*Bodies Out of Bounds* Jana Evans Braziel, Kathleen LeBesco, 2001-09-13 This is an exceptional collection the subject is of obvious importance yet terribly undertheorized and unexamined I know of no other work that offers what this collection provides Marcia Millman author of *Such a Pretty Face Being Fat in America* A valuable contribution to scholarly debates on the place of excessive bodies in contemporary culture This book promises to enrich all areas of inquiry related to the politics of bodies Carole Spitzack author of *Confessing Excess Women and the Politics of Body Reduction* This anthology includes a wide range of perceptive and original essays which explore and analyze the underlying ideologies that have made fat incorrect Echoing the spirit of the nineteenth century adage about children who should be neither seen nor heard some of the authors powerfully remind us that we keep bodies out of bound silenced and unseen unless of course we need to peek at the comic or grotesque Raquel Salgado Scherr co author of *Face Value The Politics of Beauty* Through textual analyses video film analyses television theory and literary theory this collection demonstrates the various ways in which dominant representations of fat and corpulence have been both demonized and rendered invisible This volume will be a crucial corollary to work on the tyranny of slenderness a collection of different perspectives on the fat body is sorely missing in women s studies communication and media studies Sarah Banet Weiser author of *The Most Beautiful Girl in the World Beauty Pageants and National Identity*

*Making It Home* Teresa Strasser, 2023-06-06 This is a story about a team that

becomes a family and a family that becomes a team a wonderful book Cal Ripken Jr A MUST READ USA TODAY ONE OF THE BEST BOOKS OF 2023 An achingly heartfelt and surprisingly funny memoir about family grief and moving forward When her brother dies from cancer and then her mother just four months later Teresa Strasser has no one to mourn with but her irresponsible cantankerous trailerpark dwelling father He claims not to remember her chaotic childhood but he s a devoted grandpa so as her son embarks on his first season pitching in Little League Teresa and Nelson form a grief group of two in beach chairs lined up behind the first base line There are no therapeutically trained facilitators and no rules other than those dictated by the Little League of America and the human heart For Teresa and her father the stages of grief are the draft the regular season and the playoffs One season of baseball becomes the framework for a memoir about family loss and the fundamentals of baseball and life They cheer talk smack about other teams scream at each other in the parking lot and care way too much about Little League Making It Home is a bracingly honest journey through grief self doubt and anxiety armed with humor and optimism After all America s pastime may be just a game but it always leaves room for redemption even at the bottom of the lineup *Draw Box* John L. Moen,2016-12-05 Mankinds search for an inhabitable planet within reach or at least within a single lifetimes reach had not been realized The two international space stations the Eclipser and Star 9 had over the last decade turned their research toward their own existence The Eclipser was named for its size and Star 9 named for its continual orbit nine hundred miles beyond the outer reaches of the Earths atmosphere Both stations were self sustaining and no longer required the existence of Earth Each had its own ecosystem and produced its own biomass fuels The Eclipser housed 4 300 crew members along with 3 000 cryogenically stored living embryos Star 9 housed 2 100 crew members with 1 900 living embryos onboard These living embryos were to be born through extrauterine fetal incubation as needed to replace aging or ailing crew members Each station had made many great discoveries in medicine and science but these discoveries had done little to help the nine billion inhabitants of earth This had in part caused them to turn their research exclusively to themselves Over the last decade the Eclipser and Star 9 had observed a dark cloud beginning to form on the surface of the earth This is not the story of the space station Eclipser or Star 9 This is the story of the ones who remained on earth of the ones who lived and of the ones who died beneath this darkening cloud called Hunger
