Fatal History Of Portuguese Ceylon Transition To Dutch Rule

Markus Vink

Fatal History Of Portuguese Ceylon Transition To Dutch Rule:

The Fatal History of Portuguese Ceylon George Davison Winius,1971 **Dutch and British Colonial Intervention in Sri Lanka, 1780-1815** Alicia Schrikker,2007-03-31 This study examines the colonial intervention in Sri Lanka at the end of the eighteenth century when British rule replaced Dutch rule on the island It focuses on the local reforms in the Dutch administration and policymaking on the island prior to the take over and the various ways in which the British colonial government dealt with the Dutch legacy Native agency in the colonial state formation process the influence of the revolutions that swayed Europe at the time and changes in Dutch and British colonial exploitation are addressed respectively in an effort to characterize the transition of colonial regimes in Asia during this revolutionary era **The Oxford History of the British Empire: Historiography** Robin W. Winks,1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries Illustrations and Views of Dutch Ceylon 1602-1796 R. Rajpal Kumar De Silva,1988 **Illustrations and Views of Dutch Ceylon 1602-1796** Rajpal Kumar De Silva,Silva,Beumer,2023-07-31 **Studies on Portuguese Asia, 1495-1689** George D. Winius,2024-10-28 Portuguese Asia otherwise known as the Estado da ndia Oriental has been far less studied than the Spanish empire in America its counterpart in the Western hemisphere It differed from that vast entity in that it was essentially a maritime trading operation held together by strategic territories such as Goa Ceylon or Macau For more than a century these afforded it control of much of the Indian Ocean As Professor Winius shows it was certainly the most peculiar and colourful operation that existed in the history of European expansion even giving rise to a second shadow empire created by escapees and renegades from its royal administration Some of these essays reflect on Portuguese involvement in other areas notably the Atlantic and the impact this had in the East but their focus is on the Portuguese in South and Southeast Asia They describe its nature and its rise and fall from the first voyage of Vasco da Gama to its dismemberment by the Dutch in the mid seventeenth century and include studies on the jewel trade and on the Renaissance in Goa **Encounters on the Opposite Coast: The Dutch East India Company and the Nayaka State of Madurai in the Seventeenth Century** Markus Vink,2015-10-14 In Encounters of the Opposite Coast Markus Vink provides a narrative of the first half century of cross cultural interaction between the Dutch East India Company VOC one of the great northern European chartered companies and Madurai one of the great southern Nayakas and successor states of the Vijayanagara empire in southeast India c 1645 1690 A shared interest in trade and at times converging political objectives formed the unstable foundations for a complex relationship fraught with tensions a mixture of conflict and coexistence typical of the age of contained conflict Drawing extensively on archival materials Markus Vink covers a topic neglected by both Company historians and their Indian counterparts and sheds important light on a black hole in South Indian history **The Navigator** ,2010-10-25 Captain John Anderson served in the Dutch East India Company VOC as Pilot Major in a fleet of ships that set sail from Europe in December 1640 and returned with his ships in July 1643

This was Anderson's fourth voyage to the East Indies. His journey took three years during which time he safely brought a VOC fleet to Java and home again through tempests and full scale battles with the Portuguese at sea. In this the first ever edition of Anderson's Journal the editors have complemented his own words with chapters discussing the author's contributions to the History of Warfare in Asia Maritime Navigation and Early Modern Travel Writing (Dis)connected Empires Zoltán Biedermann, 2018-10-25 Dis connected Empires takes the reader on a global journey to explore the triangle formed during the sixteenth century between the Portuguese empire the empire of Kotte in Sri Lanka and the Catholic Monarchy of the Spanish Habsburgs. It explores nine decades of connections cross cultural diplomacy and dialogue to answer one troubling question why in the end did one side decide to conquer the other. To find the answer Biedermann explores the imperial ideas that shaped the politics of Renaissance Iberia and sixteenth century Sri Lanka. Dis connected Empires argues that whilst some of these ideas and the political idioms built around them were perceived as commensurate by the various parties involved differences also emerged early on. This prepared the ground for a new kind of conquest politics which changed the inter imperial game at the end of the sixteenth century. The transition from suzerainty driven to sovereignty fixated empire building changed the face of Lankan and Iberian politics forever and is of relevance to global historians at large. Through its scrutiny of diplomacy political letter writing translation practices warfare cartography and art Dis connected Empires paints a troubling panorama of connections breeding divergence and leading to communicational collapse. It examines a key chapter in the pre history of British imperialism in Asia highlighting how diplomacy and mutual understandings can under certain conditions produce conquest.

International Order in Diversity Andrew Phillips, J. C. Sharman, 2015-04-23 International relations scholars typically expect political communities to resemble one another the more they are exposed to pressures of war economic competition and the spread of hegemonic legitimacy standards. However historically it is heterogeneity not homogeneity that has most often defined international systems. Examining the Indian Ocean region the centre of early modern globalization Andrew Phillips and J C Sharman explain how diverse international systems can emerge and endure. Divergent preferences for terrestrial versus maritime conquest congruent traditions of heteronomy and shared strategies of localization were factors which enabled diverse actors including the Portuguese Estado da India Dutch and English company sovereigns and mighty Asian empires to co exist for centuries without converging on a common institutional form. Debunking the presumed relationship between interaction and homogenization this book radically revises conventional thinking on the evolution of international systems while deepening our understanding of a historically crucial but critically understudied world region.

Creolization and Diaspora in the Portuguese Indies Stefan Halikowski Smith, 2011-09-20 This book provides an original study of the sizeable Portuguese community in Ayutthaya the chief river state in Siam during a period of apparent decline 1640-1720. Portuguese populations were displaced from their chief settlements like Melaka and Makassar and attracted to the river states of mainland South East Asia by a protective model of kingship hopes of international trade and

the opportunity to harvest souls A variety of sources will be used to shed light on the fortunes and make up of this displaced mixed race tribe which was largely independent of the matrices of Portuguese colonial power and fared poorly alongside other foreign communities in this remarkably open dynamic environment Circumstances changed for the better after the National Revolution of 1688 when Portuguese started to fill many of the jobs at court and in commerce previously occupied by Frenchmen and northern Europeans

Empires between Islam and Christianity, 1500-1800 Sanjay

Subrahmanyam,2018-12-27 A wide ranging consideration of early modern Muslim and Christian empires covering the Iberian Ottoman and Mughal worlds including questions of political economy images and representations and historiography Empires Between Islam and Christianity 1500 1800 uses the innovative approach of connected histories to address a series of questions regarding the early modern world in the Indian Ocean the Mediterranean and the Atlantic The period between 1500 and 1800 was one of intense inter imperial competition involving the Iberians the Ottomans the Mughals the British and other actors Rather than understand these imperial entities separately Sanjay Subrahmanyam reads their archives and texts together to show unexpected connections and refractions He further proposes in this set of closely argued studies that these empires often borrowed from each other or built their projects with knowledge of other competing visions of empire The emphasis on connections is also crucial for an understanding of how a variety of genres of imperial and global history writing developed in the early modern world The book moves creatively between political economic intellectual and cultural themes to suggest a fresh geographical conception for the epoch Sanjay Subrahmanyam the preeminent practitioner of connected histories offers yet another set of fascinating encounters of peoples objects ideas and practices between the Ottoman Mughal and British empires As always he stays close to the archive but is nonetheless able to spin a wonderfully imaginative web of pictures and stories A delightful read Partha Chatterjee Columbia University

Asia in the Making of Europe, Volume III: A Century of Advance. Book 1 Donald F. Lach,Edwin J. Van Kley,2022-07-01 This monumental series acclaimed as a masterpiece of comprehensive scholarship in the New York Times Book Review reveals the impact of Asia s high civilizations on the development of modern Western society The authors examine the ways in which European encounters with Asia have altered the development of Western society art literature science and religion since the Renaissance In Volume III A Century of Advance the authors have researched seventeenth century European writings on Asia in an effort to understand how contemporaries saw Asian societies and peoples

Technology, Disease and Colonial Conquests, Sixteenth to Eighteenth Centuries George Raudzens,2022-10-04 The eight essays in this study reassess evidence about the plausibility of the widely accepted guns and germs theories which put forward firepower advantages and inadvertent disease importation as the two main causes of European imperial expansion overseas during the sixteenth seventeenth and eighteenth centuries All argue that these theories are important but oversimplified The effectiveness of firepower and disease impacts on specific groups of New World indigenes were always conditioned by time place and cultural characteristics Long range communication control

was sometimes more important Above all motives driving invasions and conquests were often more influential than means and methodologies This publication has also been published in paperback please click here for details

Asia in the Making of Europe Donald F. Lach,1993 **A History of Christianity in Asia, Vol. II** Samuel Hugh Moffett,2014-07-30

The story of Christianity in the West has often been told but the history of Christianity in the East is not as well known The seed was the same the good news of Jesus Christ for the whole world which Christians call the gospel But it was sown by different sowers it was planted in different soil it grew with a different flavor and it was gathered by different reapers It is too often forgotten that the faith moved east across Asia as early as it moved west into Europe Western church history tends to follow Paul to Philippi and to Rome and on across Europe to the conversion of Constantine and the barbarians With some outstanding exceptions only intermittently has the West looked beyond Constantinople as its center It was a Christianity that has for centuries remained unashamedly Asian A History of Christianity in Asia makes available immense amounts of research on religious pluralism of Asia and how Christianity spread long before the modern missionary movement went forth in the shelter of Western military might Invaluable for historians of Asia and scholars of mission it is stimulating for all readers interested in Christian history

Being a Christian in Sri Lanka Leonard Pinto,2015-07-14 Most people know something about their own religions That knowledge is usually restricted to what is going on at the present time When it comes to how their religions developed in their countries their knowledge is on shakier grounds As for religion in foreign lands well for many that information is nonexistent Author Leonard Pintos Being a Christian in Sri Lanka Historical Political Social and Religious Considerations is a critique based on the observations and experience of a Sri Lankan Christian Pinto shares the history and importance of religion in his native land Youll learn about Portuguese Dutch and British rule in the country formerly known as Ceylon and how each affected religion there Pinto dispels popular views about how ruling countries dealt with Christianity and other religions and with those who practiced them Youll learn how religion is practiced today from someone who lives it firsthand Pintos book goes beyond the boundaries of Sri Lanka in assessing the problems faced by Christianity from the corrosive effects of the Age of Enlightenment In Being a Christian in Sri Lanka Historical Political Social and Religious Considerations Pinto comes to the conclusion Sri Lanka would benefit from a Sri Lankan national identity for all its citizens Hegemony based on ethnicity and religion is dissuaded Youll also find Pintos conclusions relevant to other countries

The Oxford History of the British Empire: Volume V: Historiography Robin Winks,1999-10-21

The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the

significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future

European Warfare, 1494-1660 Jeremy Black, 2005-07-05 The onset of the Italian Wars in 1494 subsequently seen as the onset of modern warfare provides the starting point for this impressive survey of European Warfare in early modern Europe Huge developments in the logistics of war combined with exploration and expansion meant interaction with extra European forms of military might Jeremy Black looks at technological aspects of war as well social and political developments and effects during this key period of military history This sharp and compact analysis contextualises European developments and as establishes the global significance of events in Europe

How the East Was Won Andrew Phillips, 2021-10-14 How did upstart outsiders forge vast new empires in early modern Asia laying the foundations for today s modern mega states of India and China In How the East Was Won Andrew Phillips reveals the crucial parallels uniting the Mughal Empire the Qing Dynasty and the British Raj Vastly outnumbered and stigmatised as parvenus the Mughals and Manchus pioneered similar strategies of cultural statecraft first to build the multicultural coalitions necessary for conquest and then to bind the indigenous collaborators needed to subsequently uphold imperial rule The English East India Company later adapted the same define and conquer and define and rule strategies to carve out the West s biggest colonial empire in Asia Refuting existing accounts of the rise of the West this book foregrounds the profoundly imitative rather than innovative character of Western colonialism to advance a new explanation of how universal empires arise and endure

When people should go to the books stores, search opening by shop, shelf by shelf, it is really problematic. This is why we offer the book compilations in this website. It will unconditionally ease you to see guide **Fatal History Of Portuguese Ceylon Transition To Dutch Rule** as you such as.

By searching the title, publisher, or authors of guide you in point of fact want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best place within net connections.
