Fatal Impact An Account Of The In Cook:

Nights of Storytelling Raylene Ramsay, 2011-11-30 *Nights of Storytelling* is the first book to present and contextualize the founding texts of New Caledonia a country sui generis in the relatively little known French Pacific Extracts from literary ethnographic and historical works in English translation introduce the many voices of a diverse culture as it moves toward independence or the common destiny framed by the 1998 Noumea Agreements These texts reflect the coexistence of two major cultures indigenous and European shaped by the energies and shadows of empire and significantly influenced by one another From the founding stories of Kanak oral tradition to the contradictory reports by Cook and d Entrecasteaux from the accounts of the French colony s difficult first destiny as a penal settlement to the construction of settler mythologies the book investigates the nature of overlapping spaces created by cultural contact between Europe and the Pacific The final section focuses on the literary effervescence of the contemporary period and its revisiting of colonial histories in the difficult movement toward a national identity Historical romances describe the harshness of life for freed convicts the impossibility of love between a liberated prisoner and a free settler Sagas of late nineteenth century indentured laborers seeking a living on the nickel rich main island speak similarly of physical struggle sacrifice and ultimately of contribution to the country s development and the right to a place in the new land Kanak texts disseminate that community s oral culture and largely silenced voice through the printed word In a world still moving from colonial to postcolonial frames the engagement of these works with vital contemporary questions of historical legacy legitimacy and cultural hybridity is intensely political Aesthetics is a political ethics as the different communities of New Caledonia experiment with artistic and textual forms to write their distinctive place in the land *Nights of Storytelling* is a collaborative work complemented by *La nuit des contes* a subtitled DVD of images and text which features key works read or spoken generally in the original French It provides visual and aural access for the book s Anglophone readers to the specific cultural linguistic and geographic contexts of these historical and literary works

Islands of Truth Daniel Clayton, 2011-11-01 In *Islands of Truth* Daniel Clayton examines a series of encounters with the Native peoples and territory of Vancouver Island in the late eighteenth and early nineteenth centuries Although he focuses on a particular region and period Clayton also meditates on how representations of land and people and studies of the past serve and shape specific interests and how the dawn of Native Western contact in this part of the world might be studied 200 years later in the light of ongoing struggles between Natives and non Natives over land and cultural status Between the 1770s and 1850s the Native people of Vancouver Island were engaged by three sets of forces that were of general importance in the history of Western overseas expansion the West s scientific exploration of the world in the Age of Enlightenment capitalist practices of exchange and the geopolitics of nation state rivalry Islands of

Truth discusses these developments the geographies they worked through and the stories about land identity and empire stemming from this period that have shaped understanding of British Columbia's past and present Clayton questions premises underlying much of present B C historical writing arguing that international literature offers more fruitful ways of framing local historical experiences Islands of Truth is a timely provocative and vital contribution to post colonial studies

South Sea Maidens Michael Sturma, 2002-03-30 From the first European contact with Tahiti in 1767 the myth of the South Sea maiden has endured through many incarnations Although the maiden frequently provided an idealized antidote to Western women's self assertion the South Pacific also afforded a space where boundaries between the sexes could be relaxed and transgressed From James Cook and Captain Bligh to James Michener and Margaret Mead the Island girl has occupied a special place in the erotic imagination of the West In a sweeping study that embraces history literature visual arts anthropology and film this study gives fresh insight into the myths and reality of a Western icon While women from far off lands have always been presented as exotic and alluring the South Sea maiden has come to symbolize feminine sexuality as an integral part of the adventure sensuality and romance of the South Pacific Everyone from early explorers to 19th century writers and artists to latter day anthropologists film makers and tourism promoters have extolled their virtues and their bodies Sturma looks behind the popular cliché to reveal how the myth making process reflected not only Western desires but the cut and thrust of changing sexual politics The result is an intriguing look at both South Sea image makers and the women whom they found so seductive

Strangers in the South Seas Richard Lansdown, 2006-01-01 Long before Magellan entered the Pacific in 1521 Westerners entertained ideas of undiscovered oceans mighty continents and paradisaic islands at the far ends of the earth such ideas would have a long life and a deep impact in both the Pacific and the West With the discovery of Tahiti in 1767 another powerful myth was added to this collection the noble savage For the first time Westerners were confronted by a people who seemed happier than themselves This revolution in the human sciences was accompanied by one in the natural sciences after Darwin's momentous visit to the Galapagos Islands The Pacific produced other challenges for nineteenth century researchers on race and culture and for those intent on exporting their religions to this immense quarter of the globe As the century wore on the region presented opportunities and dilemmas for the imperial powers a process was accelerated by the Pacific War between 1941 and 1945 Strangers in the South Seas recounts and illustrates this story using a wealth of primary texts It includes generous excerpts from the work of explorers soldiers

naturalists anthropologists artists and writers some famous some obscure It shows how the Great South Sea has been an irreplaceable distant mirror of the West and its intellectual obsessions since the Renaissance *Seal Fisheries of the Falkland Islands and Dependencies* Anthony B. Dickinson, 2017-10-18 This study offers a chronological history of seal fishing in the Falkland Islands and Dependencies from the eighteenth century to the early twenty first It concerns the fluctuating seal population due to sealing the Atlantic and global demand for seal fur and oil the competition between American British and Canadian sealers over the territory s seal stocks and the attempts by various ruling governments to prioritise domestic sealing maintain sufficient seal stocks and continue to make profit It is comprised of nine chapters the first and last chapters of which serve as introduction and conclusion The study also includes eight appendices presenting tabled statistics and a select bibliography The appendices concern seal skin imports into London vessel details at Puerto Soledad the value and amount of seal products exported from the Falklands Canadian sealing vessels entering Port Stanley seal catch and oil yield in South Georgia South Georgian seal catch summaries South Georgian commercial catches by sealing division and marine mammal products landed in the Newfoundland fisheries region British Travel Writers in Europe 1750-1800 Katherine Turner, 2017-11-01 This title was first published in 2001 Hundreds of European travelogues produced by British travellers between 1750 and 1800 remain out of sight in most libraries and have generally been out of print since the 18th century While many people with a working knowledge of the 18th century are familiar with works including Sterne s *A Sentimental Journey* and Smollett s *Travels through France and Italy* those produced by less literary travellers are largely unknown This study aims to recreate the world of 18th century travel writing in order to illuminate its central role in shaping Britain s emerging sense of national identity an identity which proves to be more complex and less homogeneous than some cultural and historical studies would suggest The author finds that the developing discourse of national character is bound up with questions of gender national and authorial virtue are projected in terms of appropriately gendered behaviour for male and female travel writers alike In turn gender intersects with class most obviously in the tendency to denigrate aristocratic travellers as effeminate and celebrate the more manly activities of the middle class traveller These then national identity authorship and gender are the central preoccupations of the study **Romantic Localities** Christoph Bode, Jacqueline Labbe, 2015-10-06 *Romantic Localities* explores the ways in which Romantic period writers of varying nationalities responded to languages landscapes both geographical and metaphorical and literatures **Longitude and Empire** Brian W. Richardson, 2010-10-01 Before Captain Cook s three voyages to Europeans the globe was uncertain and dangerous after it was comprehensible and ordered Written as a conceptual field guide to the voyages *Longitude and Empire* offers a significant rereading of both the expeditions and modern political philosophy More than any other work printed accounts of the voyages marked the shift from early modern to modern ways of looking at the world The globe was no longer divided between Europeans and savages but populated instead by an almost overwhelming variety of national identities Cook s

voyages took the fragmented and obscure global descriptions available at the time and consolidated them into a single comprehensive textual vision. Locations became fixed on the map and the people, animals, plants, and artifacts associated with them were identified, collected, understood, and assimilated into a world order. This fascinating account offers a new understanding of Captain Cook's voyages and how they affected the European world view. Georg Forster Todd Kontje, 2022-06-29. Georg Forster (1754-1794) was famous during his lifetime, notorious after his death, and largely forgotten by the late nineteenth century. Remembered today as the young man who sailed around the world with Captain Cook and as one of the leading figures in the revolutionary Republic of Mainz, Forster was also a prolific writer and translator who left behind two travelogues, a series of essays on diverse topics, and numerous letters. This in-depth look at Forster's work and life reveals his importance for other writers of the age. Todd Kontje traces the major intellectual themes and challenges found in Forster's writings, interweaving close textual analysis with his rich but short life. Each chapter engages with themes that reflect the current debates in eighteenth-century literary and cultural studies, including changing notions of authorship, multilingualism, the representation of so-called primitive societies, Enlightenment ideas about race, and early forms of ecological thinking. As Kontje shows, Forster's peripatetic life, malleable sense of national identity, and fluency in multiple languages contrast with the image of the solitary genius in the age of Goethe. In this way, Forster provides a different model of authorship and citizenship, better understood in the context of an increasingly globalized world. Compellingly argued and engagingly written, this book restores Forster to his rightful place within the German literary tradition and, in so doing, it urges us to reconsider the age of Goethe as multilingual and malleable, local and cosmopolitan, dynamic and decentered. It will be welcomed by specialists in German studies and the Enlightenment. **Inventing Australia** Richard White, 2020-07-28. White sets himself a most ambitious task, and he goes remarkably far to achieving his goals. Very few books tell so much about Australia with elegance and concision as does his. Professor Michael Roe. Stimulating and informative, an antidote to the cultural cringe. Canberra Times. To be Australian, what can that mean? *Inventing Australia* sets out to find the answers by tracing the images we have used to describe our land and our people: the convict hell, the workingman's paradise, the Bush legend, the typical Australian, from the shearer to the Bondi lifesaver, the land of opportunity, the small rich industrial country, the multicultural society. The book argues that these images, rather than describing an especially Australian reality, grow out of assumptions about nature, race, class, democracy, sex, and empire, and are invented to serve the interests of particular groups. There have been many books about Australia's national identity; this is the first to place the discussion within an historical context to explain how Australians' views of themselves change and why these views change in the way they do. **The Pacific Islands** Brij V. Lal, Kate Fortune, 2000-01-01. An encyclopaedia of information on major aspects of Pacific life, including the physical environment, peoples, history, politics, economy, society, and culture. The CD-ROM contains hyperlinks between section titles and sections, a library of all the maps in the encyclopaedia, and a photo library. Our Man Elsewhere Thornton
