Congress. House. Committee on the Budget,1977 **The Welfare State Crisis and the Transformation of Social Service Work** Michael Fabricant,Steve F. Burghardt,Irwin Epstein,2016-09-16 This book has emerged in response to social service workers vivid descriptions of changes in the practice of their craft during the past 15 years and to the scanty literature that addressed their concerns Few works have attempted to explore the interplay between the recent broader changes affecting the welfare state fiscal crisis cost containment privatization etc and the restructuring of social service work Yet it is clear that the fiscal decisions of the 1980s profoundly affected both the context and content of social service practice The Welfare State Crisis and the Transformation of Social Service Work explores how these larger forces have created significant changes for the line practitioner The greater push for caseload volume in the face of resource scarcity is redefining service encounters in ways that are more likely to meet the fiscal needs of the agency rather than the service needs of clients and the professional concerns of the worker In short the fiscal crisis of the past two decades has placed the enterprise of social services at risk After empirically documenting the seriousness of the risk The Welfare State Crisis and the Transformation of Social Service Work concludes with an exploration of new social service practice strategies that have the potential to integrate the

individual organization communal and social changes necessary for effective service interventions **The Politics Of Budget Control** John A. Marini, 2014-02-04 First Published in 1992 The federal budget has attained unparalleled significance at the heart of American politics in the last quarter of the twentieth century The modern budget system has become the mechanism by which a distinctively American administrative state was put in place and made operative The growth of the administrative state has transformed politics in America but many Americans are unaware of its existence This study looks at budget control within the realms of Congress the Presidency and the development of the Administrative State *Economic Outlook for Fiscal Years 1978 and 1979* United States. Aquaculture, Innovation and Social Transformation Keith Culver, David Castle, 2008-09-15 Keith Culver and David Castle Introduction Aquaculture is at the leading edge of a surprisingly polarized debate about the way we produce our food According to the United Nations Food and Agriculture Organization aquaculture production has increased 8.8% per year since 1970 far surpassing productivity gains in terrestrial meat production at 2.8% in the same period FAO 2007 Like the green revolution before it the blue revolution in aquaculture promises rapidly increased productivity through technology driven intensification of aquaculture animal and plant production Costa Pierce 2002 The Economist 2003 Proponents of further aquaculture development emphasize aquaculture's ancient origins and potential to contribute to global food security during an unprecedented collapse in global fisheries World Fish Center Meyers and Worm 2003 Worm et al 2006 For them technology driven intensification is an ordinary and unremarkable extension of past practice Opponents counter with images of marine and freshwater environments devastated by intensive aquaculture practices producing unsustainable and unhealthy food products They view the promised revolution as a scam nothing more than clever marketing by profit hungry shareholders looking for ways to distract the public from the real harms done by aquaculture The stark contrast between proponents and opponents of

modern aquaculture recalls decades of disputes about intensive terrestrial plant and animal agriculture disputes whose vigor shows that the debate is about much more than food production Ruse and Castle 2002
