Fat Man Fed Up Jack W. Germond, 2005-07-12 For more than forty years Jack Germond has been covering politics for Gannett newspapers the Washington Star and the Baltimore Sun and talking politics on the Today show The McLaughlin Group and Inside Washington Now in Fat Man Fed Up Germond confronts the most critical issues raised by our election process and offers a scathing but wry polemic about what's wrong with American politics Is there any connection between what happens in campaigns and what happens in government And if not where does the blame for the discontent lie Was Tocqueville right Do we get the leaders we deserve Indeed according to Germond the politicians aren't the only ones to blame or even the chief culprits He describes how he and his colleagues in the news media have been guilty of dumbing down the political process and how the voters are too apathetic to demand better coverage and better results Instead they simply turn away and too often end up enduring third rate presidents This no sacred cows manifesto faces the problems many are reluctant to address Polls and how they are used and abused by politicians and press to mislead gullible voters The critical failure of the press to accurately portray figures in the political realm from Eugene McCarthy to Barbara Bush to Al Sharpton How the complaints about liberal bias in the press miss the real point whether that bias if it exists colors the way editors and reporters work The staggering influence of television and the networks inability to provide anything but the most simplistic coverage of politics The big lie school of campaigning From Where's the beef to compassionate conservatism the politics of empty slogans has always placed noise above nuance Say anything loudly enough and long enough and voters are bound to mistake it for the truth Along the way Germond illustrates his arguments by drawing from his war chest of priceless anecdotes from decades in the business With his inimitable combination of incisive journalism and sardonic and witty straight talk Germond guides us through the fog created by candidates and the media In this timely outrageous and compulsively readable book no one is let off the hook Fat Man Fed Up is a bracing look at how we never seem to get the truth about the people we're electing

are you now is a social commentary regarding all aspects of health and how each component works in unison to create wellbeing and prosperity It encompasses the idea that you are the one that is truly responsible for your own health and wellbeing Despite where you may be on the disease continuum and regardless of age you have the ability to intervene to reverse and to regenerate to produce a sense of vitality Life experiences has taught me one major lesson Our choices conscious or otherwise has certainly dictated the circumstances in our lives It is how we deal with the circumstances that matter Although the Authors intention is honorable and for the good of all beings it is somewhat or at least she has been told as subtle as a sledge hammer to remind ourselves that there is personal accountability regarding health and your own perception of health Health begins in the library of the mind and is affected by our internal physiology and our external

environment Perhaps a rehash of old news but it is much easier to check up with yourself now and again and create better choices before you get to the stage where you are fat fifty and nearly finished Fed Up! Susan Okie,2005-03-10 Once dismissed by the medical profession as a purely cosmetic problem obesity now ranks second only to smoking as a wholly preventable cause of death Indeed it s implicated in 300 000 deaths each year and is a major contributor to heart disease diabetes high blood pressure high cholesterol and depression Even conservative estimates show that 15% of all children are now considered to be overweight worldwide there are 22 million kids under five years old that are defined as fat Supersized portions unhealthy diets and too little physical activity certainly contribute to what s making kids fat But that s not the whole story Researchers are at a loss to explain why obesity rates have risen so suddenly and so steeply in the closing decades of the 20th century But head out to the beaches playgrounds and amusement parks and it s obvious that overweight children are more numerous and conspicuous We see it in our neighborhoods and we read it in the headlines Our nation indeed the world is in crisis But knowledge is power and it s time to arm ourselves in the battle to win the war on obesity Fed Up is just what the doctor ordered Based in part on the Institute of Medicine s ground breaking report on childhood obesity this new book from family physician and journalist Susan Okie provides in depth background on the issue shares heartrending but instructive case studies that illustrate just how serious and widespread the problem is and gives honest authoritative science based advice that constitute our best weapons in this critical battle The 'Fat' Female Body S. Murray,2008-09-30

Investigating the current interest in obesity and fatness this book explores the problems and ambiguities that form the lived experience of fat women in contemporary Western society Engaging with dominant ideas about fatness and analysing the assumptions that inform anti fat attitudes in the West The Fat Female Body explores the moral panic over the obesity epidemic and the intersection of medicine and morality in pathologising fat bodies It contributes to the emerging field of fat studies by offering not only alternative understandings of subjectivity the re production of public knowledge s of fatness and politics of embodiment but also the possibility of re reading fat bodies to foster more productive social relations **A**
