2025-03-14 The Homelessness of Being invites readers to consider what it means to be human This dialogue between sociology and the early and middle phases of Heidegger s writings argues that to be human is to be homeless This homelessness is not one of materiality of being houseless but one that is ontological the homelessness that constitutes the essence of humanity where one is disconnected from the essence of one s self or being Prashan Ranasinghe theorizes this homelessness as an indeterminate nothingness where the notion of being is unsettled because it is an amalgam of something and nothing More broadly the book adds to existing debates about whether especially after the global pandemic the social sciences have failed to explore everyday affects such as anxiety and boredom as revelatory of the essential homelessness of being human It will interest philosophers sociologists and scholars engaging with Heidegger s ideas

Beyond Happiness Ezra Bayda,2011-09-13 A Zen teacher explains that true happiness can only be found by dropping our ideas about happiness and learning to live fully and fearlessly in the moment Many books have been published in recent years on happiness Ezra Bayda a remarkably down to earth Zen teacher believes that the happiness boom has been largely a bust for readers Why Because it s precisely the pursuit of happiness that keeps us trapped in cycles of dissatisfaction and suffering In Beyond Happiness Bayda draws on Zen teachings to question our conventional notions about what happiness is and where we can find it Most of us seek happiness in things that are external to us We imagine that getting more money a better relationship or going on a nice vacation will finally make us happy But Bayda shows us that the deepest and most lasting form of happiness does not rely on external circumstance at all Bayda offers Zen insights and practices that point readers toward the true sources of lasting happiness mindfulness compassion gratitude and generosity

Archangels Speak Margaret Doner,2008-03 Are angels real or imaginary Can they really save your life or intervene in your destiny If they are real can we talk to them like we would a good friend Do they hear our thoughts and know our every deed Do angels have opinions or judge us Archangels Speak answers these and many other questions The best way to use angels in your life is to think of them as a means to bring you into alignment with your Higher Truth and Higher Self When we get stuck in defensive points of view operating primarily from the defended ego we often get ourselves into ruts and patterns that make us miserable With the angel s words this book helps to bump us out of that ego mind and into something grander It asks us to consider Love before hate and challenges us to think in new ways

Running Scared Edward T. Welch,2007-11-01 Everyone faces fear in this life Psychologist Edward

T Welch explores the roots of fear in the human soul and encourages readers to discover for themselves that the Bible is full of beautiful words of comfort for fearful people **Fear Vs. Faith** Wade Rich,2012-01-01 Fear vs Faith is a journey into the two forces that govern our universe one positive the other negative The controlling factor for these powers lies within you and I fear and faith the force of destruction vs the power of creation Including a powerful look into two of the most influential men of all time **Spiritual Breakthroughs , Accounts and Papers of the House of Commons** Great Britain.

Studdert Kennedy,2008-05-01 There are no words foul and filthy enough to describe war So declared Geoffrey Woodbine Willie Studdert Kennedy 1883 1929 a decorated frontline chaplain whose battlefield experiences in World War I transformed him into his generation s most eloquent defender of Christian pacificism Studdert Kennedy was also a tireless champion of the social gospel who wrote a dozen books scores of articles hundreds of poems and preached countless sermons in both the UK and the US promoting economic justice Studdert Kennedy s writing and preaching influenced an entire generation William Temple Archbishop of Canterbury described him as a true prophet Even though he s fallen into obscurity with the passage of years Studdert Kennedy s message still inspires the likes of Desmond Tutu and J rgen Moltmann This collection of Studdert Kennedy s work the first in sixty years seeks to introduce this most relevant of thinkers to our troubled times The book pulls together Studdert Kennedy s most important writings on war and peace poverty the problem of evil the church s role in the world sin and atonement the suffering God love versus force as world powers and the beloved community Editor Kerry Walters introduces the texts with a biographical and thematic essay

Victim Vulnerability Eric Anton Kreuter,2006 An examination of the psychological literature on victimisation shows disproportionately that that we know more about the predator than we do the victim Moreover almost all the literature on the victim is presented from either a reductionistic or cognitive behavioural point of view This book examines the psychology of a victim of repeated criminal acts from the existential humanistic perspective The method used is the single case study The subject currently age 51 a pilot was the victim of identity theft extortion and duress These crimes some of which are treated under federal law as violent by their nature or effect resulted in a large unrecoverable financial loss suspension of the pilot s medical certification required to operate aircraft abrupt termination of his chosen career a continuing governmental record of being delusional despite overwhelming proof to the contrary lasting emotional and physical distress as well as other consequences Meanwhile the predator has harmed dozens of individuals forming a diverse cohort A life history of the subject is presented as a context for the specific chronology of events defining his victimisation which is followed by an existential interpretation Interviews and archival data including written and audio forms of documentation have been incorporated into the study Seven criteria were selected from existential humanistic psychology that have been applied in the exploration of the behaviour and personality of the victim 1 the interior life world of the person 2 self actualisation needs vs adjustment to

social norms 3 meaning through suffering 4 being in the face of non being 5 attitudes toward death and annihilation 6 dreams visions and mythic experience and 7 existential use of the void The study found characteristics of the psyche of a particular victim that may have made him vulnerable These characteristics include being overly trusting being under the influence of a hero rescuer archetype and being overly reliant on instruments due to training as a pilot Mainstream psychology has ignored this dimension which is needed to understand the total person *A Practical Discourse of God's Sovereignty: with Other Material Points Derived Thence ...
